Empowering Communities: community-centred approaches to improving wellbeing and health in Northumberland

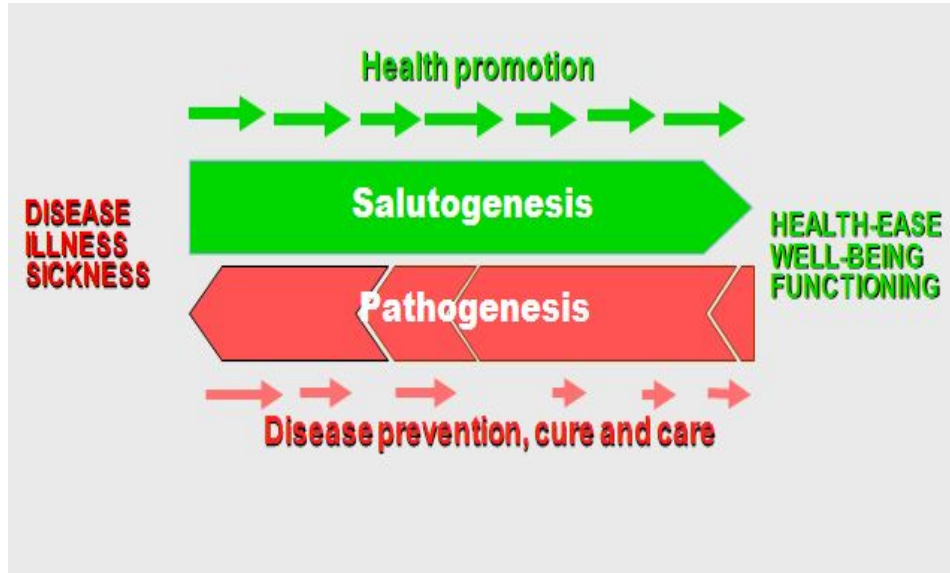

North Local Area Council meeting

21 May 2019

Dr Jim Brown, Consultant in Public Health

www.northumberland.gov.uk

The need for a cultural shift

- Away from single issue, individual lifestyle change
- Focus on what makes us **well** and **wellbeing**
- Building on the **positives (our assets)**
- Working **with communities** rather than doing to
- **Salutogenesis** rather than pathogenesis

So what does this different approach look like?

Drivers for change

National

The Care Act 2014 - putting wellbeing at the heart of care and support

NHS Five Year Forward View (5YFV) - empowering patients, engaging communities

General Practice Forward View (2016)

5YFV Mental Health

Cross-Government Loneliness strategy (2018)

NHS Long Term Plan (2019)

Local

Joint Health and Wellbeing Strategy - empowering people and communities

Director of Public Health Annual Reports 2015 and 2016

NCC Corporate Plan

CCG Operational Plan

NHCFT Prevention Strategy

The family of community-centred approaches

What are the benefits and risks?

- Adequate **social relationships** lead to a greater likelihood of survival
- **Volunteering** is strongly associated with better health & wellbeing outcomes
- Effective in improving **health behaviours, self-efficacy & social support**
- Positive impacts on **housing, crime, social capital & community empowerment**
- Potential harms - **burnout** of volunteers & **barriers** to groups already at risk of social exclusion

Overview - Empowering Communities project (2.5 years)

- **Locality Coordinators** embedded within VCS/not for profit **Host Organisations**
 - One in each of five Local Area Council areas
 - Initially role to map and mobilise assets with a view to recommending approaches to improving wellbeing and health that are priorities for the communities and other stakeholders in the locality.

- **Grants for community-centred approaches**
 - Informed by the work of the locality coordinators

