AGENDA

PART I

It is expected that the matters included in this part of the agenda will be dealt with in public.

1. APOLOGIES

2. DISCLOSURES OF MEMBERS' INTERESTS

Unless already entered in the Council's Register of Members' interests, members are required where a matter arises at a meeting;

- a. Which **directly relates to** Disclosable Pecuniary Interest ('DPI') as set out in Appendix B, Table 1 of the Code of Conduct, to disclose the interest, not participate in any discussion or vote and not to remain in room. Where members have a DPI or if the matter concerns an executive function and is being considered by a Cabinet Member with a DPI they must notify the Monitoring Officer and arrange for somebody else to deal with the matter.
- b. Which **directly relates to** the financial interest or well being of a Other Registerable Interest as set out in Appendix B, Table 2 of the Code of Conduct to disclose the interest and only speak on the matter if members of the public are also allowed to speak at the meeting but otherwise must not take part in any discussion or vote on the matter and must not remain the room.
- c. Which **directly relates to** their financial interest or well-being (and is not DPI) or the financial well being of a relative or close associate, to declare the interest and members may only speak on the matter if members of the public are also allowed to speak. Otherwise, the member must not take part in discussion or vote on the matter and must leave the room.
- d. Which **affects** the financial well-being of the member, a relative or close associate or a body included under the Other Registerable Interests column in Table 2, to disclose the interest and apply the test set out at paragraph 9 of Appendix B before deciding whether they may remain in the meeting.
- e. Where Members have or a Cabinet Member has an Other Registerable Interest or Non Registerable Interest in a matter being considered in exercise of their executive function, they must notify the Monitoring Officer and arrange for somebody else to deal with it.

NB Any member needing clarification must contact monitoringofficer@northumberland.gov.uk. Members are referred to the Code of Conduct which contains the matters above in full. Please refer to the guidance on disclosures at the rear of this agenda letter.

3. DETERMINATION OF PLANNING APPLICATIONS

(Pages 1
- 6)

To request the committee to decide the planning applications attached to this report using the powers delegated to it.

Please note that printed letters of objection/support are no longer circulated with the agenda but are available on the Council's website at <http://www.northumberland.gov.uk/Planning.aspx>

4. 23/01737/FUL

(Pages 7
- 22)

New temporary access to site, land south of Beacon Farm, Beacon Lane, Cramlington, Northumberland, NE23 8AZ.

5. PLANNING APPEALS UPDATE

(Pages
23 - 36)

For Members' information to report the progress of planning appeals. This is a monthly report and relates to appeals throughout all 5 Local Area Planning Committees and covers appeals of Strategic Planning Committee.

6. DATE OF NEXT MEETING

The date of the next meeting will be held on 20 December 2023.

7. URGENT BUSINESS (IF ANY)

To consider such other business as, in the opinion of the Chair, should, by reasons of special circumstances, be considered as a matter of urgency.

IF YOU HAVE AN INTEREST AT THIS MEETING, PLEASE:

- Declare it and give details of its nature before the matter is discussed or as soon as it becomes apparent to you.
- Complete this sheet and pass it to the Democratic Services Officer.

Name:		Date of meeting:	
Meeting:			
Item to which your interest relates:			
Nature of Interest i.e. either disclosable pecuniary interest (as defined by Table 1 of Appendix B to the Code of Conduct, Other Registerable Interest or Non-Registerable Interest (as defined by Appendix B to Code of Conduct) (please give details):			
Are you intending to withdraw from the meeting?		Yes - <input type="checkbox"/>	No - <input type="checkbox"/>

Registering Interests

Within 28 days of becoming a member or your re-election or re-appointment to office you must register with the Monitoring Officer the interests which fall within the categories set out in **Table 1 (Disclosable Pecuniary Interests)** which are as described in "The Relevant Authorities (Disclosable Pecuniary Interests) Regulations 2012". You should also register details of your other personal interests which fall within the categories set out in **Table 2 (Other Registerable Interests)**.

"Disclosable Pecuniary Interest" means an interest of yourself, or of your partner if you are aware of your partner's interest, within the descriptions set out in Table 1 below.

"Partner" means a spouse or civil partner, or a person with whom you are living as husband or wife, or a person with whom you are living as if you are civil partners.

1. You must ensure that your register of interests is kept up-to-date and within 28 days of becoming aware of any new interest, or of any change to a registered interest, notify the Monitoring Officer.
2. A 'sensitive interest' is as an interest which, if disclosed, could lead to the councillor, or a person connected with the councillor, being subject to violence or intimidation.
3. Where you have a 'sensitive interest' you must notify the Monitoring Officer with the reasons why you believe it is a sensitive interest. If the Monitoring Officer agrees they will withhold the interest from the public register.

