

SP/180820/91

Statement from Cllr Deirdre Campbell, Member for Newsham

In 2007 this planning application was rejected on the grounds of access in and out of Carlton Avenue from Newcastle Road as it was a health and safety issue and an accident waiting to happen. This planning application is up for consideration again although nothing has changed, it is still a very busy road with even more traffic than before.

How on earth can you compare this area with the golf club area. This part has a doctor's surgery and straight across the road is the church, making this completely different to that of the golf club road.

Residents have objected time and time again. It makes it difficult for the emergency services because it is a very busy road.

I am asking you to listen to the residents that live there.