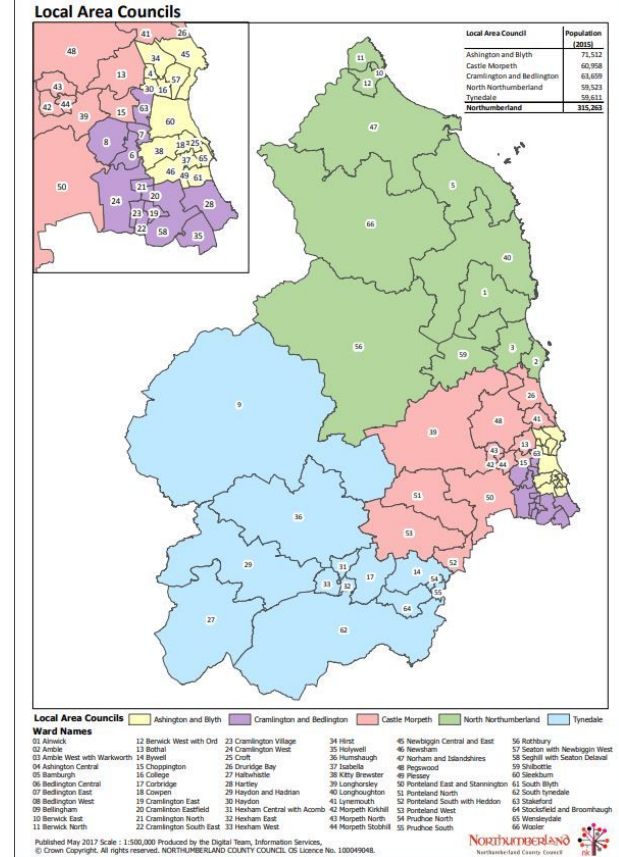

Objectives - Empowering Communities project

- To map and mobilise existing assets within communities, develop new and existing assets, and link people to assets, including those to address socioeconomic determinants of health.
- To increase individual and community participation (including volunteering), involvement in decision making, and feelings of control and confidence.
- To increase community activity, social networks and social capital.
- To co-create sustainable benefits for individuals and communities.

Locality coordinators... first 6 months

- Build links with communities and wider stakeholders in locality
- Map and mobilise the knowledge, skills and time of individuals and the resources ('assets') within communities, develop new and existing assets, and link people to assets
- Use participatory methods with communities and wider stakeholders in that locality to find out what would strengthen those assets
- Support existing or set up new locality network(s) and forums
- Explore with communities the need for and best way of developing a county-wide directory of groups, organisations and services that includes locality specific information
- Agree with communities and other stakeholders the best approach(es) for that locality

Locality coordinators... from 6 months

- Support implementation of agreed recommendations
- Support groups/organisations to secure grants from range of options
- Sustain locality networks and directory/ies
- Coordinate and link activities within the locality
- Adopt other principles of Local Area Coordination:
 - Build sustainable local, non-service solutions to support needs
 - Develop community leadership
- Support evaluator in carrying out a locality based evaluation

Roles of Host Organisations

- Support recruitment of Locality Coordinator in locality
- Geographical base for Locality Coordinator
- Embed Locality Coordinator within team/organisation
- Support and co-deliver asset mapping
- Link to existing networks and share knowledge of communities
- Help to promote cultural change towards asset-based, community-centred approaches
- Support the Locality Coordinator to engage with the communities in the locality
- Support sustainability of the model and own organisation
- Support the evaluation, including 'peer researcher' model

Where are we now?

- Locality coordinator (North) started March 2019: **Ruth Armstrong** 07967 809832
Ruth.Armstrong@northumbria-healthcare.nhs.uk
- Host organisation in North Northumberland: **Bell View**
- Micro-grants process
 - Via locality coordinators
 - Process for any larger grants being developed
- Asset mapping tool
 - Capture intelligence from interactions of locality coordinators with the community and professionals.
 - 'Digital journey' for locality coordinator to refer back to
 - Produce locality reports
 - Community directory - social prescribing link workers
 - Use in evaluation

Evaluation

- Aims
 - To assess whether the aims and objectives of the project are being or have been achieved, and the impacts that have resulted.
 - To assess how appropriate the project aims and objectives were at the outset of the project and critically appraise key assumptions in the rationale and design of the project.
 - To inform the design and funding of future asset-based, community-centred approaches to improving wellbeing and health in Northumberland.
- Who is carrying out the evaluation?
 - Asset Based Consulting www.assetbasedconsulting.co.uk
 - 'Making a difference' workshop in each Locality during June

Our ask of the Local Area Councils

1. Help the Locality Coordinator to identify your communities' assets
 - Skills/knowledge/commitment of community members
 - Local groups & organisations, informal networks
 - Physical, environmental and economic resources
 - Assets of external agencies
2. Work with the Locality Coordinator and your communities to identify needs, build on aspirations and link assets to strengthen individuals and your community

Any Questions?