Non participation in case of disclosable pecuniary interest

4. Where a matter arises at a meeting which directly relates to one of your Disclosable Pecuniary Interests as set out in **Table 1**, you must disclose the interest, not participate in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest, just that you have an interest.

Dispensation may be granted in limited circumstances, to enable you to participate and vote on a matter in which you have a disclosable pecuniary interest.

5. Where you have a disclosable pecuniary interest on a matter to be considered or is being considered by you as a Cabinet member in exercise of your executive function, you must notify the Monitoring Officer of the interest and must not take any steps or further steps in the matter apart from arranging for someone else to deal with it.

Disclosure of Other Registerable Interests

6. Where a matter arises at a meeting which **directly relates** to the financial interest or wellbeing of one of your Other Registerable Interests (as set out in **Table 2**), you must disclose the interest. You may speak on the matter only if members of the public are also allowed to speak at the meeting but otherwise must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest.

Disclosure of Non-Registerable Interests

7. Where a matter arises at a meeting which **directly relates** to your financial interest or well-being (and is not a Disclosable Pecuniary Interest set out in **Table 1**) or a financial interest or well-being of a relative or close associate, you must disclose the interest. You may speak on the matter only if members of the public are also allowed to speak at the meeting. Otherwise you must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest.
8. Where a matter arises at a meeting which **affects** –
- a. your own financial interest or well-being;
 - b. a financial interest or well-being of a relative or close associate; or
 - c. a financial interest or wellbeing of a body included under Other Registrable Interests as set out in **Table 2** you must disclose the interest. In order to determine whether you can remain in the meeting after disclosing your interest the following test should be applied
9. Where a matter (referred to in paragraph 8 above) **affects** the financial interest or well- being:
- a. to a greater extent than it affects the financial interests of the majority of inhabitants of the ward affected by the decision and;
 - b. a reasonable member of the public knowing all the facts would believe that it would affect your view of the wider public interest

You may speak on the matter only if members of the public are also allowed to speak at the meeting. Otherwise, you must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation.

If it is a 'sensitive interest', you do not have to disclose the nature of the interest.

Where you have an Other Registerable Interest or Non-Registerable Interest on a matter to be considered or is being considered by you as a Cabinet member in exercise of your executive function, you must notify the Monitoring Officer of the interest and must not take any steps or further steps in the matter apart from arranging for someone else to deal with it.

BEDLINGTON, CRAMLINGTON AND SEATON VALLEY LOCAL AREA PLANNING COMMITTEE

DATE: 29TH NOVEMBER 2023

DETERMINATION OF PLANNING APPLICATIONS

Report of the Director of Housing & Planning (Chief Planning Officer)

Cabinet Member: Councillor C Horncastle

Purpose of report

To request the Bedlington, Cramlington and Seaton Valley Local Area Planning Committee to decide the planning applications attached to this report using the powers delegated to it.

Recommendations

The Bedlington, Cramlington and Seaton Valley Local Area Planning Committee is recommended to consider the attached planning applications and decide them in accordance with the individual recommendations, also taking into account the advice contained in the covering report.

Key issues

Each application has its own particular set of individual issues and considerations that must be taken into account when determining the application. These are set out in the individual reports contained in the next section of this agenda.

Author and Contact Details

Report author: Rob Murfin
Director of Housing & Planning

DETERMINATION OF PLANNING APPLICATIONS

Introduction

1. The following section of the agenda consists of planning applications to be determined by the Bedlington, Cramlington and Seaton Valley Local Area Planning Committee in accordance with the current delegation arrangements. Any further information, observations or letters relating to any of the applications contained in this agenda and received after the date of publication of this report will be reported at the meeting.

