Parent/Carer of a pupil currently attending Tweedmouth West First	Don't Know	None	No	Document gives no reason for amalgamation of Tweedmouth West and Prior Park; the PAN of each school before the merge is 30, after is 60, so no reduction in capacity. There is no mention of the Red Balloon Pre-School located on Tweedmouth West grounds. There is no reason given why the Prior Park site is more suitable or what will happen to Tweedmouth West's playing field, the reason we chose that school for our children.

Parent/Carer of a pupil currently attending Berwick Middle	No	Same as question 8	No	I understand the need for closure and amalgamation of the schools but I do not agree with moving Belford to Alnwick catchment
Parent/Carer of a pupil currently attending Berwick Middle	Yes	Most Belford children already go to Alnwick so they may as well have free bus transport.	Yes	None
Parent/Carer of a pupil currently attending Hugh Joicey CE First	Yes	I agree with this as it is essentially already happening.	Don't Know	As previously stated the new catchment school for norham of closed is not a fair choice . A school with a good reputation and a friendly small school going to one of the largest and one with the need of most work is not agreeable to me.
Resident/member of the community living in the Berwick Partnership	Yes	makes sense as the pupils will transfer to Alnwick who are already working on a two tier system	Don't Know	I'd like to see pupils going to the school in their catchment area and I'm not sure that Scremerston would have the numbers in order to stay open.

Parent/Carer of a pupil currently attending Tweedmouth West First	Don't Know	None	No	My kids go to one of the schools and he is happy there and the teacher and service is really good there
Parent/Carer of a pupil currently attending Holy Trinity CE First	No	There has been very successful relationships between Wooler and Belford schools and Berwick Middle School in the past and, given Berwick Middle School's excellent reputation, I do not see a good reason to change this. Alnwick Duchess High School is not without it's own problems.	No	I do not believe that Scremerston First School should close. It has a good uptake, provides excellent facilities, staff and a nurturing environment for the children and forms a vital part of the village community. It would be detrimental to the children, village community and surrounding rural areas for the school to close and I suspect the real reason behind this decision is the development value of the land! As far as the amalgamation of Tweedmouth West and Prior Park schools is concerned, I find it suspicious that whilst the Prior Park site will be used, the Tweedmouth West DofE reference will be used ... replacing Prior Parks schools requires improvement rating with a good rating!
Parent/Carer of a pupil currently attending Glendale Middle	Yes	The duchess school is by far the better of the 2 high schools & it would be much better if all children from Wooler went to the same high school & not split as they are now	Don't Know	None

Resident/member of the community living in the Berwick Partnership	No	Why are you allowing more pupils to leave the Berwick Area when you are supposed to be trying to kept children in the Berwick Area	No	Putting two of the largest First Schools in the Area into one site is ridiculous. Parent/Carer of pupil/student in another school in Northumberland	Yes	None	Yes	Combining two small schools to enhance the quality of teachers and reduce overheads makes complete sense.
Staff Member of Berwick Middle	No	i think the parents and pupils of Berwicks surrounding area should be given a choice of education	No	combining two schools to form one is not the answer, both schools are well attended and need there own building for teaching. Why keep a school open when there are only 2 pupils (Holy Island) At one point this school used to be in partnership with Longridge for issues with tides they were allowed to stay on site. Closing some of the more rural schools makes sense as there a lot of big buildings being ran with only a handful of students attending
Parent/Carer of a pupil currently attending Tweedmouth West First	Don't Know	None	No	I see no reason to close Scremerston or Norham. Too many rural schools have been closed in the last 20 years. There is no need to amalgamate tweedmouth west with prior park either.

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	If this helps the overall picture and they have the appetite to switch partnership - then I guess I support it. But if this is a way to try and hide the fact that there is an obvious bleed from these schools away from the academy, it seems counter-intuitive. We should be supporting the academy to become such a top school that we stop the bleed and retain these children - rather than severing an ailing limb and then closing other schools to falsely try and push academy numbers up. It feels like the actual problems (both the academy struggles - and the perception of the academy in and around the partnership) is not being dealt with properly).	Don't Know	Again, as stated above, I don't agree with closing Scremerston at all. Nor the amalgamation of two First schools and then hiding behind the more positive DFE number. This feels like we're arbitrarily taking away good schools, smashing them into a struggling school (that parents often choose to avoid by going to Scremerston - parental choice) in order to give the impression of 'better schools' in Berwick. We're not dealing with the issues, we're papering over the cracks. It is wrong.

No	All the schools should stay as they are, as Scremerston and Norham are little schools and have the support of the village to help them thrive. Parents prefer to have these small schools in the villages to help them make friends in the surrounding areas and build relationships with the village people. If the amalgamation of Tweedmouth West and Prior Park goes ahead there will be problems with access. There is little car parking at the moment so adding over another 100 children and parents will have a larger impact to the housing estate and roads surrounding the area.

Staff Member of Holy Trinity CE First	Don't Know	I dont know enough about what people in Wooler would like to happen	Yes	If 3tier system stays in place, changes must be mad to reduce surplus places
Staff Member of Berwick Middle	No	I believe the current system works, as stated in my previous answer and it is imperative that Wooler First School remains part of the Partnership.	No	I believe the current 3 tier model works effectively. I can speak from experience as I was a student during the 3 tier system, and I an now a teacher in the Middle School. The current system allows students to experience specialist teaching, as an example my degree is in Geography and I teach Geography at KS2 and KS3. Both middle schools are rated good by Ofsted which is an excellent testament to all staff at both schools, and shows the level of support and teaching available to middle school students.
Representative of a Group or Forum e.g. – please state	Yes	none	No	the closure of Scremerston school would impact on the pre-school run on the school site. Also, parents are choosing to bring their children to Scremerston school rather than enrol them into the bigger schools in Berwick which would then take away parental choice. The school is well attended and has forecast good future enrolments. The community building on site provides a meeting space for the members of the community which would be lost. Traffic congestion in the town centre would be increased if children were moved to a school in town and parking issues would increase too. d
Staff Member of Scremerston First	Don't Know	none	No	I do not support the closure of Scremerston First School or the amalgamation of Prior Park and Tweedmouth First Schools. All Berwick first schools should remain open.
Representative of a Group or Forum e.g. – please state	Don't Know	Agree with Wooler becoming primary but think that Wooler and Belford parents should be able to choose either Berwick or Alnwick, mainly because of geographical reasons	Don't Know	none
Governor of Scremerston First	Yes	None	No	Scremerston school is a much needed, non church rural school.

