

National funding formula: Impact of the schools national funding formula- all schools

The government has introduced a new national funding formula (NFF) for schools. This new funding system will support our aspiration that all children reach their full potential and succeed in adult life by <https://www.gov.uk/government/consultations/schools-national-funding-formula> and, <https://www.gov.uk/government/consultations/schools-national-funding-formula-stage-2>. It remains our intention that schools budgets should be set on the basis of a single, national formula – but a longer transition makes sense to provide stability for schools. Local authorities will continue to set to demonstrate the school-level impact of the NFF the government is publishing notional school-level allocations for 2018-19. These allocations have been aggregated to determine provisional local The NFF includes a gains cap of 3% per pupil in 2018-19 and a further 3% per pupil in 2019-20 above each school's 2017-18 pupil-led funding baseline. To further illustrate the impact of the NFF, the The figures set out below are not actual allocations for any specific year. Local authorities will continue to set a local formula, as they do now, for determining individual schools' budgets in 2018-19 and 2019-20.

Please note that:

- We have used the pupil characteristics data provided to us by local authorities through the 2017-18 Authority Proforma Tool. Funding baselines data for most maintained schools also
- These notional and illustrative school level allocations are calculated on the same basis as the school level figures used to determine provisional and illustrative local authority level
- Schools and local authorities can see a detailed explanation of their baselines and NFF calculations through the COLLECT system. the COLLECT reports will be launched shortly. <https://collectdata.education.gov.uk/CollectPortalLive>
- If schools or local authorities have queries about the data or calculation for particular schools, or about the data we have used, please contact the Department through, https://form.education.gov.uk/fillform.php?self=1&form_id=CCN1x5f8&type=form&ShowMsg=1&form_name=Contact+the+Department+for+Education&noRegister=false&ret=%2Fmodule%2Fservices&noLoginPrompt=1. Please include 'NFF data query' in the subject line.
- Pupil characteristics data and the underlying NFF calculations for individual schools have not been published, due to data confidentiality restrictions. Subject to approval, school-level NFF https://form.education.gov.uk/fillform.php?self=1&form_id=CCN1x5f8&type=form&ShowMsg=1&form_name=Contact+the+Department+for+Education&noRegister=false&ret=%2Fmodule%2Fservices&noLoginPrompt=1
- Please include 'NFF data access request' in the subject line. You will be asked to complete an electronic confidentiality declaration explaining the purpose for which the information is
- To apply the formula fairly to new schools that are still filling up we have calculated their allocation in a different way. We have worked out the baseline funding the school would receive if
- Some schools are receiving gains of greater than 3% in 2018-19 and greater than 6% in 2019-20 against their 2017-18 pupil-led baseline. Some of these schools will be attracting funding
- Funding amounts are given to the nearest £1k and percentages are given to the nearest 1dp.

* We are unable to calculate a meaningful percentage change in pupil-led funding for some schools as NFF school-led funding is greater than their whole previous year's funding so it is not
 ** We are not illustrating the impact of the NFF in 2018-19 and 2019-20 for new and growing schools. This is because these are schools that will see a substantial pupil number change so illustrating funding based on the 2017-18 pupil count will not be meaningful.

										SEPTEMBER 2017 INFORMATION		FINAL 18/19		JULY 2018 INFORMATION							
										The school's baseline funding is the total core funding received in 2017-18 (or 2017-18) through the schools block and MFG. Other grants/funding sources are excluded.				In the 2019-20 local authorities (LAs) will continue to determine funding locally. These columns show the amount the department will allocate to LAs in respect of each school in 2019-20, subject to pupil number changes. The table also shows: - the percentage change between each school's total between 2017-18 and 2019-20 (to note, this will also be influenced by changes in pupil numbers); - the percentage change in each school's pupil-led funding per pupil between 2017-18 and 2019-20 (this is the baseline we apply the funding floor to). LA level allocations in 2019-20 will reflect up to date pupil numbers.				To further illustrate the impact of the national funding formula, the government has published illustrative NFF funding as if the NFF had been implemented in full and without transition. It is important to note that these are not actual allocations for any specific year: they are illustrations based on 2018-19 data (and 2018/19 data for academies) for most schools to support understanding of the NFF. Actual allocations for future years will reflect updated pupil characteristics and pupil numbers and will be subject to future spending review decisions.

SEPTEMBER 2017 INFORMATION	FINAL 18/19	JULY 2018 INFORMATION	
The school's baseline funding is the total core funding received in 2017-18 (or 2017/18) through the schools block and MFG. Other grants/funding sources are excluded.		In the 2019-20 local authorities (LAs) will continue to determine funding locally. These columns show the amount the department will allocate to LAs in respect of each school in 2019-20, subject to pupil number changes. The table also shows: - the percentage change between each school's total between 2017-18 and 2019-20 (to note, this will also be influenced by changes in pupil numbers); - the percentage change in each school's pupil-led funding per pupil between 2017-18 and 2019-20 (this is the baseline we apply the funding floor to). LA level allocations in 2019-20 will reflect up to date pupil numbers.	To further illustrate the impact of the national funding formula, the government has published illustrative NFF funding as if the NFF had been implemented in full and without transition. It is important to note that these are not actual allocations for any specific year: they are illustrations based on 2018-19 data (and 2018/19 data for academies) for most schools to support understanding of the NFF. Actual allocations for future years will reflect updated pupil characteristics and pupil numbers and will be subject to future spending review decisions.