The Determination of Planning and Other Applications

2. In considering the planning and other applications, members are advised to take into account the following general principles:

- Decision makers are to have regard to the development plan, so far as it is material to the application
- Applications are to be determined in accordance with the development plan unless material considerations indicate otherwise
- Applications should always be determined on their planning merits in the light of all material considerations
- Members are reminded that recommendations in favour of giving permission must be accompanied by suitable conditions and a justification for giving permission, and that refusals of permission must be supported by clear planning reasons both of which are defensible on appeal
- Where the Strategic Planning Committee is minded to determine an application other than in accordance with the Officer's recommendation, clear reasons should be given that can be minuted, and appropriate conditions or refusal reasons put forward

3. Planning conditions must meet the tests that are set down in paragraph 56 of the NPPF and meet the tests set out in Community Infrastructure Levy Regulations 2010. Conditions must be:

- a. necessary to make the development acceptable in planning terms;
 - b. directly related to the development; and
 - c. fairly and reasonably related in scale and kind to the development.
4. Where councillors are contemplating moving a decision contrary to officer advice, they are recommended to consider seeking advice from senior officers as to what constitute material planning considerations, and as to what might be appropriate conditions or reasons for refusal.

1. Introduction

1.1 This application was referred to the Chairs of the Cramlington, Bedlington and Seaton Valley Committee and the Director of Planning and Housing and it was recommended that it be considered by Members of the Planning Committee.

2. Description of the Development

2.1 Site Location

2.2 The application site is located to the south-west of Cramlington, more specifically the parcel of land in question is located on the eastern perimeter of the Cramlington South West Sector site. The exact location is shown above.

2.3 Description of Proposals

2.4 The application seeks permission to introduce a temporary access to a parcel of land located to the eastern perimeter of the Cramlington South West Sector site.

2.5 The proposed temporary vehicular access would serve the 90 dwellings proposed to bring forward prior to the new link road being built, connecting this site through the wider approved site. It is therefore proposed to provide access to the site via Langdale Drive to the north of the site. Langdale Drive is a two-way carriageway route providing access through the residential estate to the north of the proposed site. It is bounded by footways to both sides of the carriageway, has street lighting and provides direct frontage access to properties along its length.

2.6 Langdale Drive is subject to a 30mph speed limit and is the primary route through the residential estate to the north, providing a loop arrangement to/from A1172 to the north of the site.

2.7 It is proposed to provide access from Landale Drive, to the west of the junction where Langdale Drive (east-west) meets the loop at Langdale Drive (to the north) at a priority T-junction.

2.8 The access will temporarily serve the Barratt Homes site and has been designed based on the design guidance contained within the Northumberland guidance. At the point when the link road is fully complete, the temporary access will be stopped up and the land in question returned to its previous use.

2.9 The temporary access is required for health and safety reasons, to protect residents from having to travel through areas with unoccupied plots. The point of providing access into the site involves the upgrading of the existing access, to the south of Langdale Drive, which currently serves a number of garages associated with residential properties in the vicinity.

2.10 The existing footpath from Beacon Lane to Dudley Lane will be maintained and a pedestrian crossing provided to protect pedestrians in this location. The proposed temporary access will tie in with a turning head being provided within the Barratt Homes site. It is also proposed to maintain the PROW at level, with a raised table being provided along the vehicular route. This will act as a speed reduction measure, as well as facilitating easier movement along the PROW. Tactile paving will be introduced to either side of the crossing to ensure that pedestrians are aware of the crossing.

Background

2.9 The wider Cramlington SWS site was granted outline planning consent in 2017 for 715 dwellings (Ref: B/08/00465/FUL). The parcel of land in question was due to be delivered by Keepmoat, however, Barratt Homes now plan on delivering this parcel. The plots being brought forward by Barratt Homes will likely be constructed before those immediately to the west and, therefore, before the link road through the surrounding SWS site is constructed.

4. Consultee Responses

Cramlington Town Council	<p>The Town Council objects to this proposal for the following reasons:</p> <ol style="list-style-type: none">1. It would result in unacceptable nuisance and loss of amenity to residents on Langdale Drive and adjacent areas2. It could result in significant road safety issues; this is particularly relevant given the proximity of Beaconhill School3. Traffic noise and pollution will increase significantly4. The town council is also concerned that there is no time limit attached to the application and with the potential for "temporary" route to be adopted as a permanent cut through. <p>It is felt that the developers should identify an alternative route that does not impact on existing residents outside the boundary of the original application.</p>
Rights of Way	No objection subject to the implementation of conditions.
Ecology	No objection subject to the implementation of conditions.
Highways	No objection subject to the implementation of conditions.

Archaeology	No objection.
Public Protection	No objection.
Active Travel England	No objection.

Notices

A site notice indicating that the proposal could potentially impact a public right of way was posted adjacent to the site on 04.07.2023.

A press notice was published in the News Post Leader on 16.06.2023.

