Parent/Carer of a pupil currently attending Berwick Middle	Yes	There is no provision for 'high functioning' children with SEND	No	None
Governor of St Cuthbert's RC First	No	None	Yes	None
Parent/Carer of a pupil currently attending Berwick Academy	No	It doesn't support the grove school at all	No	This is the same, terrible support and even less in a 2 tier
Staff Member in another School in Northumberland	No	The Grove is a sterling school. St. Mary's is a stop gap for those children with challenging behaviour but where will they go eventually? To a full academy with a shocking ongoing Ofsted report	No	Tweedmouth Middle is a ludicrous choice for the Grove. Right next to the Academy with children throwing abuse as they walk past!! The steps inside how can the children possibly manage these?
Staff Member of Glendale Middle	No	There are other spaces that could be made available for SEND provision, Glendale Middle School/Wooler First school site is huge, and we could also establish a provision here.	No	As above.

Resident/member of the community living in the Berwick Partnership	Yes	But more places need to be available for a growing number of pupils with special needs. Also more provision with qualified staff is essential to support this very vulnerable group of pupils (and families)	No	I do like the idea of a larger school to provide for a growing number of pupils with special needs but would prefer Tweedmouth Middle remain in their own building
Staff Member of St Cuthbert's RC First	No	none	No	I do not feel that The Grove should have SEMH included on their site - I feel that the Grove needs to continue to specialise in the provision it currently provides but on a new and more adequate site where the numbers can be increased. I feel that SEMH should be set up as a separate provision in Berwick.
Parent/Carer of a pupil currently attending St Cuthbert's RC First	No	None	No	None
Resident/member of the community living in the Berwick Partnership	No	I don't feel that a peripatetic system would give ether required amount the support it needs to expand with full-time professionals who can proved the required amount of support.	No	See answer to previous question.

Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	The Grove is a fantastic school and I believe it defiantly needs more support and better facilities	No	I do not believe the TCMS site is suitable for the needs of The Grove money would be better spend extending the site they are on or creating a new purpose built site
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	The Grove school is a specialist school and should have the facilities to accommodate all pupils requiring SEND.	No	Same as 23
Other – please state	Yes	This school is absolutely amazing and county should be so proud of all the staff at this school. I believe that you are letting them and our children down. If we had a choice for them I would ask that they get a plot of land and a school to be built for the need of the children that attend The school would need to be away from other schools and have outdoor space. I absolutely love this school and I think that you are all failing them and the children that attend	No	Wow that is absolutely disgusting. The children that attend the grove cannot deal with main steam school that's why they are at the grove and you want to move them next to the Academy I honestly don't know what you're thinking.
Staff Member of Berwick Academy	Don't Know	None	Yes	Students have to travel long distances for specialist provision.
Parent/Carer of a pupil currently attending Tweedmouth Middle	No	The Grove schools need a bigger and better building. Parent/Carer of a pupil currently attending Tweedmouth West First	No	I think there should be a new purpose built school for pupils with special educational needs so they don't have to travel to Alnwick or blyth	No	none
Parent/Carer of a pupil currently attending Glendale Middle	No	None	Yes	A bigger, purpose built special school should be built. Families who are already facing huge difficulties are having to travel miles to get to the appropriate school.
Governor of St Cuthbert's RC First	No	I support 2 tier	Yes	This seems sensible and good use of existing building, as long as it is suitable for meeting a whole range of needs. Also as long as the peripatetic service is adequately funded
Parent/Carer of a pupil currently attending Glendale Middle	Yes	There are some quite challenging disabilities at The Grove school that I believe work better in a separate setting	No	None