Parent/Carer of a pupil currently attending Scremerston First	Yes	None	No	Scremerston first school is a fantastic school and all of the pupils and parents of this school will agree that a change so big will be more harmful and the majority of the pupils will not manage the changes.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	I do not understand the need to close scremerston, a school shown to be good by ofsted and to let its children attend a school classed as needing improvement
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	Scremerston first should remain open	No	Unreasonable upheaval. Transport links are non existent. Larger classes are detrimental to education. Building new schools does not save money.
Parent/Carer of a pupil currently attending Scremerston First	Yes	Berwick academy has needed improvements for a long time and I'd rather not send my children there	No	I do not beleive the "good" ofsted schools should close. I beleive the schools doing well should be allowed to continue to do so and that rural schools with surplus places are to be expected

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	none	No	we chose a rural school as our children are from the country and the reason we chose scremerston is because of its small class sizes and its location. there is lots of outside space and with smaller class sizes it caters for all individual needs.
Other – please state	Don't Know	None	No	The 3 tier system works well at the moment. The small classes in rural schools are invaluable and Scremerston is very much a family orientated school. The grounds are amazing for the children to play in.

				outside space. Scremerston offers all of these things and also has a good Ofstead rating.
Parent/Carer of a pupil currently attending Tweedmouth West First	Yes	None.	No	My child attends Tweedmoith West because he is visually imPaired and it is flat and quieter.
Other – please state	Yes	Berwick Academy is awful	No	Keep Scremerston open, closing this also closes Little Ducks, the only nursery in the village
Parent/Carer of a pupil currently attending Holy Trinity CE First	No	The 3 tier structure will be a disaster and really affect children	No	See reasons above
Parent/Carer of a pupil currently attending Hugh Joicey CE First	Yes	Common sense	Yes	None
Parent/Carer of a pupil currently attending Scremerston First	No	I think closing Belford and making children as young as 4 travel to wooler is unbelievable. Going so far for school at that age would make the school day very long and tiring and not practical in the long.	No	I think both systems would be ok , but feel strongly keeping scremerston open is very important and there are facilities there to accommodate children up to the age of 11 .
Student/Pupil of Scremerston First	Yes	Then I won't have to go the berwick academy	No	Why do you need to close the best school in berwick and keep the worst ones open
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	Scremerston should remain open.
Staff Member of Berwick Academy	Yes	Geography	No	2 tier system
Parent/Carer of a pupil currently attending St Mary's CE First	Yes	None	Yes	None
Councillor of Cornhill on Tweed Parish Council	No	Because this will lead to even more children from the Wooler area choosing not to go to berwick academy	No	I don't support revised 3 tier model
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	I grew up in Belford and attended Berwick High School as it was then. Berwick was the school the majority of pupils went to. There was only 1 girl in my class who went to Alnwick. I suppose through this process the idea is to look at sustainability of the Berwick partnership and I'm not convinced that moving Belford in to the Alnwick partnership would do this? Feels as though it's potentially creating even more of a barrier for children entering education in Berwick.	No	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. I would not put my children in an amalgamated Tweedmouth West/ Tweedmouth Prior Park school or Spittal if Scremerston were to close. The traffic into Berwick town in the mornings is already horrendous without adding to it. There is also no parking for parents around the site at Prior and very limited parking for parents at Spittal. I do not want my children attending such large schools where they would be lost in the crowds. They are shy children and I feel their needs are better suited to a school with smaller class sizes. The only other choices of schools in the town would then be the smaller schools which are church schools.
Staff Member of Tweedmouth West First	No	Wooler children should be able to have the choice of Alnwick or Berwick for High School.	No	As above

Parent/Carer of a pupil currently attending Belford Primary	Yes	The majority of pupils from Belford already attend Duchess's High School as part of a 2 tier system. Staying within within the 3 tier Berwick partnership makes no sense for a structured education experience for the children.	Yes	Belford needs to be part of the Alnwick Partnership to continue the 2 tier education system. It makes no sense to move from an initial 2 tier system at Belford then 3 tier in Berwick.
Parent/Carer of a pupil currently attending Belford Primary	No	None	No	none
Staff Member of Berwick Middle	No	I think 11 is too young to go to high school	Yes	None
Parent/Carer of a pupil currently attending Tweedmouth West First	No	This would mean all children from Wooler and Belford would go in to the 2 tier system that Alnwick adopt. Is there enough pupil spaces in Alnwick to accommodate this?	No	As stated in the earlier answer, is there enough pupil places at Alnwick comprehensive to accommodate all.
Resident/member of the community living outside of the Berwick Partnership	No	none	Yes	The proximity of these schools where full capacity is not achieved would be economically sensible

Staff Member of Belford Primary	Yes	The families from Belford choose to go to Alnwick. I feel we need to support their choices as we can then work on transport. Families need to be provided with a safe form of transport to and from school. At the moment the service buses are over populated and not all children have a seat. It is also very expensive for our families.	Yes	Belford wants to be part of the Alnwick Partnership.

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	None	Yes	Smaller schools should close if not the numbers to run, belford school should be in alnwick partnership as its primary school so feed to alnwick

Parent/Carer of pupil/student in another school in Northumberland	No	With all new housing developments, Duchess shouldn't be increasing its catchment	No	Duchess shouldn't be asked to accommodate a new catchment with current housing plans
Governor of Tweedmouth Prior Park First	Yes	I am happy to support the proposal but would leave the decision to the schools and parents in Wooler and Belford.	No	Three tier involves too many first school closures.
Parent/Carer of a pupil currently attending Holy Trinity CE First	Don't Know	None	No	None
Staff Member of Wooler First	Don't Know	I support the move to a primary model for Wooler as I understand that the current set up is not viable in the long run with our smaller class sizes. However, I would prefer to remain in the Berwick Partnership.	Yes	NA
Parent/Carer of a pupil currently attending Glendale Middle	Yes	Duchess high school is by far the better school so I'd rather children in Wooler can go there. Also most Wooler children have gone to Alnwick up until very recently when they have been stopped from going.	Yes	Belford children already go to Alnwick high & parents have to pay the bus fares which isn't fair as they don't have a middle school now
Parent/Carer of a pupil currently attending Glendale Middle	Yes	Alnwick high is far superior to Berwick & children from wooler have always had the option to go until recently	Yes	Belford children have always been able to go to Alnwick so should always have the option
Parent/Carer of a pupil currently attending Belford Primary	Yes	belford primary already only operates to 11 years old so fits the 2 tier system within the alnwick partnership.	Yes	belford is already 2 tier so should automatically be moved to alnwick partnership as it no longer fits with the berwick partnership model.
Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	None	No	None
Governor of Hugh Joicey CE First	Yes	I am of the view that Wooler & Belford naturally inclines towards Alnwick more than Berwick	No	I support a more streamlined 2 tier educational system
Parent/Carer of a pupil currently attending Spittal First	Yes	None	Yes	None
Staff Member of Berwick Middle	No	Having previously lived in Wooler and worked in Alnwick I know that the tortuous route to school in Alnwick is much more difficult to negotiate, particularly in inclement weather, than for these pupils to travel to Berwick. I also feel that coming from such a quiet, rural setting pupils at KS2 are better looked after and nurtured in a smaller middle school setting (Berwick) rather than being dropped into a vast secondary school, having to travel on difficult country roads at the age of 11.	Yes	I agree, in principal, with the closure of schools with dwindling numbers - if this is the reason for closing Scremerston as opposed to other Berwick first schools. I can also see the benefit of joining to first schools which are in close proximity to each other if one school has superior buildings to house the additional numbers. It makes sense for Belford Primary to join Alnwick as it is much closer geographically.