Summary of Responses:

During the consultation process 32no objections were received raising the following issues:

- Parking issues
- Congestion
- Impact on road surface
- Road safety
- Length of time access will be in use
- Access to be used for public transport
- Whether the proposals are submitted in good faith
- Impact on use of cycle path
- Noise of vehicles
- Air pollution
- Ecological impact
- Impact on green space
- Obstruction to parking
- Developers not abiding to existing conditions
- Dust
- Vibrations
- The application is to avoid planning regulations
- Impact on cycle network in Cramlington
- Impact on parking access for adjacent garages
- Impact on children using the public right of way

The majority of the above issues will be addressed in the relevant section of the below report, some others will be addressed in this section (immediately below) as they are not materially planning concerns with regard to this proposal.

- Access to be used for public transport
- Whether the proposals are submitted in good faith
- Impact on green space

- Developers not abiding to existing conditions
- The application is to avoid planning regulations

The proposal does not seek to use the access for public transport. It is for the access of potential buyers for the new properties with no proposal to change any public transport agreements.

The LPA can only determine the legibility of a proposal in planning terms and on its merits, whether it is submitted in good faith or not makes no bearing on the decision. The LPA must determine whether it is in accordance with relevant policy or not.

The proposed works would not impact any areas of green space to any greater degree than the original approval.

In the event a member of the public feels a condition is broken then they should contact the enforcement team.

The application is determined as to whether it accords with planning regulations.

It is further noted that no recognised green space would be impacted by this proposal.

The above is a summary of the comments. The full written text is available on our website at: <https://publicaccess.northumberland.gov.uk/online-applications/simpleSearchResults.do?action=firstPage>

4.2 National Planning Policy

- NPPF - National Planning Policy Framework (NPPF) 2021
- NPPG - National Planning Practice Guidance (2021 PPG) as updated

7. Appraisal

7.1 In accordance with Section 38 (6) of the Planning and Compulsory Purchase Act 2004, planning applications should be determined in accordance with the development plan, unless material considerations indicate otherwise. In this case the development plan comprises the Northumberland Local Plan 2016-2036 (adopted March 22) and the Cramlington Neighbourhood Plan (Made Version 2020). The National Planning Policy Framework (NPPF) (2021) and Planning Practice Guidance (PPG) are material considerations in determining this application.

The main considerations in the assessment of this application are:

- Principle of the development
- Archaeological impact
- Highway safety
- Ecological impacts
- Rights of way
- Public Protection

Principle of the Development

7.2 The application proposes the introduction of a temporary access to the site of an existing development of which construction is ongoing. The access would be utilised by domestic vehicles only to provide access to the 90 dwellings that will be constructed within the eastern section of this site.

7.3 The principle of the residential development has been established under 15/00901/OUTES. The principle of establishing a new, temporary access must now be assessed.

7.4 The establishment of the new access point would facilitate the purchase of, and therefore access to, dwellings within a main town, providing a mix of homes that have already been approved under a previous approval as recognised by the Northumberland Local Plan.

7.5 The proposed access point would cross an existing cycle path and recognised public right of way. It is noted that the traffic using this access would not result in a solid obstruction of the right of way or the cycle path but would allow for intermittent crossings of vehicles and pedestrians for a limited period of time (two years). Whilst it is acknowledged that this proposal would temporarily inhibit these two existing sustainable connections (albeit to a limited degree), it is considered that the delivery of homes to a main town outweighs this negative impact on balance.

7.6 It is noted that the proposal would lead to an increase in traffic within the existing Beacon Hill residential estate (particularly along Langdale Drive). However, the vehicles accessing the site would be domestic cars. The access of domestic cars and not construction vehicles or plant machinery can be ensured through the imposition of condition. It is noted that the Highways and Public Rights of Way departments were both consulted on this application and have responded with no objections subject to the imposition of conditions thereby satisfying any concerns with regard to potential impacts on these access routes. These aspects are further detailed in the report below.

7.7 It is therefore considered that the proposed works are acceptable in principle and in accordance with Policies STP 1, STP 2, and STP 3 of the Northumberland Local Plan, and Policy CNP 1 of the Cramlington Neighbourhood Plan, and the NPPF.

