Parent/Carer of a pupil currently attending Tweedmouth West First	Yes	None	Don't Know	None	I do not have the resources to propose an alternative plan; I can simply say that both proposals make the school I do know about - Tweedmouth West - worse. I extrapolate that both proposals have a similar negative impact on the other schools I don't know.
Staff Member of Scremerston First	Don't Know	None	No	I believe that a school like Scremerston should stay open, it benefits children's learning in a safe and friendly environment that is provided. The school is a big part of the community providing carpet bowls on a Monday night for families, family fun nights and days but also provides a family feel to the community. You will find that most children come put of catchment areas to	I believe that the 3 tier system is the best foot forward as it already provides great education for our children but I feel all schools in the area should stay open. Why change something that already works for our area.

Parent/Carer of a pupil currently attending Scremerston First	No	Should be decided by the parents of belford school pupils	No	Scremerston is a good school with good offed rating I can see no valid reason to close the school. It would be nice if someone could explain to us parents of Scremerston school children your reasons for choosing to close the school. My daughter attends Scremerston and I Will not be sending her to prior or spittal. Smaller village schools should be supported as much as they support and nurture the children they teach. I already travel 30 mins to Scremerston school every morning to get her there. Where she is happy she's a shy girl and wouldn't do well in such am environment as spittal or prior park	Keep the schools as they are stop wasting time on reports and improve berwick academy instead. The only school that actually needs looked at and improved is berwick academy which can't cope with the pupils it has without adding more children to it.

Resident/member of the community living in the Berwick Partnership	No	Keep them in Berwick Area, they only want to leave because of Berwick Academy.	No	Again keep in Berwick Area and improve existing Academy.	Keep Three System and put Berwick Academy into Special Measures and bring in a new Senior Leadership Team to improve the one section of this Educational Pyramid they does not work. Stop children being allowed to go yo Scotland yo be educated, it is absolutely ridiculous. The problems at the Academy are causing a drift away even from top end of Middle Schools as this is the only way parents can guarantee a place for their children in Scotland and avoid the Academy. Many parents have the fold sim of avoiding Academy, so sending children there two years earlier will only speed up this process and send more children over the border.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	Yes but Berwick should also be given as an option.	Yes	None	In a two tire system, could Tweed middle and Berwick academy merge sites and money use to enhance the grounds and building? And then Berwick middle adapted to become the new Grove school?

Resident/member of the community living outside of the Berwick Partnership	Yes	NONE	Yes	NONE	It will cost to extend/upgrade the current infant schools in Berwick, and would make more sense to use the two middle schools as they have the space, and therefore would likely need little upgrade. It's a waste of money extending several small schools to house students. Having only two schools would also save on salaries.

Staff Member of Berwick Middle	Yes	If the parents want this.	No	Scremerston First School is a successful school and a valuable part of their local community. Belford Primary changes should be decided by the parents of those pupils.	As previously stated I believe a merged middle school for Berwick and Tweedmouth on either site would work and deal with the drop in pupil numbers. Berwick Academy still have a way to go to in convincing parents what they can offer Year 7 & 8 pupils in terms of education and pastoral care. If Berwick Middle School were to close the site could be used as a large merged first school or a 6th form college. The grounds are also large enough to offer a new site for the Grove School to build a bespoke school to meet their pupils needs.

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	Stated above already.	No	Stated above already.	Keep the Middle Schools open, keep as many of the First Schools open as possible, but reduce the PAG in some key areas. If absolutely necessary, any schools closed should be ones that are unlikely to be sustainable or too costly to repair / rebuild for only 5 pupils etc. The £39.9million investment in the area should go towards SEND provision (re-site / rebuild The Grove to add both capacity and support) and on rebuilding the academy. £39.9m will not go far when split across rebuilding First Schools to turn them into primaries (for example, Holy trinity First School does not have room for another 2 year groups at the moment, so it would need to be re-sited as there isn't room for 2 more classrooms, a bigger hall, etc on this site. Same could be said for Spittal, etc). So why not spend the money where it would have the maximum impact for the town without destroying what is already working. I am aware that people keep comparing Berwick to the switch in Alnwick. But Alnwick had a very successful high school and struggling middle schools. For them it made sense to make that change. Here it doesn't. The argument that the national curriculum is set up for 2-tier is also an irrelevant factor in my view. There are 4 Key Stages - do we need 4 schools? No, because it is pefetly possible to have more

					<p>than one keystage in a school. So why not three school tiers where a greater emphasis can also be placed on pastoral care? Explain where the disadvantage is there? Also, there has been an argument about Middle School teachers 'not being experts' in individual subjects and that moving children into Two-tier gives more consistency in their GCSEs. That just patently isn't true for these schools and this town. First of all, we have children being taught at the academy by unqualified teachers teaching music, teachers whose background is in RE secondary education teaching GCSE English and both GCSE and even A-Level Engineering. Not to mention the enormous staff turn over which offers no consistency whatsoever. Children who have had 11 English Teachers and 7 Science teachers is commonplace. Compare that to the Middle School my daughter attends. Their Science teacher has been teaching Science to Year 7 and 8 for over 20 years at the Middle School. The Art teacher has been teaching Art for 15 years at BMS alone, the alone the teaching she did at her previous school. The music teacher has decades of experience as a music teacher. I could go on, my point is these are highly experienced, qualified staff who are staying at the school. Building relationships with the families in their community over a long, sustained period is a huge part of school life for teachers. Many of the academy staff are travelling miles every morning to get to work because the school cannot attract or keep many staff from the local area. I feel a lot of these facts are being overlooked with a 'what worked somewhere else might work here?' attitude. The academy staff are not part of the local community save for a scant few.</p>