Parent/Carer of a pupil currently attending St Cuthbert's RC First	Yes	none	Yes	reducing costs
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	It would make sense for pupils in those areas to join with the Alnwick partnership and reduce the travelling to access secondary provision.	No	I would not support the closure of first schools to facilitate this restructure.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	None	No	I would not support the closure of any first schools as I believe that this would result in unnecessary and additional disruption to children who will already be disrupted by the change to a 2 tier provision.
Governor of Scremerston First	Yes	It would make sense for pupils in those areas to join with the Alnwick partnership and reduce the travelling to access secondary provision.	No	I would not support the closure of first schools to facilitate this restructure.

Resident/member of the community living in the Berwick Partnership	Don't Know	None	No	I don't think First Schools should close or amalgamate as stated above.
Staff Member of Belford Primary	Yes	The children at Belford Primary School already feed into DCHS (parental choice). If Belford were to become part of the Alnwick partnership, the families would receive support with funding transport. This is an important factor to consider.	Yes	None
Student/Pupil of Tweedmouth Middle	Don't Know	None	Don't Know	None
Representative of a Group or Forum e.g. – please state	Yes	Children from Belford primary already transition to DCHS Alnwick at the end of year 6. This makes sense, as we are the only primary school in the partnership. Parents currently fund transport to DCHS. If we were to join the Alnwick partnership, our families would benefit from funded transport. This is an important factor to consider with the current cost of living crisis.	Yes	We agree with the proposed plan to reduce our catchment slightly by altering the northern boundary line.
Resident/member of the community living in the Berwick Partnership	No	None	No	None
Staff Member of Scremerston First	Don't Know	Having no contact with these school, except as part of the Berwick Partnership, it would not be appropriate for me to comment as this is a decision best made by stakeholders of these two schools.	No	Contrary to current parental choice. No safe oute to the new proposed catchemnt school: walking beside the 60MPH limit road with young children is unaccepitable and dangerous not only because of risk of injury but also because of the risk to children's health from engine fumes, walking so closwe to the road. No safe crossing point to the proposed new catchment school until well past the scholl site. Parking at the proposed new catchemnt school is already very congested and therefore dangerous adding even more vehicles would simply compound the problem.m

Parent/Carer of a pupil currently attending Berwick Middle	Yes	Most of the pupils in these schools already go to The Duchess.	No	My younger son goes to Scremerston and is very happy there. He is a shy child and will be deeply affected by having to move first schools if Scremerston closes.
Governor of Belford Primary	Yes	The great majority of parents from Wooler and Belford have for many years chosen to send their children to Alnwick for High School and so it makes much better sense for these primaries to be part of the Alnwick schools' partnership	Yes	none
Parent/Carer of a pupil currently attending Tweedmouth Middle	Don't Know	Strongly believe that this decision should lie with the residents of Wooler and Belford - not appropriate for me to comment.	No	Do not support the proposed closures/amalgamation.
Other – please state	No	The removal of Belford and Wooler to Alnwick is surely likely to stress the provision at the Duchess School. Alnwick is expanding in its own right, and this is likely to continue.	Don't Know	None

Resident/member of the community living in the Berwick Partnership	Don't Know	Unsure because of the possibility of Berwick losing children to Alnwick schools.	No	Some nursery & early years children, eg, from Norham, are too young to be transported into school on a bus. How do schools cope with illness if these children need to be sent home? Many parents may not have access to transport to collect a sick child.

Other – please state	No	I reside in an area of the UK with a mix of 2 tier and 3 tier school systems. Those children attending the 3 tier schools out perform their 2 tier counterparts on every level. Parent/Carer of a pupil currently attending Berwick Academy	No	I've spoken to many parents with children who have went from Wooler and Belford to Alnwick and they are disappointed with the schooling offered there. They should continue to have the choice of where their children are educated	No	All of the above schools offer different learning environments for the children and many are operating at Good. They offer the children a good grounding and preparing them for middle school
Parent/Carer of a pupil currently attending Norham St Ceolwulf's CE First	Don't Know	None	No	Totally against norham closing
Other – please state	No	Having experienced leading a secondary school in central Bedfordshire from a 3-tier structure to a 2-tier structure, it is incredibly clear that the change to 2 tier is in the best interests of the children in the Berwick area. There are a huge number of reasons for this, but the impacts on funding for both primary and high school create so many opportunities to develop and drive progress. With a falling student population in Berwick, the 3 -tier model simply becomes less and less efficient. Those that lose in this situation are ultimately the students. There is great affection for the middle schools, including from myself as a former pupil. However in the reception to Y13 view of education, they are not the best solution. Protecting this Y5-Y8 structure, at the expense of both the first schools and secondary school is madness. Public affection and resistance to change means it will require strong leadership from council to 'go against' poorly informed public opinion, but I really do hope this council is strong enough to do the right thing for the education of the children of Berwick and the surrounding area. Resident/member of the community living in the Berwick Partnership	Don't Know	I do not know if this would adversely affect the future of Berwick Academy	No	I do not wish Norham School to close as this would adversely affect the village as a whole and those families with children in the area.
Resident/member of the community living in the Belford catchment area	No	The problems encountered when trying to maintain a 2-tier system alongside a 3-tier system in geographically adjacent areas are well-documented. It almost inevitably leads to "jumping ship" issues at 11 years of age.	Yes	Given falling school roll numbers, the closures and amalgamation of schools under the revised 3-tier structure would seem sensible; but I fail to see the rationale behind moving Belford Primary into the Alnwick Partnership, other than accepting the present reality (and the reality for a good many years past now). Were there to be a much-improved offer at Berwick Academy, I think you would find an increasing number of families prepared to choose the school for secondary education for their children, rather than Alnwick Duchess School.
Resident/member of the community living in the Berwick Partnership	Don't Know	Again - too many scenarios in one question. I support Belford primary joining the Alnwick partnership as it is already part of a 2-tier structure. I do not support Wooler becoming a primary school.	No	I do not support the closure of Scremerston First school. It is a non-church affiliated rural school. The only one in the Berwick partnership and should remain open.