Highways

7.8 Paragraph 111 of the NPPF states that development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.

7.9 Paragraph 112 of the NPPF states that within the above context developments should give priority first to pedestrian and cycle movements, address the needs of people with disabilities and reduced mobility, create places that are safe and attractive, minimise the scope for conflicts between all road users, avoid unnecessary street clutter, respond to local character and design standards, allow for the efficient delivery of goods and access for emergency services, be designed to enable charging of ultra-low emission vehicles

7.10 Policy TRA 2 of the Northumberland Local Plan states that all developments affecting the transport network will be required to; provide effective and safe access and egress to the existing transport network; include appropriate measures to avoid, mitigate and manage any significant impacts on highway capacity, congestion or on highway safety including any contribution to cumulative impacts; minimise conflict between different modes of transport, including measures for network, traffic and parking management where necessary; facilitate the safe use of the network, including suitable crossing points, footways and dedicated provision for cyclists and equestrian users where necessary; suitably accommodate the delivery of goods and

supplies, access for maintenance and refuse collection where necessary, and; minimise any adverse impact on communities and the environment, including noise and air quality.

7.11 Policy TRA 4 states that an appropriate amount of off-street vehicle parking sufficient to serve new development shall be made available in safe, accessible and convenient locations prior to the development, as a whole or in part, being brought into use. Vehicle parking should normally be provided in accordance with the parking standards set out in Appendix E of the Local Plan.

7.12 With the proposed works potentially altering the relationship between the site and surrounding highway network and concerns raised regarding parking, congestion, impact on the road surface, road safety, and impact on the cycle network, Highways have been consulted and have responded with a stance of no objections subject to the imposition of conditions which would ensure a limit of 24 months of use for the access with the access only being used for domestic vehicles and not construction vehicles or plants. The condition would be imposed in conjunction with a Section 278 agreement.

7.13 With the proposed works not considered to result in any significant negative impact upon the surrounding highway network, the proposed works are recognised to be acceptable and in accordance with Policies TRA 2 and TRA 4 of the Northumberland Local Plan and the NPPF.

Ecology

7.14 Due to the location of the site and the potential impact the works may have on the ecological value of the locality Ecology have been engaged with through consultation and have responded with a stance of no objection subject to the imposition of conditions.

7.15 The conditions set out would ensure that biodiversity value of the hedgerows within and adjacent to the site would be retained and the recreational pressure put on the surrounding SSSIs is managed.

7.16 With no objection raised by Ecology it is considered that the proposed works would accord with Policy ENV 2 of the Northumberland Local Plan, and Policy CNP 1 of the Cramlington Neighbourhood Plan, and the NPPF.

Rights of Way

7.17 Paragraph 100 of the NPPF states that decisions should protect and enhance public rights of way and access, including taking opportunities to provide better facilities for users, for example by adding links to existing rights of way networks including National Trails.

7.18 Policy TRA 1 of the Northumberland Local Plan states that where applicable and appropriate, development will be required to protect, enhance and support public rights of way.

7.19 With the proposed works potentially impacting a recognised public right of way negatively and concern raised through public consultation the Public Rights of Way department have been consulted and have responded with a stance of no objection. An informative has been put forward.

7.20 With the no objection raised from Public Rights of Way the proposal is recognized to be acceptable in this respect, in accordance with Policy TRA 1 of the Northumberland Local Plan and the NPPF.

Public Protection

7.21 Paragraph 183 of the NPPF states that planning decisions should ensure that: a site is suitable for its proposed use taking account of ground conditions and any risks arising from land instability and contamination. This includes risks arising from natural hazards or former activities such as mining, and any proposals for mitigation including land remediation (as well as potential impacts on the natural environment arising from that remediation); after remediation, as a minimum, land should not be capable of being determined as contaminated land under Part IIA of the Environmental Protection Act 1990; and, adequate site investigation information, prepared by a competent person, is available to inform these assessments.

7.22 Paragraph 184 of the NPPF states that where a site is affected by contamination or land stability issues, responsibility for securing a safe development rests with the developer and/or landowner.

7.23 Paragraph 185 of the NPPF states that planning policies and decisions should also ensure that new development is appropriate for its location taking into account the likely effects (including cumulative effects) of pollution on health, living conditions and the natural environment, as well as the potential sensitivity of the site or the wider area to impacts that could arise from the development. In doing so they should: mitigate and reduce to a minimum potential adverse impacts resulting from noise from new development – and avoid noise giving rise to significant adverse impacts on health and the quality of life; identify and protect tranquil areas which have remained relatively undisturbed by noise and are prized for their recreational and amenity value for this reason; and, limit the impact of light pollution from artificial light on local amenity, intrinsically dark landscapes and nature conservation.