Invest the money which has been set aside to build a new Grove School to allow more children with Special Educational Needs to attend school in their home town rather than having to travel over a 100 miles a day to get a education. Some of the money could be split between the other schools to allow them to make improvements to their buildings, train and employ additional staff

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	None	No	I think scremerston is one of the first schools that should be staying open due to its location.	The academy is the school in the town that requires improvement and needs the most support. As it stand right now my children are in first and middle school and I dread the day they are due to attend the academy. I do not see anything wrong with the current set up. The proposal is set up for a decline in birth rates that will no doubt increase again then where is the space for those children. They question that needs answering is why are so many children taking their children out of the area and specifically in to Scotland when there children are due to attend the academy? I feel it will be dangerous on each site for parking around each of the first school if you force the increase of footfall. It will also not help low any carbo foot prints actively encouraging parents to drive their children to school further increasing childhood obesity.

Keep the current structure, use the funds available to invest in the schools.
Representative of a Group or Forum e.g. – please state	Yes	none	No	as stated above the closure of the school would impact on the pre-school running from the site. It provides full day child care for pre school children to enable parents to go to work. Pre school children can access the breakfast club held daily in school to enable parents to drop children off earlier. The school and pre school in partnership provide an excellent choice for parents from the local area, not just the village of Scremerston but the surrounding areas. Parents are choosing to bring their children to Scremerston school and pre school rather	keep Scremerston school open and change it to a primary school thereby providing education and care for children from ages 2 (pre school) to 11

Staff Member of Scremerston First	Yes	none	No	The council hve absolutely no reason to close Scremerston First School, the school that many parents choose for their childrens' education whether or not they live in it's catchment area. No parent of a child at Scremerston is going to want them to go to a bigger school further away..	My suggestion is simply to listen to the parents, staff, governors and community of Scremerston First School.erston Fi
Representative of a Group or Forum e.g. – please state	No	There should be an option for those parents living geographically nearer to their high school.	No	Agree with closure of Scremerston but feel Belford parents need to be able to choose their school geographically	Having the old Belford Middle School as a specialist provision would undoubtedly improve the outcomes for children with SEND, especially those that are not reaching their potential or are home schooled as no suitable provision, The potential addition of multi agency working there with health and social care services would enhance such an offer.

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	I don't know Belford school enough to answer.	No	I still do not see a valid reason why scremerston should close, nor do I feel it is fair to propose closure in both models. Scremerston is unique. It offers the best support for many. It's location is amazing for parents within the village and those who commute north. Many parents chose Scremerston because it is the only non church rural school in the area. I myself looked at other schools before moving my children and found Scremerston to be the best fit	1. SEN unit for the academy either way. 2. Do not give SEN control to St Mary's in either scenario but better equip all schools to assist those with SEN and minimise moving school places. 3. Keep scremerston open. 4. Consider the impact on the children who have already suffered so many disruptions to their education

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	none	No	I dont support the proposal of scremerstons closure as my children will end up in a town school and i want them educated in a rural school. they will have to travel further impacting on the environment to a school i would have no choice but to send them to.	I think the three tier system is great and the two tier system would work too for scremerston first school, we have space to expand to accommodate more children. we already work well in transitioning in the three tier system with middle schools but see no reason that this would change if it were to be a two tier. i dont see the viable reasoning's to closer scremerston
Other – please state	Don't Know	None	No	It is much too far for the children who attend Scremerston First school to walk into Tweedmouth. The main road is very busy at all times of the day. It is important for parents to have the choice to have their children educated in a rural school. hildren educated to be educated in a rural school .	Scremerston First School would successfully manage either 3 tier or 2 tier systems. There is more than enough space to accommodate more children as the grounds are extensive enough to allow for expansion of buildings.
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	none	No	I do not support the closure of Scremerston first school as my children with then have to attend a school in town and this will be further for them to travel to and from school on a daily basis, making this more of an impact on the environment.	both would work for Scremerston first school. they have space to expand to accommodate more children.

Parent/Carer of a pupil currently attending Holy Trinity CE First	No	See reasons above	No	How is this going to benefit berwick if everything is going to Alnwick? Everyone forgets about berwick and think the closest place is Alnwick. Stop messing with children's futures and education.	
Parent/Carer of a pupil currently attending Hugh Joicey CE First	Yes	Closer to Alnwick than Berwick	Yes	Not shutting Scremerston though that's ridiculous	Belford and Wooler needs a primary school, Ford will absorb Norhams kids, Lowick is small so unsure about that but Scremerston is ideal for the Ancroft areas and north of Lowick, keep screamers and shut Lowick
Parent/Carer of a pupil currently attending Scremerston First	No	I think closing Belford first school will damage the village greatly and children aged 4 are very young for being made to travel to another village miles away when the school is all ready there and running great.	No	I think scremerston can remain open and teach children to age 11 years old and it's great facilities .	I don't mind going to two tier , but I feel strongly that scremerston should remain open and cater for children to the age of 11 years old. If the school closes the village will have the heart ripped out of the community . The community needs a school that's is easy to attend.

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	Same as question 11	No	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. There would only be Lowick on the A1 but this would require a drive in off the A1. Scremerston would be a great location for parents travelling North, it's easy to access from the A1. It also gives an additional choice for parents who do not wish to send their children to a church school.	I would like to see Scremerston First School as part of the models. I feel as though it has been overlooked and I feel it is vital in both models moving forwards. As I mentioned above, if the 2-tier model was to be adopted I would like to see a compromise between the middle school system and secondary with a smaller base for the younger children on the secondary site.