They need a new building that is fit for purpose	No	The grove school as a specialist provision needs a new purpose built building not placed in a school site where the building is not fit for special educational needs such as wheelchair users, hydrotherapy pool is needed, soft play areas. Better to build a new school with everything needed than convert a building that's no use
Other – please state	No	I believe the unit at st marys is unsustainable 6 week blocks for children then to put back in previous unit is not fair. 		absolutely need a bigger school and more funding and support to help in that.		feel is asking for bullying and the grove students deserve as much as a safe space as every other child.
Parent/Carer of a pupil currently attending Tweedmouth Middle	No	The Grove school needs a total new rebuild and your proposal would mean kids with Send in Tweedmouth area having to leave their friends and go to Berwick Middle an upheaval some might not cope with	No	Tweedmouth middle is totally inappropriate for pupils how go to the Grove school
Parent/Carer of a pupil currently attending Spittal First	Yes	None	No	None
Staff Member of Berwick Academy	No	I do not support the three tier model.	Yes	This model best supports children with additional needs.
Staff Member of Berwick Middle	Yes	The Grove is a great school and caters for very specific needs. This would completely change under the 2 tier proposal. Pupils with more severe medical needs are educated separately from pupils with Autism and SEMH needs, as they are in the rest of the country, for good reasons.	No	None
Parent/Carer of pupil/student in another school in Northumberland	No	would like 2 tier	Yes	Grove requires more space and the ability to have more pupils. Would still like to see another school that caters for those that do not fit into mainstream or special school. of which there are many.
Staff Member of Berwick Academy	Don't Know	None	Yes	Streamlined structure and better SEN support
Resident/member of the community living in the Berwick Partnership	Yes	Not enough space in the Grove Special School to accommodate these children to ensure they have the best start in life.	Yes	Should have happened years ago - not enough provision for young children who are being diagnosed much earlier and need this additional support
Parent/Carer of pupil/student in another school in Northumberland	No	Absolutely NO! The planned "hub" at St Mary's especially a school that caused my own child severe psychological and emotional damage is laughable. These short term circuit breaking provisions are so far from what our children need ESPECIALLY when the main thing they need is to feel safe. You believe these provisions will come out with a specialised plan for their return to mainstream when the current mainstream schools can't even meet the LEGAL	No	NO!! No no!!! SEMH children need their own LONG TERM provision nothing short term and not an extension of The Grove as their needs are so different from children with complex disabilities. Go and have a look at The Dales school in Blyth (my child has been a student there since he was seven) spend two hours in there and you will see exactly what I mean. Our children

		needs set out in EHCP's! Those hubs will do more damage than good and the long term affects could be catastrophic.		deserve their own school one where their needs can be met where they are not segregated or excluded multiple times.
Staff Member of Berwick Academy	No	None	Yes	Having a nephew who goes to a special needs school but can integrate with mainstream students for Maths which he is good at. This is a fantastic opportunity. The opportunity for him completely changed his life for the better.

Parent/Carer of a pupil currently attending Holy Trinity CE First	Yes	None	No	The Tweedmouth Muddle School site would need a huge amount of alterations to accommodate pupils with physical and learning disabilities.
Parent/Carer of a pupil currently attending Berwick Middle	Yes	The high level of pupils needing SEND support needs this .	No	None
Other – please state	No	In the current 3 tier structure there isn't the capacity to support and educate our high number of SEND children in the Berwick Partnership.	Yes	Every child with SEND has the right to education as close to home as possible. The current Grove site is no longer big enough for the number of children who need to access it within the partnership. There are increasing numbers with SEMH within the partnership whose needs need to be met. As a partnership we need to address the growing numbers and provision for children with SEND. However, we believe the current Tweedmouth Middle building is not fit for purpose as a SEND specialist provision and would need significant adaptations or a rebuild to make it suitable.

Resident/member of the community living in the Berwick Partnership	Don't Know	Don't know	Yes	2 tier is the best way forward
Staff Member of Berwick Middle	Don't Know	I agree with specialist provision at each stage of the 3 tier system but I do think the Grove School should be moved to a new modern and bespoke site able to provide for their pupils.	No	Tweedmouth site is old and unsuitable for pupils who attend the Grove. SEMH pupils have different needs and requirements to the complex needs of pupils attending the Grove School.