7.24 Paragraph 186 of the NPPF states that planning policies and decisions should sustain and contribute towards compliance with relevant limit values or national objectives for pollutants, taking into account the presence of Air Quality Management Areas and Clean Air Zones, and the cumulative impacts from individual sites in local areas. Opportunities to improve air quality or mitigate impacts should be identified, such as through traffic and travel management, and green infrastructure provision and enhancement. So far as possible these opportunities should be considered at the plan-making stage, to ensure a strategic approach and limit the need for issues to be reconsidered when determining individual applications. Planning decisions should ensure that any new development in Air Quality Management Areas and Clean Air Zones is consistent with the local air quality action plan.

7.25 Paragraph 187 of the NPPF states that the focus of planning policies and decisions should be on whether proposed development is an acceptable use of land, rather than the control of processes or emissions (where these are subject to separate pollution control regimes). Planning decisions should assume that these regimes will operate effectively. Equally, where a planning decision has been made on a particular development, the planning issues should not be revisited through the permitting regimes operated by pollution control authorities.

7.26 Policy POL 1 of the Northumberland Local Plan states that development proposals will be supported where it can be demonstrated that unacceptable risks from land instability and contamination will be prevented by ensuring the

development is appropriately located and that measures can be taken to effectively mitigate the impacts.

7.27 Policy POL 2 of the Northumberland Local Plan states that development proposals in locations where they would cause, or be put at unacceptable risk of harm from, or be adversely affected by pollution by virtue of the emissions of fumes, particles, effluent, radiation, smell, heat, light, noise or noxious substances will not be supported. Development proposals that may cause pollution of water, air or soil, either individually or cumulatively, are required to incorporate measures to prevent or reduce their pollution so as not to cause nuisance or unacceptable impacts on the environment, people or biodiversity. Development proposed where pollution levels are unacceptable, and unable to be mitigated to acceptable levels, will not be supported.

7.28 Policy CNP25 of the Cramlington Neighbourhood Plan states that all new development will be considered in the context of the need to improve the health and wellbeing of communities by requiring development to contribute to creating an age friendly, healthy and equitable living environment by preventing negative impacts on residential amenity and wider public safety from: noise, ground instability, ground and water contamination, vibration and air quality.

7.29 With the proposed works potentially impacting the locality in terms of environmental health and concerns raised regarding vehicle noise, air pollution, dust, and vibrations Public Protection have been consulted and have responded with a stance of no objection.

7.30 With no objection raised by Public Protection the proposed works are considered to be acceptable in this regard and in accordance with Policies POL 1 and POL 2 of the Northumberland Local Plan, Policy CNP25 of the Cramlington Neighbourhood Plan, as well as the NPPF.

Archaeology

7.31 With the site being recognised to be located within the historic land use database Archaeology have been consulted and have responded with a stance of no objections. As such, the proposed works are in accordance with Policy ENV 7 and the NPPF.

Equality Duty

7.32 The County Council has a duty to have regard to the impact of any proposal on those people with characteristics protected by the Equality Act. Officers have had due regard to Sec 149(1) (a) and (b) of the Equality Act 2010 and considered the information provided by the applicant, together with the responses from consultees and other parties, and determined that the proposal would have no material impact on individuals or identifiable groups with protected characteristics. Accordingly, no changes to the proposal were required to make it acceptable in this regard.

Crime and Disorder Act Implications

7.33 The proposal has no implications in relation to crime and disorder

Human Rights Act Implications

7.34 The Human Rights Act requires the County Council to take into account the rights of the public under the European Convention on Human Rights and prevents the Council from acting in a manner which is incompatible with those rights. Article 8 of the Convention provides that there shall be respect for an individual's private life and home save for that interference which is in accordance with the law and necessary in a democratic society in the interests of (inter alia) public safety and the economic wellbeing of the country. Article 1 of protocol 1 provides that an individual's peaceful enjoyment of their property shall not be interfered with save as is necessary in the public interest.

7.35 For an interference with these rights to be justifiable the interference (and the means employed) needs to be proportionate to the aims sought to be realised. The main body of this report identifies the extent to which there is any identifiable interference with these rights. The Planning Considerations identified are also relevant in deciding whether any interference is proportionate. Case law has been decided which indicates that certain development does interfere with an individual's rights under Human Rights legislation. This application has been considered in the light of statute and case law and the interference is not considered to be disproportionate.

7.36 Officers are also aware of Article 6, the focus of which (for the purpose of this decision) is the determination of an individual's civil rights and obligations. Article 6 provides that in the determination of these rights, an individual is entitled to a fair and public hearing within a reasonable time by an independent and impartial tribunal. Article 6 has been subject to a great deal of case law. It has been decided that for planning matters the decision making process as a whole, which includes the right of review by the High Court, complied with Article 6.