Parent/Carer of a pupil currently attending Belford Primary	Yes	By inclusion in the 2 tier system pupils from Belford would only need to change schools once at age 11 causing so much less upset than having to change at age 9 and again at age 13.	Don't Know	This is a confusing question as I do not know what this reduction in the catchment area of Belford will involve, I have not the maps as yet so feel unable to comment.	I wholly support a 2 tier system for all the County, as stated earlier, it is so much less disruptive for all pupils.

Staff Member of Berwick Middle	Yes	I previously mentioned the geographic reasons for including Belford Primary in the Alnwick Partnership.	No	None - I support the 3 tier model.	The only way a 2 tier system in Berwick would work is to a) combine more of the first schools to create fewer, larger primary schools b) rebuild the Academy with a lower school (KS3) and an upper school (KS4 & 6th Form) as separate buildings on the same campus. I attended such a school in Nottinghamshire and the lower school provided a similar nurturing environment as middle schools, allowing a much easier,

					smoother and less stressful transition into the secondary school system (I too came from very small, friendly, community led rural primary schools). I believe the best way to improve educational provision in Berwick whilst resolving issues of financial pressures on upkeep of school buildings would be to combine the 2 middle schools. Currently the Berwick middle schools have an excellent working partnership. We work very well together, providing a safe, caring and educationally rich environment for the young people in our care. We share a similar ethos to provide a varied and enriched curriculum whilst also providing the specialist education from year 5 through to year 8. By housing both schools in one school building costs of property maintenance would reduce, whilst maintaining the excellent relationships which we have developed with our pupils, their families and the wider community. I believe the proposed 2 tier structure will result in a mass exodus of excellent teachers from the Berwick area - this would truly be a great blow to future education in Berwick.

Parent/Carer of a pupil currently attending St Mary's CE First	Yes	None	Yes	Scremerston have already stated most of their pupils travel to their site, this would stop unnecessary travel by parents who pass 2 or 3 first schools to get to scremerston thus cutting down on car journeys thus making a positive environmental impact. Those that re unable to walk will be making the journey by other means anyway the closure just changes where they go.	I would love to see a 2 site high school provision. This would enable movement of pupils between sites. I worry that right now that when my children go to the high school that there is no alternative if for whatever reason they don't get on very well.current middle schools could be used as high schools with the academy used as a 6th form college type site.

Bullying is huge there , staff shortages, bad behaviour does not get addressed as much as it should but quick to give detentions out should homework not be done, arrange these where THEY SEE FIT, doesn't matter that we have to work for a living and can't get the child home because of where we live.Number of times I've asked to arrange a day that suits us both, it's our policy is the reply. Resident/member of the community living in the Belford catchment area	No	As a parent of two school-age children some 25 years ago, I chose to pay the bus fare to send our youngsters from the excellent Belford Middle School out of catchment to Alnwick Duchess High School, so that they could continue to fulfil their undoubted academic potential. As a teacher and SENCO at Belford First School, I was in a position to make an informed choice about the relative merits of the two High Schools. Other parents could not afford the bus fare to Alnwick, and had no such choice. I would like nothing better than to see a good, successful High School in Berwick, meeting the needs and aspirations of all learners. For my four grandchildren aged 2-6 years now. It would not be necessary to move Belford Primary and potentially Wooler Primary Schools into the Alnwick Partnership to address what is currently a deficit in the performance of Berwick Academy; the high percentage pupils choosing to leave the Berwick Partnership at 13 years of age to attend out of catchment schools, would no doubt return too, if there were a greatly improved offer at the High School in Berwick. So be brave, and follow a Headteacher with ambition and vision, and a Senior Leadership Team and	Yes	It makes sense to close Scremerston School, but not to move Belford Primary School into the Alnwick Partnership for reasons I have outlined in Question 18. 		teachers to match, to transform the High School into the outstanding educational establishment Berwick youngsters deserve. There will not be a "quick fix", but a real attempt is infinitely better than no fix at all, or the endless promises of improvement over the years which have failed to materialise, and which, incidentally, have failed the youngsters of the Berwick area too. Simply moving some schools into another Partnership suggests reactive acceptance that Berwick Academy is not good enough, instead of making a proactive attempt to improve matters there. The reorganisation of the Partnership schools presents a once in a lifetime chance to get things right, and we must get it right.

I do however, feel very strongly that the children who currently live within the Scremerston Catchment area should not be sent	On paper, a 2-tier model for education makes complete sense because of the way the curriculum in England is arranged. It would make sense for children to have only one transition from primary to secondary school and not have their learning

				elsewhere. If the children live in the village, the road young children would be expected to walk along to attend the next closest school is far too long and dangerous. This will only result in more cars on the road as parents are forced to take their children to their next local school. I also don't believe that parents of Scremerston pupils would necessarily choose to send their children to the new school they would be assigned and therefore even more parents would chose a school out with their catchment. I for one, would definitely feel forced to drive my child to a different school.	interrupted by moving schools more often than needed. However, I do not feel it is the right approach for Berwick, in large part because of the Academy itself. The first schools are good schools, and the children who attend do well. The middle schools are generally good and pupils do well. Many pupils and parents in the Berwick area choose to send their children to Eyemouth, Alnwick or Longridge schools to avoid sending their children to Berwick academy. If the middle schools close and the children are then at the academy for longer, then I fear yet more parents would send their children elsewhere. Perhaps the answer is to merge the middle schools and put it within the same site of a new academy. Then the two can share resources, teachers, expertise etc with the academy. The best of both worlds perhaps?
Governor of Tweedmouth Prior Park First	Don't Know	The parents, carers and staff should lead on this proposal as they are the best placed people to make the correct decision for pupils attending Belford Primary School. Berwick people should not make the decision for Belford students	Yes	The catchment areas will need to be reviewed to allow children to be able to attend the some appropriate school depending on where they live	None