Staff Member of Berwick Academy	No	I do not support this structure at all, as detailed above.	Yes	Siting specialist provision next to Berwick Academy would allow for the development of stronger ties between the schools. It would provide opportunities for SEND provision to grow and develop, for expertise and initiatives to be shared closely, on a day-to-day basis, and for children who may benefit from attending both The Grove's provision and the secondary provision at the academy, do engage in a mixed programme that is best designed to benefit them. I believe that this proposal would significantly strengthen SEND provision in the area and would allow us to continue to develop expertise and offer the best pathways for every young person.

Other – please state	Yes	Every year there are more children getting diagnosed with some type of Special Educational Needs and mainstream schools can help them to a point but they need more specialist assistance to help them thrive with their education over their school years. The Grove School can not stay where it is as it is full and children are having to wait months to access a place.	No	As I would like the 3 tier education to stay as it is, which would mean that The Grove can't move to Tweedmouth Middle as it would still be open.

Parent/Carer of pupil/student in another school in Northumberland	No	The Grove site is not big enough, building not fit for purpose, no parking, no outdoor space which is really, really important.	Don't Know	Needsa new building on a new site, and peripatetic SEN would be very valuable in this remote area that we seem to d=struggle to get specialists to attend.
Parent/Carer of a pupil currently attending St Cuthbert's RC First	Yes	If 3 tier is maintained, we need better provision for children with SEND, and the proposal appears to address this.	Yes	Moving the Grove to Tweedmouth Middle School site would make sense as provides more space and opportunities for joint learning if appropriate.

Resident/member of the community living in the Berwick Partnership	No	None	Yes	Ensuring send support is in place is essential and strengthening send provision through a secondary and primary structure would allow for additional support during exam years (SATs and GCSEs) helping children to achieve the best they can.

Yes	growing the grove school provides much needed extra provision for the local children so they are not travelling miles each day
Staff Member of Berwick Academy	Yes	None	Yes	None
Staff Member of Berwick Academy	No	None	Yes	Better relationships and SEND pupils will be more supported
Staff Member of Berwick Academy	No	I support a two-tier model.	Yes	Use of the current site of Tweedmouth Middle School is a cost effective way to ensure provision for SEN pupils is excellent - it is close to Berwick Academy (or any future new build) and therefore subject specialist teachers can easily be deployed to the SEN site. I have worked for 6 years as an SEN support teacher (HLTA) in mathematics and would fully support this option.
Staff Member of Berwick Academy	No	There is a strong need for specialist provision in Berwick for Special Educational Needs, adding to what is already there in the schools mentioned above would not benefit those pupils who deserve the specialist education that they need	Don't Know	I think this is a good idea however there would need to be major investment into the site at Tweedmouth Middle School due to it being on different levels.

