2. The survey also sought views on priorities for the Council to invest in jobs and businesses. Respondents were given three broad areas for investment and the ranking is set out in the table 15 below:

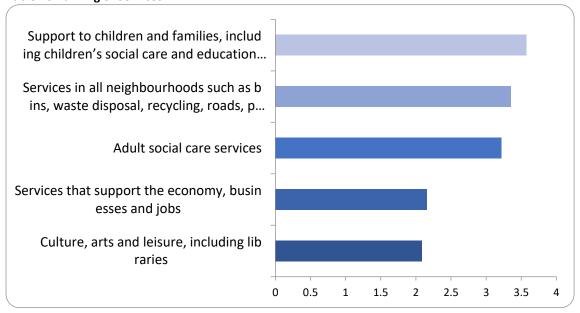

Table 15: What investment priorities do you think are most important to help jobs and businesses grow?

Item	Ranking
Infrastructure: including roads, rail, employment sites	2.26
Skills and employability: including apprenticeships, training, support to help people back into work	2.17
Investing directly in businesses: including start-up grants, grants to help businesses grow	1.41

3. We asked respondents to rank which services were most important to them. Support to children and families was ranked top, with services in all neighbourhoods second. Table 16 (below) shows there was not a big difference between the top three ranked services (Support to children & families, Adult Social Care and services to all neighbourhoods).

Table 16 Ranking of Services

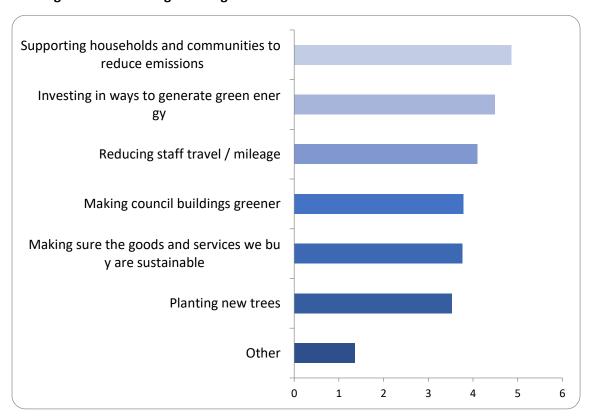

Item	Ranking
Support to children and families, including children's social care and education and skills	3.57
Services in all neighbourhoods such as bins, waste disposal, recycling, roads, pavements and streetlighting	3.36
Adult social care services	3.21
Services that support the economy, businesses and jobs	2.16
Culture, arts and leisure, including libraries	2.09

4. The Council is delivering on its ambitious Climate Action Plan, investing in services and infrastructure to reduce the county's carbon emissions. So, the Council wanted to know residents' priorities for tackling this agenda. The top ranked priority was 'supporting households and communities to reduce emissions', with 'investing in ways to generate green energy the second ranked priority'.

- 6. We asked for ideas on how the Council could raise more income or deliver services differently to save money and received 254 suggestions and comments. These comments fell into 8 broad themes although, naturally, there was a degree of overlap between the comments. The paragraphs below summarise the responses to this question.
 - (i) Organisation we received 107 suggestions and comments on how we could make savings through organisational improvements and efficiencies. These covered a broad range of issues, including: reducing senior staff salaries / expenses, management structure, how we procure goods and services; opportunities for joint services with other partners or councils; general efficiencies; and, costs associated with local democracy.
 - (ii) Tax base, charges and other fund raising there were some 44 suggestions on how the Council could raise more income through the local tax base, charges and other ways of raising funds. This was not simply about increasing Council Tax and there were comments against Council Tax increases. Many of the suggestions on this theme were focused on: supporting more business and town centres; providing people with support to get into work; and, encouraging more people and businesses to come to the County. There were also suggestions on charges for services and

- introducing, raising or increasing enforcement of fines. It should be noted that some of the suggestions made would require national legislation to take forward, for example introducing a 'tourist tax or levy'.
- (iii) Assets this theme was about how the Council makes better use of its assets, including: selling / letting / making more efficient use of buildings, land and facilities; taking more commercial approaches generally; and, use of charges for services. Some of the suggestions were about better use of the County's assets more generally, including use of assets outside the control of the Council (e.g. privately-owned shops). Some 23 comments and suggestions on this overall theme were put forward.
- (iv) Reduce or re-prioritise investment whilst many suggestions supported investment as a way of encouraging business growth and increasing jobs, some people suggested the Council should look to prioritise spending on critical services and where necessary reduce investment where this is not deemed essential. Other suggestions were focused on increasing investment in areas where it was felt more, not less regeneration is needed. There were a total of 20 suggestions and comments on this theme.
- (v) Reduce or re-prioritise services this theme included suggestions (21 in total) and comments on how the Council should prioritise spending on what people felt were critical services. There were also suggestions on how the Council could support communities to do more for themselves and increase working with community and voluntary groups.
- (vi) Climate Change & sustainability we received 13 comments and suggestions on how we can save money or raise income as part of our overall approach to tackling climate change and delivering more environmentally sustainable services.
- (vii) **Parking –** there were 10 comments on re-introducing car-parking charges (in areas where we don't charge) or increasing existing car parking charges. Some comments were focused on charging for non-residents.
- (viii) **Government –** some people suggested that Government should provide more funding to the Council to support local services and investment. In total, there were 16 suggestions and comments on this theme.