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	I'm not sure why if Berwick moved to a 2-tier system that Belford Primary would need to move to the Alnwick Partnership. Given its location, surely travel times to Berwick would be better than to Alnwick?	Don't Know	None.	I am very supportive of the alternative proposal set out jointly by Berwick and Tweedmouth Middle Schools that the 3-tier system be retained, but that the two Middle Schools amalgamate into a single school. This seems like a very practical solution in order to benefit from savings of reducing the number of schools, whilst also retaining the benefits of the 3-tier model.

Staff Member of Scremerston First	Yes	none	No	Pupils from Scremerston catchment who qualify for school transport will have to travel further meaning longer days for children as young as 4 years old. Pupils who live within the village of Scremerston and will not qualify for transport will have to travel by car when they at the moment walk, this will increase cars on the road, families without transport will have a 1.7 mile walk along a busy 60mph road which I consider a safety issue. The increased number a traffic at the newly amalgamated school on TPP site will be unmanageable and dangerous. The choice for families is being taken away, they will no longer be able to choose smaller class sizes or village schools as all will be too far to reasonably travel to. they instead are only being given the option of a large first school.	In a 2 tier structure Scremerston First school will become a primary school and will, in the future, take the nursery in house providing education from 2-11. This is possible with the current lay out of the building and ground with the option to expand the building if required as the grounds would allow for this. The size of the grounds would also allow for the possibility of a rural SEND hub.
Staff Member of Scremerston First	Yes	none	No	If Scremerston were to close, 50% of children will have to travel further to school. Since we are based close to the A1, we are in a good position for many families including those parents that pass our school dropping their children on the way to work. Children living in Scremerston would have to travel along the 60mph road into what would be their closest school at 1.7 miles away, not being offered transport would leave those parents who don't drive to walk on a narrow footpath beside the road where vehicles travel 60mph. As well as more families attending prior park, the parking and congestion during drop off/pick ups can be challenging, this will only add to the traffic.	As we are based outside the town we are lucky to have great outdoor space this gives us potential to build extra space/classrooms which a number of schools in berwick would not be able to. We have the space to
Staff Member of Scremerston First	Don't Know	none	No	Scremserton is a commuter school which provides a non church option for parents. It is also a community school providing events for the village such as baby groups, bingo, carpet bowels and much more.	Closing a school that provides a community will have big effects on a village with a history of good community involvement and family feel. keeping Scremeton open provides opportunities for families of school

					instead of taking it away. they can provide for both 2 and 3 tier options, they have room to expand and provide education from 2 to 11 or 2 to 9 based on outcome.
Staff Member of Scremerston First	Don't Know	Children from Belford have historically attended Berwick High School. In terms of what's best for the Berwick partnership I'm not sure this move would be best. It would certainly not help getting more young people to attend the academy.	No	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. There would only be Lowick on the A1 but this would require a drive in off the A1. Scremerston would be a great location for parents travelling North, it's easy to access from the A1. It also gives an additional choice for parents who do not wish to send their children to a church school.	If the 2-tier model went forward Scremerston First School should be part of it. There is enough space that we could accommodate more classrooms. We have the highest percentage of children receiving school-based SEN support without an EHC. This is one of the reasons that parents travel to us from out of catchment so that their children can access the excellent support provided. Building on this provision, Scremerston and the other rural schools could train a specialist SEND teacher in each school covering the 4 areas of need-communication and interaction, cognition and learning, SEMH and sensory or physical. The trained teachers could work peripatetically to support the other rural schools with advice on the best provision and practices. They could also work together to create an inclusion panel type model where schools could bring a case forward to the specialist teachers, they could outline need and ask questions. The specialist teachers could discuss the case and give best practice advice to support the child and family. There might even be a case for shared SLA for EP involvement. This would hopefully mean that children with SEND could be educated in their chosen school. Scremerston would be vital to this with its proven track-record. As well as this we have a teacher working on a seconded placement with the mental health support team who could advice on SEMH cases, our reception teacher has done lots of training in language and communication and we have ELSE and Thrive-trained practitioners. If the 2-tier model was to be adopted, I would like to see a compromise between the middle school system and secondary with a smaller base for the younger children on the secondary site.

Representative of a Group or Forum e.g. – please state	Don't Know	We do not feel appropriate for our Parish Council to comment on Belford Primary	No	Scremerston First School is a very good school and children come from outside its catchment area because of its reputation and results. It is the heart of the community and if this school is closed the spirit would wane and be lost. Young families would choose not to live here if there was no school and the village would become a retirement village. The heart of the village would be ripped out. The school with its excellent teaching ability, friendly, caring, compassionate atmosphere would be lost forever. these qualities cannot be resurrected in the size of school proposed to take its place.	Our view is that you could move to a 2 tier educational system but with the retention of Scremerston First School as an important cog in the educational wheel.