Staff Member of Berwick Academy	No	None	Yes	This will allow SEND support to be streamlined and will allow us to develop a culture of progress for those students with additional needs.
Staff Member of Berwick Academy	No	None	Yes	SEND support currently at high school is stretched and often the information we receive about students arriving in Y9 can be outdated and not accurately representing where the child is currently. Having this process be more streamlined across a two tier system may allow for more clear and consistent student support. It would allow staff to get to know students better before they enter their GCSE studies and allow for support to be prepared in advance with the GCSE curriculum in mind.
Staff Member of Berwick Academy	No	None	Yes	None
Staff Member of Berwick Academy	No	My experience currently due to the three tier system is that Middle schools have a number of Teaching assistants who provide support for students who have not been assessed with SEND needs and when the child then arrivals at Berwick Academy both the child and parent expect this provision to continue, and do not realise this will not without a full EHCP. A number of students have had to have their SEND needs assessed once at the Academy and even then not until Year 11 which is too late to fully support their needs and progression through education and exam success. This needs to be done earlier and a two tier system with students needs assessed in Year 7 would help ensure that. I also used to be involved in transition of data from Middle schools and the experience from the different feeder Middle schools was and is vastly different, with either a little or no information being passed on to help support SEND students. Staff Member of Berwick Academy	No	I support an improved SEND provision within the context of a two-tier system.	Yes	This would improve the consistency of the provision across the partnership.
Representative of a Group or Forum e.g. – please state	Yes	The Grove already provides first class support for SEND. I would hope the new package allowed for an increase in the number of fully qualified teachers of SEND to be recruited.	Don't Know	Some highly specialist support should still be provided from a central bank. The model of LIST worked to a degree but removed the considerable benefit of professional development within a single service as delivered by Sensory Support. Splitting highly specialised teams for low incidence high need children reduces flexibility of support.
Resident/member of the community living outside of the Berwick Partnership	Don't Know	None	Don't Know	None
Staff Member of Berwick Middle	Yes	None	No	Do not close our middle schools! 3 tier system is best for children's welfare, nurturing, education. The current middle schools are good schools and therefore we would lose two good schools if we got rid of the 3 tier.
Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	None	No	Question 24 is worded to pushing the reader to answer yes. I do feel the grove school requires additional funding and support but not at the closure and lose of so many jobs elsewhere.
Parent/Carer of a pupil currently attending Norham St Ceolwulf's CE First	No	None	Yes	Would always support proposals for additional special educational needs provision
Staff Member of Holy Trinity CE First	Yes	Peripatetic service shares resources and therefore shares costs whilst also supporting individual schools to give the best possible outcome for the students	Yes	More space is needed for the Grove school to continue and expand its work. Peripatetic service would benefit the other schools in the partnership
Staff Member of Berwick Middle	Yes	The Grove should be able to continue as it is, with no changes to what they provide, apart from having access to a bigger school. I have two family members who have or are working there, and they have witnessed first-hand the outstanding work staff carry out to ensure SEND students thrive and enjoy their time at school.	No	It does not make sense to include SEMH within a school that provides for SEND students with very complex needs. The sole focus of the Grove School should remain the support and teaching of SEND students, and the SEMH should remain a completely separate entity. SEND and SEMH are two very different needs, and should remain separate so that students receive the best outcome.

Staff Member of Scremerston First	No	I think it would be better for the Grove School to be expanded to prevent children with special needs having to travel daily to special schools at Alnwick and Newcastle.	No	Yes to the Grove School being transferred to Tweedmouth Middle but I do not believe this should include SEMH pupils. A separate unit should be provided for them...perhaps using the Grove School's current building.
Representative of a Group or Forum e.g. – please state	No	Anything that enhances SEND beneficial but would rather two tier	Yes	Would not like to change the current criteria for Grove admission but SEMH may be part of that and the numbers will continue to increase. Happy for Tweedmouth middle but awareness of stairs for some students being a problem. Belfod Middle could be a specialist provision that could also be a peripatetic service where the expertise could be accessed.
Governor of Scremerston First	No	Scremerston already provides an excellent quality for Special Needs Provision - evidenced by the last OFSTED report. There is a need for this provision on the south edges of Berwick to continue.	No	Scremerston already provides an excellent quality for Special Needs Provision - evidenced by the last OFSTED report. Parent/Carer of a pupil currently attending Scremerston First	Yes	Special educational needs and disabilities are becoming more and more required and there is a lack of this in our area. Concentrating more on the needs of pupils who could benefit from extra help and funding would be more beneficiary to our community. With a change in all school settings this would have such a knock on effect longterm to those pupils that need SEND support.	No	Moving to a mainstream setting will be none beneficial, putting the budget into a larger more equipped building for the growing amount of SEND children needing the Grove school would be a huge improvement meaning all children get the best chance of thriving.

Parent/Carer of a pupil currently attending Scremerston First	No	The Grove school is full on its current site so this proposed model would not give any more spaces for children. The Berwick partnership desperately needs more special school spaces to stop our most vulnerable children having to travel for miles to access an appropriate education. However I like the idea of a peripatetic model. It would be good to have some specialist trained teachers in the area to offer advice and support to schools so that teachers were supported to enable them to provide the correct care/ reasonable adjustments for SEND learners. Perhaps there could	No	I believe the SEMH hub is already open at St Mary's First School. What would happen to this in this model? I agree that The Grove needs a new site however. Their current site is very small and lacks parking.