Representative of a Group or Forum e.g. – please state	Yes	If Belford and Wooler leave Berwick Partnership there will be far fewer children in the Partnership and weaken the position, whereas Alnwick seems to be oversubscribed. Better to pool families and resources to the North.	No	As above - diminishing pupil numbers in the Berwick Partnership and amalgamation of Tweedmouths schools was never part of original discussions so lacks reasoning and clarity.
Resident/member of the community living in the Berwick Partnership	No	I do not support any 3 tier system	No	I do not agree with any three tier system
Resident/member of the community living in the Berwick Partnership	Don't Know	None - I do not support the three tier system....	No	I think it is better for both the pupils and the teachers plus their assistants to have a 2 tier system which should also lead to substantial savings on budgets enabling more money to be available for educational service and not maintenance of buildings.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	I feel it is up to the pupils, parents, teachers and local community of these areas to know what is best for the children of Wooler and Belford. I am unable to make a decision on something I know little about.	No	Scremerston and Norham First schools are two rural schools. They are important in their local communities. I do not feel that it would be in the best interests of either the children nor the communities for them to close. Young children should be able to attend their local school, not face long bus journeys to attend school in Berwick. However, I do see the benefit in merging Prior and Tweedmouth West in Berwick.
Governor of Tweedmouth Prior Park First	Don't Know	I do not have the local knowledge for Belford & Wooler. Berwick people should not make a decision for Wooler students	No	The amalgamation of Tweedmouth West & Tweedmouth Prior Park School + additional pupils from the closure of other First Schools will increase the number of pupils up to approx 300 pupils on one site too many pupils for the age range. Also If there were to be an amalgamation of Tweedmouth West and Prior Park First School, Prior Park First School should be the lead school as it is their site
Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	I suspect strongly that when the Academy is modernised or rebuilt and if it's performance improves than parents in Wooler and Belford will choose to send their children to Berwick rather than Alnwick.	Don't Know	I don't understand why St Mary's with a huge school site is being kept open with a PAN of 15 pupils and Special Needs provision. Wouldn't it be more cost effective to close and sell this site than to amalgamate Tweedmouth West and Prior Park Schools?

Parent/Carer of a pupil currently attending Berwick Middle	Yes	Given the removal of the Glendale Middle School in either scenario currently in the consultation, it would seem sensible to transition these children to become part of the Alnwick Partnership.	Don't Know	I'm not close enough to the needs/requirements of parents and children in those locations.

Resident/member of the community living in the Berwick Partnership	No	Why change something that is working already	No	I do not support the proposal for a 3 tier system
Staff Member of Scremerston First	Yes	none	No	Pupils from Scremerston catchment who qualify for school transport will have to travel further meaning longer days for children as young as 4 years old. Pupils who live within the village of Scremerston and will not qualify for transport will have to travel by car when they at the moment walk, this will increase cars on the road, families without transport will have a 1.7 mile walk along a busy 60mph road which I consider a safety issue. The increased number a traffic at the newly amalgamated school on TPP site will be unmanageable and dangerous. The choice for families is being taken away, they will no longer be able to choose smaller class sizes or village schools as all will be too far to reasonably travel to. they instead are only being given the option of a large first school.
Staff Member of Scremerston First	Yes	none	No	Closing Scremerston will cause problems to other schools such as congestion around schools that are already busy.
Staff Member of Scremerston First	Don't Know	none	No	For one class sizes would become too big resulting in children not receiving the attention they require and disrupting their learning. Bigger classes would cause concern for SEN children as the support they require will not be provided correctly, it will also potentially cause stress and anxiety therefore having an impact on learning. Scremerston can provide best of both worlds for children who attend, with large school grounds suitable for children and those with SEN. Scremerston is also able to provide a rural school feel with being out of Berwick but close enough to be apart of town and participate in local learning and events. It also has 60% of pupils out of catchment area, so this proves the school provides somethings others do not for parents to bring them past all other schools to attend. More reasons include parents will travel further if the school closes, it is in a good area to be a commuter school. The school has seen 25 or more

				children move to the school within term time from other local schools and are much happier attending Scremerston. It would also mean younger children having longer school days resulting in tiredness which will impact their learning.
Staff Member of Scremerston First	No	Children from Belford have historically attended Berwick High School. In terms of what's best for the Berwick partnership I'm not sure this move would be best. It would certainly not help getting more young people to attend the academy.	No	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. The traffic into Berwick town in the mornings is already horrendous without adding to it. There is also no parking for parents around the site at Prior and very limited parking for parents at Spittal. Many of our parents do not want their children to attend large town schools. They want their children to attend a rural school with easy access from the A1.

Representative of a Group or Forum e.g. – please state	Don't Know	None	No	We do not agree with the closure of Scremerston First School. Although it is only 1.7 miles from Berwick children come from outlying districts so would add to their daily travel at a very young age. Children also come from outside the catchment area because they CHOOSE Scremerston rather than other schools in the area. They choose Scremerston because of its size, friendly atmosphere, good quality teaching and the ability to give individual assistance to any child should the need arise. Something that a bigger school could not provide. This size of the proposed "new" school is much too big and too daunting for a 4 or 5 yr old to comprehend.

Resident/member of the community living in the Berwick Partnership	Yes	None	No	I believe that a 3-tier education system is outdated and does not link in with the educational aims of the National Curriculum, it will also have no impact on the state of education at Berwick Academy. The issues at the Academy must be addressed whatever model of education is decided upon. A 3-tier education system already puts children at a disadvantage by them having to transition twice in their education journey. SAT's at year 6 would show a truer picture in a 2-tier system where their progress is tracked from early years right through the same school. I also believe that after another transition at the end of year 8 children are expected to make life-changing GCSE decisions after being at the academy for only 3 months.
Resident/member of the community living in the Berwick Partnership	Yes	None	No	Scremerston school should not be closed as it is a rural school with a 'good' Ofsted rating.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	Amalgamating TWM and Prior seems to be a move to get rid of Prior's "requires improvement" Ofsted inspection. Poor access to Prior site, teacher redundancies at Prior where they have merging classes together, yet Scremerston children are planned to go there in 2 years.
Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	They should stay in the Berwick area to help feed children in to berwick schools but this should also be looked at where the children live. Parent/Carer of a pupil currently attending Scremerston First	Yes	None	No	Scremerston is an amazing school, located in a prim location with a good ofsted report. Yet you guys will keep open a school on holy island that has less than 10 attendees.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	My children go to Scremerston first school which is excellent. Yes it's a catchment school but not only that not everyone wants to put there kids into a catholic/Christian school. If you close this then you are removing all options for parents. As all other schools are religious based this one is not. It also has a good ofsted. If this closed I'd be forced to send my children into one of two schools as mentioned in the original proposal. That's unfair. One of the schools have had poor Ofsted reports year on year and is notoriously known as a bad school. Adding more children to such a school will have a negative impact on the children of Scremerston school. Lower grades etc. I think we'd go home school than pick one of those schools. Scremerston school is so important for a number of reasons. Please don't close our kids schools
Staff Member of Berwick Academy	No	I agree that Wooler does need to become a Primary school to survive. For the reasons outlined above, this would only work if the whole partnership became two tier.	No	I would support the closure of first schools to ensure the sustainability of education across the partnership as a whole. However, for the reasons outlined above, I believe that the three tier model is unsustainable. Moving Belford would not significantly impact on numbers to the Berwick Partnership as this already happened when the school became a primary.

The Wooler First School and Glendale Middle School site is not fit to become a Primary. The site is too large and will cost the school a huge amount of money to run. Staff Member of Glendale Middle	No	The Duchess Community High School was a good school which has gone to 'needs to improve' in its latest OFSTED report. The primary reason for this decline was due to the KS3 provision it provides. Why close a 'good' middle school in order to send Year 7 and 8 pupils to a 'needs to improve' school with issues around KS3 provision? This is not improving outcomes for children, which is supposed to be a key factor in this consultation. Also, if Glendale Middle School is closed, Wooler Primary School will not be able to afford the building within which it operates. Wooler First and Glendale Primary share the same building and grounds. Wooler First School is in deficit; Glendale Middle School is not. If they become a primary school - they will not be able to afford this site. The County Council will spend more money long term than they would if they keep Glendale open.	Don't Know	None
Governor of Scremerston First	Don't Know	None	No	I do not support the proposal to close Scremerston First School. I have been a governor of the school for almost 28 years and throughout this time the school has been rated good by Ofsted, maintained a balanced budget through prudent management and has a great reputation for supporting children with lower level special needs. We are also the only rural school that is not a church school so closure would reduce parental choice. There are many other reasons for keeping the school open which will be fully documented in our governor response.