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	Yes	None	Avoid closure of Scremerston at all costs! Within a 2 tier structure Scremerston would be able to have 30 more children, with exansive grounds to expand, a brilliant teaching team who always go above and beyond as well as the potential to move the private nursery into school. No consiration has been given to Lucky Ducks and the impact the closure would have on them They would have to close which is a blow for rural early years provision.

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	My children go to Scremerston first school which is excellent. Yes it's a catchment school but not only that not everyone wants to put there kids into a catholic/Christian school. If you close this then you are removing all options for parents. As all other schools are religious based this one is not. It also has a good ofsted. If this closed I'd be forced to send my children into one of two schools as mentioned in the original proposal. That's unfair. One of the schools have had poor Ofsted reports year on year and is notoriously known as a bad school. Adding more children to such a school will have a negative impact on the children of Scremerston school. Lower grades etc. I think we'd go home school than pick one of those	Keep Scremerston open and convert into a primary

					<p>catchment pupils from our school (Glendale) at the end of Year 6, our total pupils in catchment attending our Middle School would be in the high 90s as it was previously, before the move to the two tier structure in the Alnwick partnership. If you look at our Year 5 and Year 6 cohorts, they are in the high 90% of catchment attending our school. This would be the same in Year 7 and Year 8 if they could transfer to Duchess at the end of Year 8 or if Year 6 pupils were unable to transfer to Alnwick which is out of catchment. This is a rural School which can be in the 90% catchment attendance. A model that keeps Glendale Middle School open and merges Tweedmouth and Berwick Middle offering two good, well attended middle schools within a three 3 structure is ideal. Within the 3 tier structure, Glendale pupils would be able to transfer to Berwick at the end of Year 8. This would be a clear educational journey for children, rather than the inconsistencies of the past where we were betwixt Berwick Academy and Duchess, thus raising our attendance percentages. The tide is changing and only 5 of our Year 6s wish to transfer to Duchess at the end of this academic Year. This is the lowest number ever! Our parent and children survey reflect that are becoming happier to transfer to Berwick at the end of Year 8. Keep Glendale open; merge the two Berwick middle schools and you will have two good, well attended schools with a 3 tier structure. Alternatively, consider enhanced SEND provision at Glendale Middle School. We currently have 27% SEND on roll which is above national average. Families send their children to us because of our SEND provision. We are and excellent, caring and nurturing school with a staff that have become specialised in areas such as ASD, girls with autism, anxiety and EBSA. You are planning for Disability and challenging behaviours in The Grove; Engage Berwick and St Mary's, but why don't you</p>

					consider increasing your SEND offer by using the staff and facilities we have here to become a HUB for girls with SEND or autism; a tranquil, calm space which offers a nurturing environment. This option would also allow Wooler First School to remain on their site, because if you close Glendale, they will not be able to afford to remain. You will be saving money in the long run, but keeping open for SEND support and provision. We have the resources, the staff and the experience.
Governor of Scremerston First	Don't Know	None	No	As stated in section 13, I do not support the proposal to close Scremerston First School and the reasons are exactly the same as my response above. Scremerston has the capacity to be a primary school and can fit into a two tier structure..	For the many reasons contained in our governor response to this consultation, I strongly believe the Scremerston School should be retained in both proposals.

Staff Member of Scremerston First	Don't Know	I believe families in the Belford catchment should have the choice to send their child to the Alnwick or Berwick partnership depending on their own preferences considering work commitments and location.	No	I do not agree that all parents would be happy sending their child to a town school, particularly if they have chosen Scremerston First School for the rural aspects. I believe the congestion at both Prior Park and Spittal First Schools is already an issue and incorporating more children, families & cars would be a cause for concern for road safety.	I am confident that as a recently Ofsted rated 'Good' school, Scremerston First School could successfully remain open in either the 2 tier or 3 tier models with a healthy budget. It could successfully continue to provide remarkable education, in the nurturing way that it already does, supporting the individuality of all children and families.
Resident/member of the community living in the Berwick Partnership	Don't Know	Don't know enough about this area.	No	Scremerston First School is the heart of the community, if this is lost the heart of the community would wane. The school with its excellent teaching abilities and atmosphere attracts young families to the village if this was lost the village would end up as a retirement village and lose its special community spirit.	My view is a move to a 2 tier system but retaining the excellent teaching ability with Scremerston First School would be an important cog in the educational wheel and would better prepare the children when they move up to high school.

Other – please state	No	Need quality students coming TO Berwick, not away from it!	No	As above. Sending children away from the area is actively unhelpful to address our issues	Make a cogently argued business case to central govt. why funding rates appropriate to say London Borough of Merton (3-tier) is insufficient for here. Retain 3-tier system. Either undo (almost impossible unless it fails Ofsted) academisations: invest in teacher training and staffing levels to allow for more P/T work to attract teachers seeking a good work/life balance. Or academise the whole chain, thus enabling opt out of the English NC (frankly rubbish, esp. compared with CfE available at schools over the border), offering Leisure & Tourism and other relevant qualifications to broaden pupils' horizons, redeploying specialist teachers flexibly. Sadly all these options cost money - put the options clearly to the public that to keep things as they are will require Council Tax increase. Happy to discuss things further with you.

