

Broomhill First School – Pupil Comments

Subject: School council comments about reorganisation

Initially all the children all thought changing to primary was a good idea until the older children realised that it wouldn't apply to them!

For reorganisation:

'We would get more time to spend with our younger brothers or sisters'

'I would like to go to high school earlier in Year 7 so I can see my older brother'

'I want to stay at first school for longer because we know the teachers and the teachers at middle school might be too strict'

'Staying here means you can spend longer being in the same class with your friends and you won't leave them behind'

'We can stay together for longer'

'We'll get to do more fun activities because there is lots to do here'

Against:

'I'd like to go to middle school to see friends from other schools'

'I haven't looked in the middle school yet so I don't know if it will be better than this school or not. It might have better things'

'I think I'd like to make new friends at middle school'