Resident/member of the community living in the Berwick Partnership	Don't Know	Do not agree with the retention of the 2 tier system.	No	The size of the proposed new school is too big and too daunting for children of that age. Scremerston is a good school, has a very caring staff who can identify individual of pupils needs and meet them. Although it is not far from Berwick children come from outlying areas

Parent/Carer of a pupil currently attending Norham St Ceolwulf's CE First	Don't Know	It would be an advantage for wooler and belford schools to stay within the Berwick partnership, as they would add strength to the future of the area educational goals	No	North Northumberland is a very rural area, the small schools within this area county are key for future development. The closure of Norham and Scremerston will deter the movement of families to these villages. This will change the social structure and see the rise of holiday homes. Resulting in ghost villages/ towns in the winter months. Norham school has now new leadership and strong links to St Mary's in Berwick, which is working well. These two schools can act together sharing costs, resources and expertise.

No	With the support that Option C offers, Scremerston First School would be financially viable. I propose closure of Norham St Ceowulf's and that pupils are offered places at Scremerston First School which offers similar bespoke educational opportunities. I further propose that Tweedmouth West First School remains stand alone with the support of Option C and that the Federation of St. Mary's CofE First School and Prior Park First School goes ahead with a single Governing Body and single financial accountability.

Staff Member of Tweedmouth Middle	Yes	I feel that the schools will benefit from being closed and pupils to move to Duchess as it is an outstanding school.	No	I feel that schools that are already good and outstanding should not be amalgamated.
Resident/member of the community living in the Berwick Partnership	No	Parents in the wooler area will lose their choice of schools between Berwick and Alnwick, with some parents preferring the three tier system they should still be allowed the choice should we remain three tier.	No	With the support from offer C, Scremerston would be financially viable. Tweedmouth west would also benefit from staying stand alone with the support of option C.
Parent/Carer of a pupil currently attending Tweedmouth Prior Park First	No	I do not support the decision to make these first schools primary schools or for them to join the Alnwick partnership.	No	Scremerston would be financially viable if we chose to support Option C.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	Scremerston First School is currently in my catchment area - directly opposite my house, in fact. The main reason I bought a house in the village was for my children to attend the school and so it is a huge blow to suggest it may close. As far as the catchment area goes, closing Scremerston would be terrible for us as a family. Prior Park is the school which my children would be posed to attend if Scremerston closed and I can say without a doubt this is not a school I would ever have chosen for a wide variety of reasons. In addition, at only 1.7 miles away, Scremerston children would not qualify for school transport to Prior Park. How can it be considered safe to walk children as young as four (or younger considering Lucky Ducks Pre School would close alongside Scremerston) along what was formerly the A1 each morning and night? This is a 60 mile per hour road with just a small path. Why put Scremerston children through this ordeal when there is a perfectly good school already in the village? Though as mentioned, Prior Park is not a school I - or many other parents - would have chosen in any case. What happened to parental choice? Why do we not have the option of being in the catchment for an alternative rural school? Why close a rural school - something there is a presumption against in parliament - and force our children into school we would not have chosen? In addition, this change to the catchment area would cause untold congestion around the Prior Park site, something which will present a danger to the children and nuisance to residents. Essentially this proposal would see three schools - Prior, Tweedmouth West, and Scremerston - converge on one site and bring the traffic to match. Prior Park simply cannot facilitate this.

Staff Member of Tweedmouth Middle	No	I do not support the decision to make these first schools primary schools or for them to join the Alnwick partnership.	No	With the support from offer C, Scremerston would be financially viable. Tweedmouth west would also benefit from staying stand alone with the support of option C.
Staff Member of Tweedmouth Middle	No	This will limit parent's choice, they should be allowed to make the decision of where to send their children.	No	Scremerston is a successful school where children thrive, closing good schools is detrimental to the area. According to the Option C proposed by the Middle Schools, Scremerston should stay open.
Resident/member of the community living in the Berwick Partnership	No	Parents in Wooler and Belford will lose their choice between sending their child to Alnwick or to Berwick. This will also reduce numbers in the Berwick partnership.	No	As stated above the Campus Model (option C) would not mean the closure of first schools so no need to change catchments. Tweedmouth Prior Park, St Mary's and Norham Ceolwulf's have announced they intend to form a hard federation so any amalgamations should be between these schools.

Parent/Carer of a pupil currently attending Berwick Academy	Yes	none	No	I prefer the proposal from the middle schools. See https://www.berwickmiddleschool.org.uk/
Staff Member of Tweedmouth Middle	No	It limits parental choice and if they - the children - went to Alnwick then it would lower the number being taught in the partnership.	No	With Option C - Scremerston would be viable financially. If Norham were to close, those child could attend Scremerston (close catchment). Option C would also mean Tweedmouth West could remain, with St Mary's and Prior Park federating.
Staff Member of Tweedmouth Middle	No	By doing this it will mean that parents of children in Wooler will lose their choice between Berwick and Alnwick High Schools.	No	With Option C, Scremerston First School would be able to remain open. This school offers unique educational opportunities for pupils of Berwick. Other first schools within the area could federate and continue to provide a high quality education.
Staff Member of Tweedmouth Middle	No	Lack of parental choice will lower the numbers of pupils in the partnership, meaning less funding.	No	With 'Option C', some of the first school will remain financially viable. Pupils at Norham could attend Scremerston and other first schools could federate to remain open and continue to provide superb education for the pupils of Berwick.
Staff Member of Tweedmouth Middle	No	I believe there will be a lack of choice for parents when selecting schools and this could impact the partnership numbers and miss the hard working children of Glendale who would leave to Alnwick.	No	With the support given by Option C i fully believe that Scremerston should stay open and that Norham should close with their pupils being able to be offered places at Scremerston who offer a broad and wide ranging curriculum and have space to accommodate extra children. St Mary's and Prior Park can Federate and join together under a single governing body with Tweedmouth West remaining opening as that will have the support both educationally and financially viable.
Staff Member of Tweedmouth Middle	Yes	Belford is already a primary and Glendale has lost most of it's year 7 and 8 students already.	Yes	None

Staff Member of Tweedmouth Middle	No	at the moment families can choose to send their children to Alnwick or Berwick, if Belford & Wooler were to join the Alnwick paternship, choice will be removed.	No	with the support of option C, Scremerston could amalgamate with Norham (the distance children need to travel is the same as it would be to St Marys), Tweedmouth West could remain open and the Federation of Prior Park & St Mary's could go ahead. NCC shouldn't be closing schools which are rated good by Ofsted.
Staff Member of Tweedmouth Middle	No	Parents in wooler will lose their choice between Berwick and Alnwick high schools. I support Belford primary joins the Alnwick partnership but believe wooler first should stay as it is.	No	With the support of option C, scremerston first school will be financially viable. Norham school should close and pupils be offered places at scremerston
Staff Member of Tweedmouth Middle	No	Parental choice would be lost between Berwick and Alnwick High Schools. Some want to transfer to Alnwick in Year 7 or some in Year 9, while there are parents who prefer the 3 tier system offered in Berwick. That choice would be lost. I support Belford Primary joining the Alnwick Partnership but would like to see Wooler First School remain as it is.	No	Option C would support Scremerston financially, Norham St Ceolwulf pupils could be offered places at Scremerston with similar educational opportunities. Tweedmouth West First of School could be offered support through Option C to stand alone, and the Federation of St Mary's CoFE First School and Prior Park First School could go ahead.