Parent/Carer of a pupil currently attending Scremerston First	Yes	None	No	Scremerston First School is currently in my catchment area - directly opposite my house, in fact. The main reason I bought a house in the village was for my children to attend the school and so it is a huge blow to suggest it may close. As far as the catchment area goes, closing Scremerston would be terrible for us as a family. Prior Park is the school which my children would be posed to attend if Scremerston closed and I can say without a doubt this is not a school I would ever have chosen for a wide variety of reasons. In addition, at only 1.7 miles away, Scremerston children would not qualify for school transport to Prior Park. How can it be considered safe to walk children as young as four (or younger considering Lucky Ducks Pre School would close alongside Scremerston) along what was formerly the A1 each morning and night? This is a 60 mile per hour road with just a small path. Why put Scremerston children through this ordeal when there is a perfectly good school already in the village? Though as mentioned, Prior Park is not a school I - or many other parents - would have chosen in any case. What happened to parental choice? Why do we not have the option of being in the catchment for an alternative rural school?	No matter which model is chosen, my number one suggestion is that Scremerston First School remains open. It would be a travesty to lose another rural school, not to mention the only non church one we have, and would be a huge blow to parental choice. As per the Ofstead report, Scremerston is a well performing school which is supported by pupils, parents, teachers, and the wider community. Being rural, it offers something unique which the schools in town simply cannot compete with. Under the three tier system, Scremerston could contnue to operate as is. Under the two tier system there is plent of outdoor space to extend the school to accommodate children for an additional two years. Scremerstno also has great SEND facilities, something other schools in the area struggle with.

				Why close a rural school - something there is a presumption against in parliament - and force our children into school we would not have chosen?

No	There is no need for Scremerston first school closure in addition there is no reason to move Belford to the Alnwick partnership.	Yes - Option C - an inclusive model or one middle school campus.
Staff Member of Tweedmouth Middle	Yes	none	No	Scremerston is an excellent school and should not be closed.	Option C- An inclusive model
Resident/member of the community living in the Berwick Partnership	No	As per my answer given in question 11	No	None	An alternative 3 tier model suggested above (option C) - For both Berwick and Tweedmouth Middle Schools to merge to form one Middle School as part of a new campus model (option C). Thus retaining the strengths in outcomes/curriculum breadth/pastoral support and teaching expertise that has seen both schools move towards outstanding judgements by the school improvement service. A Campus model (option C) would meet the criteria of the vision for change in full, while Model A and Model B fall a long way short of addressing this. A campus model would also be able to offer support to all schools in the Berwick partnership, engage local employers and the local community.

Parent/Carer of a pupil currently attending Holy Trinity CE First	Yes	I do not support the 2 tier system - however because Belford is now a Primary it would seem feeding into the Alnwick Partnership would be a sensible option	No	I do not support the closure of Scremerston First School - it would be suited to offering places to pupils from Norham. Belford Primary I would support moving to the Alnwick Partnership.	I refer to my previous responses in favour and consideration of the alternative option - Option C - and Inclusive Model proposed.

Governor of Tweedmouth Middle	No	As per my answer given in question 11 - Parents in Wooler and Belford would lose the ability to chose which partnership to send their children	No	None	An alternative 3 tier model suggested above (option C) - For both Berwick and Tweedmouth Middle Schools to merge to form one Middle School as part of a new campus model (option C). Thus retaining the strengths in outcomes/curriculum breadth/pastoral support and teaching expertise that has seen both schools move towards outstanding judgements by the school improvement service. A Campus model (option C) would meet the criteria of the vision for change in full, while Model A and Model B fall a long way short of addressing this. A campus model would also be able to offer support to all schools in the Berwick partnership, engage local employers and the local community

Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	I feel that these pupils should be given equal opportunity to attend either. I know some already do go down to Alnwick, due to the poor results of Berwick Academy	Don't Know	I am not directly involved with these schools so do not have all the information to make an informed decision. The Belford option does make sense, but the Scremerston / Norham schools does not make sense for the people of these communities.	I would support the option 3 as proposed by Berwick and Tweedmouth Middle Schools. This is by far the best option and would demonstrate that Northumberland County Council do have our kids future at heart, and not just about saving money. And yes option 1 and 2 are all about money and not about education.
Resident/member of the community living in the Berwick Partnership	No	None	No	Children from Scremerston should not have to walk to Berwick to go to school not everybody has a car .	None
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	I do not in anyway support 2 tier system in Berwick. Resident/member of the community living in the Berwick Partnership	Yes	None	No	Scremerston is an excellent school and should not close.	Yes- Option C
Governor of Scremerston First	No	I believe families in the Belford catchment should have the choice to send their child to the Alnwick or Berwick partnership depending on their own preferences considering work commitments and location.	No	I do not agree that all parents would be happy sending their child to a town school, particularly if they have chosen Scremerston First School for the rural aspects. I believe the congestion at both Prior Park and Spittal First Schools is already an issue and incorporating more children, families & cars would be a cause for concern for road safety. It is also a concern that children from Scremerston Village without transport may have to walk alongside a busy 60mph road to reach the nearest alternative school.	I am confident that as a recently Ofsted rated 'Good' school, Scremerston First School could successfully remain open in either the 2 tier or 3 tier models with a healthy budget. It could successfully continue to provide remarkable education, in the nurturing way that it already does, supporting the individuality of all children and families. The school's budget is managed strategically with the Governing Body positively analysing income and expenditure and predicting and planning for financial challenges ahead.

