### Case Study - Affordable Housing Contribution

#### S106 Agreement - East of Barrington Park, East Sleekburn 15/02628/ful

Viability assessments were submitted as part of the above planning application when it was submitted back in 2015. It was found that the development was not able to meet the Affordable Housing requirements based on current prices and expected profit rates.

The Council required a S106 agreement for an 'off- site affordable housing contribution' as an overage payment **in the event** that house prices increased, and level of profit changed.

The Council have been monitoring the site throughout the build and the developer has supplied Quarterly updates on the plots sold together with full details of the actual final selling price.

These reports have been checked by an external and independent consultant and their findings have agreed that an overage payment of the maximum amount set at £100,000 was payable.

There is to be a second overage payment assessment following the sale of the final house.