Parent/Carer of a pupil currently attending Wooler First	Yes	I believe Wooler and Belford primary parents/students should have the choice of whether they would like to attend/be able to attend Alnwick or Berwick. Staff Member of Tweedmouth Middle	No	Parents in Wooler would lose their choice between Berwick and Alnwick High Schools. Some parents prefer the 3-tier system and smaller school that Berwick offers.	No	Under option C, Scremerston would still be financially viable. I propose that Tweedmouth West First School remains stand alone and that the federation of St. Mary's CofE First School and Prior Park First School goes ahead with a single Governing Body and single financial accountability.
Staff Member of Tweedmouth West First	No	Parents should have choice of school to attend	No	Tweedmouth west should remain open for numerous reasons. Parents that live in catchment area to prior park chose to transport/walk their children to Tweedmouth west. Families that have currently chosen Tweedmouth west will look to send their children to another school within Berwick. The location of prior park is not in a good location for access to the school.
Other – please state	No	This limits Wooler residents a choice of schools.	No	I believe some of these issue could be addressed in a different manner and have been addressed more appropriately in the proposed Option C by Tweedmouth and Berwick Middle School.

Resident/member of the community living in the Berwick Partnership	Yes	Sensible option to organisation of Alnwick pyramid	No	Amalgamation of those two first schools will create many problems due to catchment areas and parental expectations. Scremerston is a successful first school and keeping it open will mean less transport for the young pupils in that area
Parent/Carer of a pupil currently attending Berwick Middle	No	I don't agree that the age range should change its intimidating for the younger ones	No	As above I feel with a growing community losing schools and jobs is a bad move
Parent/Carer of a pupil currently attending Tweedmouth Prior Park First	No	By becoming 2 tier it allows children in wooler to have options	No	This is extremely disruptive for many young children. It is also important to note that if we stay three tier my children's education is likely to be disrupted twice as when the falling numbers reach middle school there will have to be further closures, changed and potentially another consultation. Berwick needs to follow the 2 tier structure to ensure it is sustainable providing our children with a solid education without the potential for further disruption.

Staff Member of Tweedmouth Middle	No	I don not support the extension for Woller first school to become a primary - as it would mean families / parents would lose that choice between Berwick and Alnwick High Schools - some choose to transfer at Year 7 while others transfer in Yr9 - some parents prefer the option of 3 tier - that is currently an option to them in Berwick - and also a high proportion of parents choose that option for their children. Therefore I believes Wooler first School should remain as it is. Belford Primary (as it is already a primary) I would support joining the Alnwick Partnership should the 3 tier system remain in Berwick.	No	As stated in the proposal for an Inclusive Model - Option C would support Scremerston - with the closure of Norham, and pupils being offered places at Scremerston - making it more financially viable. I do not support that Tweedmouth West and Tweedmouth Prior Park should amalgamate. Tweedmouth West should remain a stand alone school - with the support of Option C and that the federation of St Mary's and Tweedmouth Prior Park should go ahead with a single Governing Body.
Parent/Carer of a pupil currently attending Holy Trinity CE First	No	Parents in Wooler would lose their option to choose between Berwick Academy (Yr9) or Alnwick High school (Yr7) - I would support Belford Primary feeding into the Alnwick Partnership but think Wooler should remain in the Berwick Partnership and be able to make their choice. Staff Member of Tweedmouth Middle	No	Parents in Wooler would lose their choice between Bewrick and Alnwick High schools. I support Belford Primary joining Alnwick Primary. No	As stated above the Campus Model (option C) would not mean the closure of first schools so no need to change catchments. Tweedmouth Prior Park, St Mary's and Norham Ceolwulf's have announced they intend to form a hard federation so any amalgamations should be between these schools.

Resident/member of the community living in the Berwick Partnership	No	Pupils in Belford and Wooler would lose the chance to chose between Berwick Academy and The Duchess. These schools are very different in terms of pupils roles meaning a lager setting might be fine for some pupils but not for others	No	As stated above the Campus Model (option C) would not mean the closure of first schools so no need to change catchments. Tweedmouth Prior Park, St Mary's and Norham Ceolwulf's have announced they intend to form a hard federation so any amalgamations should be between these schools.
Parent/Carer of a pupil currently attending Tweedmouth Prior Park First	No	I feel parents should have the choice of sending children to Alnwick or Berwick.	No	By supporting option C, I believe that Scremerston first school would be able to remain open. Norham children would be offered places at Scremerston. Tweedmouth west could stand alone and St Marys would join with Prior park.

Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	This, in theory, makes sense for a rural school. They should then be given an equal choice of attending Alnwick or Berwick for secondary education. I believe most will choose the Alnwick option	Don't Know	I am not directly involved with these schools so do not have all the information to make an informed decision. The Belford option does make sense, but the Scremerston / Norham schools does not make sense for the people of these communities.

Parent/Carer of a pupil currently attending Tweedmouth Middle	No	I feel that Wooler should remain and the parents should still be allowed parental choice. I do however support Belford joining Alnwick as I believe most children attend Alnwick as better transport links are available.	No	I feel that option "c" offers stability and financial support for Scremerston. I think the closure of Norham as under the same head as Saint Mary's is already inevitable. I also believe that Prior Park are joining the Federation of St Mary's/ The children who go to Norham and benefit from the smaller country schools could attend Scremerston.

Resident/member of the community living in the Belford catchment area	Yes	Many parents and pupils from Belfors and Wooler have already opted for Alnwick rather than Berwick, so this seems to be recognised in the proposal.	Yes	Amalgamating the Berwick First Schools will ensure standardised approaches to both teachers and curriculum content which will be of huge benefit at transition to middle school.ching and curriculum which will streamline curriculum content, a plus at transition.
Governor of Tweedmouth Middle	No	Many parents in Wooler should not have their choice limited, their unique geographical situation means that for some, Berwick is the best option, however for some, Alnwick is. I support Belford Primary joining the Alnwick Partnership but believe that Wooler First School should remain as it is.	No	Under Option C, Scremerston First School would be financially viable, with the closure of Norham St Ceowulf's and their pupils being offered places at Scremerston First School.