Resident/member of the community living in the Berwick Partnership	No	There are obvious concerns about the loss of pupils out of the Berwick partnership, how can reducing the number of pupils in the Berwick Partnership help? Parent/Carer of a pupil currently attending Hugh Joicey CE First	No	N/A.	No	N/A	I support the 3-tier structure but consider the focus above all else should be a new High School, residents should not have to send their children to School in Scotland or Alnwick or pay privately to get a good standard of education.
Parent/Carer of a pupil currently attending St Mary's CE First	Yes	If this is what they wish to do, although it should not be an issue if they still wished to transfer into the Berwick partnership.	Yes	Belford can choose whichever option suits them best, I would support their choice in any case.	I am appalled that the middle schools are currently offering a 3rd option, encouraging people to think that re building and creating even more cost, could even be an option, one that was discussed in the very beginning of the consultation and dismiss, by them! This suggestion is more about saving jobs, not provision for the children.
Staff Member of Berwick Academy	No	I believe that students have potential to succeed in the Berwick Partnership	Don't Know	None	None
Staff Member of Scremerston First	Yes	none	Don't Know	I support the decision for Belord Primary to be part of the Alnwick partnership.	For Scremerston to stay open and become primary which will allow parents a choice of a rural none church school in the area. Although not on the proposals it would make sense to amalgamate the small rural church school to make it finicially viable. It doe not make sense to keep 3 schools open for less than 100 children. There are less than 30 children attending Lowick and Holy Island. Although I value the work of middle schools in Berwick, i believe that education is more consistent when children endure fewer transitions. Personal, social and emotional skills are stronger due to longlisting connections with peers. Amalgamating schools in Berwick to become primary makes sense financially as does amalgamating small rural church schools. keeping Scremerston open to allow choice in the area for a rural none church school.

Councillor of Wooler Parish Council	Don't Know	none	Yes	none	Like belford many Wooler children have headed south to Alnwick id like to see a fluid model also for Wooler first to both Alnwick and Berwick
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	As I do not live in this area, I don't feel that I can comment on what is best.	No	Scremerston has gave all three of my children an excellent start in education. I don't feel that closing the school would be in the best interest of the children or the local community.	I think that a middle school merge may be a good idea to continue the good standard of education children currently receive until age 13

Resident/member of the community living in the Berwick Partnership	Don't Know	This would be up to the people of Belford to say, not me, but would they want to send kids to Alnwick if Berwick Academy had better results?	Don't Know	This would be up to the people of Belford and Screm to say, not me, but would they want to send kids to Alnwick if Berwick Academy had better results?	Invest in the Academy to bring it back to an acceptable status where parents don't feel they have to send their kids to Alnwick or Scotland to get a good education. Support post 16 education via Northumberland College in Berwick to help retain young people in the town, therefore increasing the number of young families, and stemming the decline in pupil numbers. Ensure that good quality jobs (e.g. teaching) are not lost to the local area. Build more houses and prevent them being bought up for holiday homes so that young families have somewhere to live.

Other – please state	Don't Know	None	No	I don't believe the closure of Scremerston School as the only non church rural school in the partnership is correct. Scremerston provides an opportunity for pupils who may not want to be educated under a church affiliated school especially given that the church fails to acknowledge gay/lesbian marriage and therefore perhaps pupils who are gay or lesbian would feel unwelcomed or unable to attend a church school and therefore should at least have the choice to attend an alternative which Scremerston does offer. However, I am also supportive of the merged 'Middle School' option which has been proposed by Berwick and Tweedmouth Middle Schools and believe that this would protect the vitally important educational outcomes currently achieved by pupils who currently attend these schools, whilst also providing a financially viable model for the future.

					form one Middle School as part of a new campus model (option C). Thus retaining the strengths in outcomes/curriculum breadth/pastoral support and teaching expertise that has seen both schools move towards outstanding judgements by the school improvement service. A Campus model (option C) would meet the criteria of the vision for change in full, while Model A and Model B fall a long way short of addressing this. A campus model would also be able to offer support to all schools in the Berwick partnership, engage local employers and the local community. Importantly teaching expertise can be shared across the partnership to support all schools which will improve outcomes.

Staff Member of Berwick Academy	No	I have mentioned previously the need to support the whole Berwick community - families having their children educated in Berwick will support out other services and help with economic development of the town.	No	I have mentioned previously the need to support the whole Berwick community - families having their children educated in Berwick will support out other services and help with economic development of the town.	As previously - I am surprised that we are still looking to have a number of first / primary schools in the town. This will be a missed opportunity to have a 2 tier system, with only 1 or at most 2 primaries in Berwick. (I so NOT support the closure of small rural primaries in the partnership). I used to live close to a primary school in Whitstable called Joy Lane, it was a 4 or 5 form entry, and had a swimming pool, and specialist teachers for languages, music and PE. I would rather we make a move towards consolidating primary education with the town whilst we are making changes, and feel that continuing with a number of old and outdated first/primary schools is not maximising economic efficiencies. My preference would be to have one primary school, perhaps using a middle school building, and to use funding to provide specialist teaching and services, rather than to pay for maintaining a number of old and inefficient buildings.

No	Scremerston is a very popular school and it would be a shame to see it close.	The revised proposals put forward by the Middle Schools for their merger seems to be a far better idea than Two Tier as it will mean that educational outcomes will take priority over financial priorities. This should not be about finance but should be about educational outcomes.