8. Conclusion

8.1 The main planning considerations in determining this application have been set out and considered above stating accordance with relevant Development Plan Policy. The application has also been considered against the relevant sections within the National Planning Policy Framework (NPPF) and there is not considered to be any conflict between the local policies and the NPPF on the matters of relevance in this case.

8.2 The application has addressed the main considerations and would accord with relevant policy. The proposal is therefore recommended for approval.

9. Recommendation

That this application be GRANTED planning permission subject to the following:

Conditions/Reason

01. Planning Permission

The development hereby permitted temporary permission shall expire on 31st December 2025.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended)

02. Approved Plans

The development hereby permitted shall not be carried out otherwise than in complete accordance with the approved plans. The approved plans for this development are:-

1. Location Plan drawing no. 100 Rev B (uploaded 3rd July 2023)
2. Detailed Landscape Proposals (sheet 10/10) drawing no. c-1574-20 Rev L (uploaded 11th May 2023)
3. Proposed Temporary Access drawing no. D - 1005 (uploaded 13th November 2023)

Reason: To ensure that the approved development is carried out in complete accordance with the approved plans.

03. Public Footpath No.173

No action should be taken to disturb the path surface, without prior consent from the LPA, obstruct the path or in any way prevent or deter public use without the necessary temporary closure or Diversion Order having been made, confirmed and an acceptable alternative route provided.

Reason: In the interests of the public access to public rights of way and in accordance with the provisions of the NPPF.

04. Temporary Access

The temporary access to the site to which this permission relates is granted for a temporary period expiring two years from the date of permission. The use to which this permission relates shall not be carried out after the expiry date. The access works implemented under this permission shall be removed from the site no later than the expiry date and the land restored to its former condition on or before that date.

Reason: In the interests of highway and pedestrian safety, residential amenity, and in accordance with the National Planning Policy Framework and Policy TRA2 of the Northumberland Local Plan.

05. Highway Works

Development shall not be brought into full use until details of the proposed highway works have been submitted to and approved in writing by the Local Planning Authority. The access road into the site shall not be brought into final use until the highway works have been constructed in accordance with the approved plans.

Reason: In the interests of highway safety, in accordance with the National Planning Policy Framework and Policy TRA2 of the Northumberland Local Plan.

06. Surface Water

Prior to occupation, details of surface water drainage to manage run off from private land have been submitted to and approved by the Local Planning

Authority. The approved surface water drainage scheme shall be implemented in accordance with the approved details before the development is occupied and thereafter maintained in accordance with the approved details.

Reason: In order to prevent surface water run-off in the interests of highway safety, the amenity of the area and to protect the integrity of the highway in accordance with the National Planning Policy Framework.

07. Hedgerow Compensation

Prior to commencement of development including vegetation removal, the hedgerow along the southern boundary of the field in which the temporary access road will be constructed (marked hedgerow 12 in the Arboricultural Impact report by Elliot Consultancy dated 07/11/23) shall be gapped up and planted with a mix of native hedgerow species. The planting shall be undertaken in the optimum planting season (November – March inclusive) following best practice, and all failures replaced in the following planting season.

Reason: To conserve and enhance biodiversity in line with the NPPF and Local Plan Policy ENV2.

08. Working Method

All works to the hedgerow shall be undertaken in accordance with the measures set out in the Arboricultural Impact report by Elliot Consultancy dated 07/11/23, including:

- Precautionary working methods to restrict hedgerow removal to the absolute minimum required, using Heras panels to demarcate the line of the access road.
- Removal of roots and stumps shall first be severed from neighbouring plants before being carefully removed.
- The length of hedgerow within the required visibility 30m splay at public right of way 300/173 shall not be removed but cut down to above ground level with their root systems retained and allowed to regrow.
- On completion of works the line of the hedgerow shall be replanted with a mix of native species, protecting with fencing on its northern side, replacing all failures in the following planting season and maintaining until established.

Reason: To conserve and enhance biodiversity in line with the NPPF and Local Plan Policy ENV2 and QOP4.

09. Pedestrian Access

Prior to first use of the temporary access road by residents, the pedestrian safety and access measures as shown on the plan titled 'Proposed crossing over PROW' DWG. No. D-1005 by tps shall be fully implemented. These measures include:

- i) An agricultural grade post and rail fence installed along the south and east side of the road.