Governor of Scremerston First	Don't Know	None	No	I do not agree that all parents would be happy sending their child to a town school, particularly if they have chosen Scremerston First School for the rural aspects. I believe the congestion at both Prior Park and Spittal First Schools is already an issue and incorporating more children, families & cars would be a cause for concern for road safety.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Don't Know	None	No	I do not support the closure of Scremerston First School.
Resident/member of the community living in the Berwick Partnership	No	Parents should be allowed to send their children where they want.	No	Scremerston seems like a really good school and it would be a shame for this to close.

Parent/Carer of a pupil currently attending Tweedmouth West First	Don't Know	None	No	As my child attends Tweedmouth West First School this would mean that she would have to move to the Tweedmouth Prior Park site for just one year as she would be starting year 4 at this point. My other child would be starting reception in the same year & I would not want him to join Tweedmouth West if it has been amalgamated with Tweedmouth Prior Park as Prior Park do not have a good ofsted report. This would mean I would have to start my second child in a different school to my first child and that my first child would be very disrupted by having to move schools just for one year.

Resident/member of the community living in the Berwick Partnership	Yes	Its seems the sensible thing to do.	No	Under model 3 no school would need to close
Parent/Carer of a pupil currently attending Tweedmouth Middle	No	It takes away parents and pupils choice.	No	Keep Scremerston. Prior Park would be better taking on St Mary's and Norham to allow for financial stability. Leave the West as is.
Staff Member of Tweedmouth Middle	No	Pupils in Wooler will lose their choice of where to go between Berwick and Alnwick.	No	With the support form Option C.
Parent/Carer of a pupil currently attending Glendale Middle	No	The community of Wooler is best served by our First and Middle schools with a choice of High School.	Don't Know	Can't comment for these communities.
Councillor of Norham Parish Council	Don't Know	None	Yes	If a revised 3 tier structure is preferred the feedback from children at Norham has been that they have enjoyed their temporary time at St Marys and enjoyed it more than being at Norham!
Parent/Carer of a pupil currently attending Hugh Joicey CE First	Yes	This may take some of the pressure off Berwick High School and allow improvements to be made.	No	I do not support the school closures but acknowledge if they do close the catchment areas will have to be revised.
Parent/Carer of a pupil currently attending St Mary's CE First	Yes	I feel the woofers and Belford schools should be primary due to their location and coming into line with all surrounding schools, it should be their choice to choose Berwick or Alnwick for high school.	No	I feel the closure of norham is not necessary, although it has been proven that norham children can become part of Berwick st Mary's, (after recent roof repairs) and although a small village school closure would be sad, it is part of the whole idea around reduced numbers and making the schools we do have successful and financially viable too.
Staff Member of Berwick Academy	No	I believe 2 tier is the best model to ensure the best education system for our children.	No	I believe 2 tier is the best model to ensure the best education system for our children.
Staff Member of Scremerston First	Yes	I agree Wooler First should become a Primary school and that Wooler and Belford pupils to join the Alnwick catchment.	No	I agree that Belford should be in the Alnwick partnership. I agree with the amalgamation of Tweedmouth west and Prior park
Parent/Carer of a pupil currently attending Spittal First	Don't Know	None	No	Again, the middle school's proposal is the best option for the area
Staff Member of Tweedmouth West First	Yes	At the moment, Wooler and Belford are caught between the Alnwick and Berwick Partnerships, and would be better served by the Alnwick Partnership	No	I do not agree with the amalgamation of Tweedmouth West and Prior Park

No	With Option C - Scremerston would be viable financially. If Norham were to close, those child could attend Scremerston (close catchment). Option C would also mean Tweedmouth West could remain, with St Mary's and Prior Park federating.

Anyone making the decision is welcome to visit our school to see the progress we have made since 2019. We have subsequently been told that financial viability was another consideration for the proposal to allow Tweedmouth West to take over our school - again, this is not acceptable because now that our numbers are falling (due to declining birth rate and surplus places in the large number of first schools in Berwick) we have a robust plan in place to address this. Formal consultation on a staffing restructure for September 2023 is underway and our Governing Body is exploring the possibility of federation with two other first schools which will ensure future financial stability.

Governor of Berwick Middle	Don't Know	None	No	I support the closure of Norham as it has just gone into RI and those pupils should move to Scremerston school. This school must stay open as it provides a great community school for that part of town. I don't believe that it would be right for Prior Park and therefore this would include Tweedmouth West to be federated with St Mary's, (this has already been made clear to parents and staff this is happening with no governor input, which is completely unethical) and therefore both schools should remain open as first schools and feed into the new large middle school on a campus. They would be able to use the facilities provided.

Staff Member of Tweedmouth Middle	No	<p>Currently under the 3-tier system Wooler have the choice between attending Berwick or Alnwick high school. Many of which transfer to their preferred option in year 9 with a small minority transferring in year 7. For parents who prefer the 3-tier system this ideal as it is daunting putting a child onto a school bus that takes nearly 60 minutes to reach it destination. As it currently stands many children who attend Belford Primary already transfer into the Alnwick Partnership – this is not a new thing and has been very common for the at least the last two decades. Whereas, children and young people from Wooler who have the choice of the two tend to opt for Berwick Partnership with a small minority going to the Alnwick Partnership. To summarise, I would support Belford Primary joining the Alnwick Partnership but would prefer that Wooler remain as the currently are.</p>	No	<p>Scremerston First School would be financially viable with the support of the proposed Option C – of An Inclusive Model through the support this would offer. The closure of Norham St Ceolwulf's First School would likely be inevitable however, these children could/should be offered a place at Scremerston First School as they offer a similar bespoke educational opportunity. Also with the proposed Option C, Tweedmouth West First School could remain as a stand-alone school as they would receive the support of the Option C proposal. The federation of St Mary's CofE First School and Tweedmouth Prior Park First School would allow for a single Governing Body and financial accountability. To summarise, I would support the closure of Norham St Ceolwulf's First School and propose places are offered at Scremerston First School. The amalgamation of Tweedmouth Prior Park First School with St. Mary's CofE First School with a single Governing Body and for Tweedmouth West First School to remain as stand-alone with the support of Option C.</p>

Staff Member of Berwick Academy	No	I do support Wooler First becoming a primary. I strongly believe that we need to support Berwick as a community - education, sport, work, shopping. By losing Wooler and Belford families from our school catchment this will have knock on impacts on the use of services and shops within Berwick, having financial implications outside of just education (eg I believe these families will be much more likely to use theatres, cafes, restaurants etc in Alnwick rather than coming up to use facilities in Berwick.	No	See comments above about Belford joining the Alnwick partnership - I feel strongly that the County needs to show support for the Berwick Community, and not deplete it by moving families away from using services, both education and others, in our local community.

Parent/Carer of a pupil currently attending Tweedmouth Middle	Don't Know	None	No	Keep the schools as they are, scremerston is a fabulous school with great teachers and should stay open for the sake of education for our younger generation. If any school should close Tweedmouth West would be first option!
Staff Member of Tweedmouth West First	Yes	None	No	I feel the amalgamation of Tweedmouth West and Prior Park is completely wrong. Tweedmouth West has an excellent reputation and SEND provision. There are many families from outside catchment who choose to bring their children to us. I feel the access to prior park would not cope and would be dangerous if 120 plus more children were to attend.