Parent/Carer of a pupil currently attending Scremerston First	Don't Know	Children from Belford have historically attended Berwick High School. In terms of what's best for the Berwick partnership I'm not sure this move would be best. It would certainly not help getting more young people to attend the academy.	No	With the likely move of Belford Primary to the Alnwick Partnership there will be a distinct lack of educational provision North of Belford if Scremerston were to close. There would only be Lowick on the A1 but this would require a drive in off the A1. Scremerston would be a great location for parents travelling North, it's easy to access from the A1. It also gives an additional choice for parents who do not wish to send their children to a church school.	I would like to see Scremerston First School as part of the models. I feel as though it has been overlooked and I feel it is vital in both models moving forwards. As I mentioned above, if the 2-tier model was to be adopted I would like to see a compromise between the middle school system and secondary with a smaller base for the younger children on the secondary site.
Resident/member of the community living in the Berwick Partnership	Don't Know	Belford and Alnwick are outside my area.	No	I do not support the closure of Scremerston School. See reasons above.	Scremerston First School is a rural School but on the edge of the Berwick Town area. It is the only rural school that is not affiliated to a church. These things alone make this school different and provide a real choice for parents. It also has a very good reputation, it is not a failing school by any means. It is also the centre of the village community which helps the mix of households in the community. Whichever education system is chosen Scremerston deserves to survive and prosper. We are also in and are designated for further development which could expand the need for the school in the future. There is also a question of the safety of the children who would need to walk to Prior Park School over a large hill, beside a busy road where traffic can reach 60+ mph, exposing them to the exhaust fumes. The path is not very wide and is only on one side of the road. It is a long way for small children to walk before and after a long day at school. The bus service is irregular and at time unreliable. May families in the village do not have access to a car.

Other – please state	Don't Know	I don't know anything about Belford staff, pupils or family so can't comment.	No	I can't speak for Belford, but under the proposal from the middle schools, it may not even be necessary to close Scremerston First School as it would be supported by staff from the new middle school.	Please see the model proposed by the middle schools <a href="https://www.berwickmiddleschool.org.uk/">https://www.berwickmiddleschool.org.uk/</a>

Parent/Carer of a pupil currently attending Berwick Middle	No	None	No	None	The decision seems to be more swayed to closing the first schools and middle schools. These are the only schools in my eyes that are actual making a difference to our children's education. The one that isn't working is Berwick Academy. The school is so out dated, I remember visiting when my now 17yr old was moving up from the middle school and I was shocked to see the state of the school, I couldn't even close the toilet door in the girls bathroom. Very outdated and tired building. I think instead of closing the schools that are doing their jobs correctly, look to improve the one school that is doing badly and failing in many different ways. I w myself when through a three tier system ans when we moved to Berwick over 6yrs ago from Yorkshire which is now a 2 tier system, I was pleasantly surprised that there was middle schools in the area. The middle schools do a massive job of allowing pupils to get used to being in a bigger school. The pupils go from one extreme to the other when leaving primary and going to upper school, it's a big jump from one 'fun' school to a place which not only has a large age range and bigger older pupils but the work that is expected of them will be a dramatic change, which from I've since learnt that a number of children have committed suicide due the the intense pressure that they get from leaving primary and going to secondary school.

Representative of a Group or Forum e.g. – please state	Yes	I don't think that Belford should have changed to a Primary, but now it has, those children should filter to Alnwick.	No	There is no need to close Scremerston. Belford should move to Alnwick as it is the same model (2 tier)	Yes - see 3 tier option (Option C - inclusive model) in previous questions
Staff Member of Tweedmouth Middle	No	None	No	None	I see option C as the most sustainable and realistic choice of option for the Berwick partnership.
Parent/Carer of a pupil currently attending Scremerston First	Yes	none	No	this catchment area creates so much more transporting of children long distances, adding to already long days at school not to mention carbon emissions. Northumberland is a rural area and as such should keep its rural schools. Access to Prior park first school is already difficult with it being located in a busy housing estate imagine the chaos with a larger catchment area and more cars travelling in there from scremerston and all the farms north of Belford!	2 tier but keep scremerston open it is perfectly located to catch the children on the north side of belford. It has huge potential for growth in the grounds, an good ofstead rating and the 2-4 years provision of Lucky Ducks pre school on site already. It is a huge part of the Scremerston community and attracts families to the are (its why we bought a house here and not in eyemouth)
Parent/Carer of a pupil currently attending Belford Primary	Yes	Belford is currently operating a two tier module and has done for a number of years, since the closure of the Middle School, Belford Primary school has built close working relationships within the Alnwick partnership, sharing knowledge and experience and I feel it would be at the detriment of the pupils of Belford to continue with the Berwick partnership giving the difference in the school phases and the new challenges the Berwick partnership faces going forward, the focus and objectives of the partnerships are completely different given their different statuses. Governor of Berwick Middle	Yes	Many pupils already feed into Alnwick partnership schools and geographically the travelling distance is very similar	Yes	None	retaining the 3 tier system but with an amalgamation of the middle schools which would allow an even better offering to the pupils
Parent/Carer of a pupil currently attending Scremerston First	Yes	None	No	Absolutely ludicrous to think about closing a non C of E rural school. I have chosen to send my child to Scremerston which is out of my catchment area because of the outstanding of education provided which is what my children hadn't received in their catchment school which is proposed to be one of the rural schools staying open.	Yes the proposed inclusive model suggested by the tweedmouth and berwick middle schools which would hopefully include the staying open of Scremerston school.
Parent/Carer of a pupil currently attending Scremerston First	No	This system promotes feeding children into Alnwick's high school which will further stagnate the Berwick Academy, allow choice. Parent/Carer of a pupil currently attending Berwick Academy	No	Let Belford decide for themselves	No	Scremerston is too important to the community to close	I fully support the alternative model proposed by Berwick and tweedmouth middle. Don't close two good schools and send the kids to an RI school.
Resident/member of the community living in the Berwick Partnership	Yes	Those communities have already made their decisions and should be supported accordingly. It reflects in any case what is actually happening in practice.	Yes	It's the only logical option.	None