- ii) A safe pedestrian crossing point running east-west, from the housing development site into the field maintained throughout the period of the temporary access road.
- iii) There shall be no storage of construction or spoil materials within the field.
- iv) Signage and paving works along the public right of way ref. 300/173. These measures will be maintained throughout the period of the temporary access road.

Reason: To maintain safe access to the eastern field for the purposes of informal recreation, as part of the mitigation measures to address increased recreational pressure on Arcot Hall & Grasslands Site of Special Scientific Interest (SSSI), in line with Local Plan Policy ENV2.

10. Vehicle Condition

The temporary access to the site hereby permitted shall be used by domestic vehicles only. At no time shall the access be used by construction vehicles or plant of any nature.

Reason: In the interests of residential amenity and highway safety, in accordance with the National Planning Policy Framework and Policy TRA2 of the Northumberland Local Plan.

Informatives

- 1) The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848.

Further information is also available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

- 2) The granting of planning permission does not override any existing legal claim of ownership of, or access to, the land or property identified in the documents associated with this application.
- 3) You are advised that offsite highway works required in connection with this permission are under the control of the Council's Technical Services Division and will require an agreement under section 278 of the Highway Act 1980. These works should be carried out before first occupation of the development. All such works will be undertaken by the Council at the applicant's expense. You should contact Highway Development Management at highwaysplanning@northumberland.gov.uk to progress this matter.
- 4) You should note that a highway condition survey should be carried out before the commencement of demolition and construction vehicle movements from this site. To arrange a survey contact Highway Development Management at highwaysplanning@northumberland.gov.uk.
- 5) Building materials or equipment shall not be stored on the highway unless otherwise agreed. You are advised to contact the Streetworks team on 0345 600 6400 for Skips and Containers licences.

- 6) In accordance with the Highways Act 1980 mud, debris or rubbish shall not be deposited on the highway.
- 7) All species of wild birds and their nests are protected under the Wildlife and Countryside Act 1981 as amended. No hedgerow removal or other vegetation clearance should be undertaken between 1st March and 31st August unless a suitably qualified ecologist has first confirmed that no bird's nests that are being built or are in use, eggs or dependent young will be damaged or destroyed.
- 8) To maximise the benefits for biodiversity, new native hedgerows should comprise a minimum of 50% hawthorn (*Crataegus monogyna*) mixed with other species such as elder (*Sambucus nigra*), blackthorn (*Prunus spinosa*), crab apple (*Malus sylvestris*), hazel (*Corylus avellana*) and holly (*Ilex aquifolium*). New hedgerows should be planted in two staggered rows, 30cms apart, with 4-6 plants per metre. All new hedgerows will require suitable protection from grazing damage such as fencing or spiral tree guards etc.
- 9) The works implemented under this permission shall be removed from the site no later than the expiry date and the land restored to its former condition on or before that date. The field should be restored using a suitable seed mix, such as British Flora BFS 13 and not an economy fast seed like perennial ryegrass, the mix can be seen at <https://grassandflower.co.uk/british-flora/store/products/bfs-13-tussocky-grassland-wildflowermeadow-mix/>
- 10) Full vehicular access tie in works off the U9551; construction of a new pedestrian/cycle crossing on U9551 cyclepath and registered public footpath no.173 (design and layout to be finalised); a fully scoped condition survey to be conducted on Langdale Drive from the point of access up to the junction onto the A1172; Associated signage to discourage and restrict construction traffic entering Langdale Drive to be scoped and approved by NCC Streetworks.
- 11) Public Footpath No. 173 shall be protected throughout. No action should be taken to disturb the path surface, without prior consent from ourselves as Highway Authority, obstruct the path or in any way prevent or deter public use without the necessary temporary closure or Diversion Order having been made, confirmed and an acceptable alternative route provided.

Northumberland County Council

Appeal Update Report

Date: November 2023

Planning Appeals

Report of the Director of Planning

Cabinet Member: Councillor CW Horncastle

Purpose of report

For Members' information to report the progress of planning appeals. This is a monthly report and relates to appeals throughout all 5 Local Area Council Planning Committee areas and covers appeals of Strategic Planning Committee.

Recommendations

To note the contents of the report in respect of the progress of planning appeals that have been submitted to and determined by the Planning Inspectorate.

Link to Corporate Plan

This report is relevant to all of the priorities included in the NCC Corporate Plan 2018-2021 where identified within individual planning applications and appeals.

Key issues

Each planning application and associated appeal has its own particular set of individual issues and considerations that have been taken into account in their determination, which are set out within the individual application reports and appeal decisions.