Parent/Carer of a pupil currently attending Scremerston First	No	None	No	A three tier system is outdated
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	Children from Belford have historically attended Berwick High School. In terms of what's best for the Berwick partnership I'm not sure this move would be best. It would certainly not help getting more young people to attend the academy.	Don't Know	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. I would not put my children in an amalgamated Tweedmouth West/ Tweedmouth Prior Park school or Spittal if Scremerston were to close. The traffic into Berwick town in the mornings is already horrendous without adding to it. There is also no parking for parents around the site at Prior and very limited parking for parents at Spittal. I do not want my children attending such large schools where they would be lost in the crowds. They are shy children and I feel their needs are better suited to a school with smaller class sizes. The only other choices of schools in the town would then be the smaller schools which are church schools.
Resident/member of the community living in the Berwick Partnership	Don't Know	These schools are out of my area.	No	I don't agree with the proposed closure of Scremerston First School. It is a very good school with parents choosing to send their children here for a variety of reason which suit their child and/or their family circumstances,even when they live outside the catchment area. Being outside the catchment area is seen as a mark against the school but this is wrong thinking. It is a positive choice by the families involved, to send their children to this rural, non-church affiliated, school. My own grand-daughter is one of the pupils and her younger brother attends the nursery.
Other – please state	Don't Know	I don't know enough about the schools in Wooler to make an informed comment.	No	This will leave local parents with little choice outside of religious-based schools.
Parent/Carer of a pupil currently attending Berwick Middle	No	Not broken don't change it	No	Again terrible idea.
Parent/Carer of a pupil currently attending Berwick Academy	No	These schools should remain in the Berwick Catchment. Traditionally they were part of the catchment, but for an agreement from NCC that transport would be funded, for students to travel to Alnwick.	No	None
Parent/Carer of a pupil currently attending Berwick Middle	No	None	No	None
Other – please state	Don't Know	NONE	No	LOCAL SCHOOLS ARE BETTER FOR YOUNG CHILDREN
Representative of a Group or Forum e.g. – please state	No	It limits parental choice and if they - the children - went to Alnwick then it would lower the number being taught in the partnership.	No	With Option C - Scremerston would be viable financially. If Norham were to close, those child could attend Scremerston (close catchment).

				Option C would also mean Tweedmouth West could remain, with St Mary's and Prior Park federating.
Staff Member of Tweedmouth Middle	No	By making these changes it takes away choice from the parents of children at Wooler. Wooler children and parents currently have a choice of transition at Y6 or Y8 depending on which secondary education they choose. If the proposal goes ahead this choice will be taken from them and they will only be able to transition at the end of year 6.	No	None
Parent/Carer of a pupil currently attending Scremerston First	Yes	would parents on the north side of Wooler and Alnwick be expected to send their children of primary age into berwick for schooling? or just tear children away from their friends of 8 years to start a new in other schools. surely this cant be good for a young adolescents mental health.	No	Prior park first school is ofsted rated lower than Norham and Scremerston why should we reduce the quality of the education our children receive. As rural schools we treasure the smaller class sizes in Scremerston and Norham and have chosen these schools for a reason, you are removing this choice by forcing us to put our children in to larger classes where the potential to be overlooked is much higher. Children thrive in smaller class sizes this is well documented.
Parent/Carer of a pupil currently attending Belford Primary	Yes	Belford is currently operating a two tier module and has done for a number of years, since the closure of the Middle School, Belford Primary school has built close working relationships within the Alnwick partnership, sharing knowledge and experience and I feel it would be at the detriment of the pupils of Belford to continue with the Berwick partnership giving the difference in the school phases and the new challenges the Berwick partnership faces going forward, the focus and objectives of the partnerships are completely different given their different statuses. Resident/member of the community living in the Berwick Partnership	Don't Know	Not in there catchment area	No	Schools should stay within there own unique community
Parent/Carer of a pupil currently attending Tweedmouth West First	No	Alnwick high school is also not performing, give the children a decent chance and sort issues at High School/Academy	No	As above-the amalgamation of TW and PP will cause chaos and danger in terms or cars, Scremerston is a high performing school.
Staff Member of Berwick Middle	Yes	None	No	I feel Belford should join the Alnwick Partnership as most of their cohort head that way currently and they could move towards the Berwick Partnership if they require an alternative.However I support scremerston and Norham remaining open but could possibly be supported to become more financially viable with staffing and managment resources as satellite schools. Rural schools provide a alternative to larger first schools especially for some children who struggle within larger schools and play a large part of their communities

Question 4 - In what capacity are you responding to the consultation? - Please select option from the dropdown list	Question 10 - As part of the proposal for a revised 3-tier structure, I support the extension of the age range of Wooler First School to become a primary and for the Wooler and Belford Primaries to join the Alnwick Partnership, with pupils feeding to Alnwick The Duchess High School. - Please select option	Question 11 - Please give the reasons for your answer or state 'None'. - Comment	Question 12 - As part of the proposal for a revised 3-tier structure, I support the proposed changes to school catchment areas arising from the closure of Scremerston and Norham St Ceolwulf's First Schools, the amalgamation of Tweedmouth West and Tweedmouth Prior Park First Schools, and the move of Belford Primary to the Alnwick Partnership. - Please select option	Question 13 - Please give the reasons for your answer or state 'None'. - Comment
Governor of Berwick Middle	Yes	There are already a number of Wooler students who attend the Alnwick partnership and geographically the distance to travel to school is about the same.	Yes	Although no-one wants to see schools closing, it would address the potential budgetary shortfall and address the falling pupil numbers
Parent/Carer of a pupil currently attending Scremerston First	Yes	More their catchment area	No	My child is in lovely welcoming good rated first school. I choose to send my child here instead of his catchment school. I feel the best outcome for my child's education would be to attend the middle school not to the academy so soon when the school needs much more time to be up to the outstanding standard of what the middle schools and my child's current first school are. In all of your proposals my child's school is proposed to close and my child be in the catchment of moving to Prior Park school which is rated requires improvement by ousted. In my view it would still be this rated but you are trying to change this by using Tweedmouth West DFE number which would change this school to good when it is clearly not. Why propose to close a good rated school and keep a requires improvement school open.
Parent/Carer of a pupil currently attending Scremerston First	No	Parental choice. This system promotes feeding children into Alnwick's high school which will further stagnate the Berwick Academy, allow choice.	No	Parental choice. Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	None	Don't Know	None
Parent/Carer of a pupil currently attending Berwick Academy	No	Don't close the middle schools	Don't Know	Don't close the middle schools
Resident/member of the community living in the Berwick Partnership	Yes	Those communities have already made their decisions and should be supported accordingly. It reflects in any case what is actually happening in practice.	Yes	It's the only logical option.
Resident/member of the community living in the Berwick Partnership	Don't Know	none	No	The closure of rural schools makes those communities less desirable for families, disenfranchises local communities indeed insures those communities will continue to decline