Staff Member of Belford Primary	Yes	There is a definite need for increased SEND provision within the Berwick partnership. I do have concerns that the Grove Special School will miss out on potential development/investments with this model. The Grove does an incredible job in a very small building and with very limited outdoor space.	No	I don't feel that it would be appropriate to combine the Groves current provision with an SEMH provision.

Representative of a Group or Forum e.g. – please state	Yes	There is a real need for additional specialist SEND provision in the Berwick area. Children should not have to travel large distances to attend a suitable provision.	No	We feel that extending the provision of The Grove Special school is very important, as their site is very small both internally and externally. They do an excellent job in very cramp conditions. We do not feel extending provision to include SEMH at a newly located Grove would be in the best interests of the children however, because of their very different needs.

Staff Member of Scremerston First	No	Additional provision for lower level SEND would be welcomed but the current site of the Grove School is totally inadequate. There is a huge need for special school places in the partnership, with many of our most vulnerable children having to leave the area every day in order to access appropriate provision to meet their needs. This is hugely expensive in terms of the costs to school transport but more importantly to the mental health and wellbeing of the children involved and their families because of the length of their days, once travelling time is factored in, anxiety about the journey, especially after the dreadful accident on the A1 when a school taxi driver died, in 2019 there were at least 77 accidents in the first 10 months of the year, with the bulk of the non-dualled stretches of the road lying between Berwick and the south of the county. It is imperative that the Grove school receives a new site, purpose built to meet the needs of its learners, as part of this re-organisation of schools in Berwick.	No	Most of this proposal is acceptable however it has been stated many times by the Grove School's head teacher that the needs of her pupils are not compatible with providing support and education for pupils with SEMH needs.

Parent/Carer of a pupil currently attending St Mary's CE First	Yes	I am deeply concerned with BMS's view of SEND needs. They have not responded to emails, nor had a conversation with us regarding our child's needs. And when they finally join a meeting their view is essentially "suck it and see". They seem unwilling to prepare, instead they are willing to leave the rest of the school population in a possibly dangerous situation and then deal with the fall out. At best this course of action is pig headed at worse it's entirely unprofessional and dangerous. They are complacent, a change to 2 tier would allow for a reset in SEND provisioning in the area and with the right people in charge, a massive improvement.	Yes	Nine

Staff Member of Scremerston First	No	The Grove School deserves a new purpose built facility. The very strongest views from the consultation were that SEND provision in Berwick, in its current state is not inclusive of all. While the Grove caters for children predominantly with PMLD needs, there is a huge gap in provision for children who have SEMH needs including autism and ADHD. In the past 3 years I have had 3 children in my class move to specialist provision in Alnwick as there is not the capacity at the Grove School. This is simply not good enough for our youngest children.	No	While the Grove's provision MUST be extended to include SEMH, this needs to happen in a purpose built building not on an already run down and inaccessible site.

Resident/member of the community living in the Berwick Partnership	No	Because I feel 2 tier most benefits the children's education and wellbeing	Yes	As a society we should be providing our children with special educational needs, and their families, a first class education for their children within their local communities. Providing them with educators who the children and their families can establish trusting relationships with, to enable the children to be happy and settled and achieve the best outcome for them.

				<p>are suitable for a Special School provision remains open to question. Nor should The Grove be expected to dilute its offer, simply to accommodate more pupils. As a member of the committee organising the NAS North Northumberland Branch, I speak to many parents and carers whose children with SEND struggle to cope in mainstream classrooms. Yet more parents are so frustrated by the lack of appropriate provision and the lack of school choice in the local area, that they feel their only option is to apply for an EHCP. There is a great need to create specialist teaching units within mainstream schools where pupils with more complex needs can access specialist teaching in an appropriate environment. Mainstream teachers cannot be expected to create two different environments, teach at two very different paces, and use two often very different teaching methods, all in one classroom. Such Specialist Support Bases in mainstream schools could provide time-limited bespoke provision, particularly in Primary schools and Early Years settings to capitalise on early intervention, and identification of need. In such units, i would expect to see close involvement of Health and Social Care services, alongside Education services. I would also strongly recommend consideration of using the former Belford Middle School building and site again as a special educational establishment in some capacity. Equidistant between Wooler and Seahouses, and between Berwick and Alnwick, it is perfectly situated to provide local specialist provision for the Berwick Partnership. In addition to the advantages of the site and the one-level floor-space, there would be enough room to provide an integrated services approach - education, health and social care, with multi-agency working. Marvellous indeed! Another clear advantage would be the close proximity of a thriving, successful Primary School next door, with an enthusiastic Headteacher keen to promote co-operation. Any financial investment necessary to convert this former school back into a specialist educational establishment, would be repaid a million times in terms of what it</p>

Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	Please see my answer to question 13.	Don't Know	None
Parent/Carer of a pupil currently attending Berwick Academy	No	I support the proposed model within the 2-tier system.	Yes	Children deserve to be taught in their local catchment area, whether this is through extension on another site as well as specific learning needs on another. Within the 2tier system the children will be identified in the Foundation stage and not lost in the middle stages and left underprepared for KS3
Resident/member of the community living in the Berwick Partnership	Yes	St Mary's school is in an ideal situation to do this and I believe that the headmaster has experience in this field	No	none

Staff Member of Scremerston First	No	Within the current 3 tier system too many pupils have to travel out of the partnership to receive the help and education they deserve. Even with the added provision at St Marys, Berwick middle and Berwick Academy this is still not adequate for the needs of SEND pupils in the partnership	Don't Know	SEMH should not be added to the Grove school provision but should be a separate unit.
Staff Member of Scremerston First	No	As stated above I am in support of the 2 tier system.	Yes	none
Staff Member of Scremerston First	Yes	SEN is important and all children have the right to a good education.	No	none
Staff Member of Scremerston First	Don't Know	The Grove school is full on its current site so this proposed model would not give any more spaces for children. The Berwick partnership desperately needs more special school spaces to stop our most vulnerable children having to travel for miles to access an appropriate education. However I like the idea of a peripatetic	Don't Know	I believe the SEMH hub is already open at St Mary's First School. What would happen to this in this model? I agree that The Grove needs a new site however. Their current site is very small and lacks parking.

		model. It would be good to have some specialist trained teachers in the area to offer advice and support to schools so that teachers were supported to enable them to provide the correct care/ reasonable adjustments for SEND learners. Perhaps there could also be a shared SLA for Eps within this peripatetic model to support the finances of smaller schools but still enable schools to access support and training.

Parent/Carer of a pupil currently attending Berwick Middle	No	I support the 2-tier structure.	Yes	None
Parent/Carer of a pupil currently attending St Cuthbert's RC First	No	None	Yes	We need more provision in the town for children with SEN. This would create more spaces for children to attend a school which would support their needs fully. Too many children with SEN are struggling in First Schools as there are not the spaces for them in the specialist schools. Bigger provision would be such a benefit to the town and these children.

Parent/Carer of a pupil currently attending Scremerston First	No	The Grove needs its own purpose built provision to serve a town of Berwick's size.	Yes	Again the Grove needs a purpose built building. Scremerston staff go above and beyond for SEND children, the problem comes when there is no places at the grove and the closest alternative provision being 30 mile a way. SEMH provision must be provided as part of the grove's offer, not a "stop gap" model not sending the children to st marys for a period of time.
Parent/Carer of a pupil currently attending Berwick Middle	Yes	Our children shouldn't need to travel as far	Don't Know	I do like this idea but it could be use in the 3 tire if 1st schools are looked at in the town as I feel we have a lot near each other if they were to join some of the first School this could free up a school for send school which would support our children and their families.

Staff Member of Tweedmouth West First	No	The Grove school is unable to function in its current building. They need a new fit for purpose building	Yes	We need to support all the children who are travelling long distance from Berwick to enable them to access education in their home town. Money saved from private taxis could be better spent in the town to support them.
Resident/member of the community living in the Berwick Partnership	No	Would prefer a central provision to allow higher standards for the particular needs. Integration with mainstream schools does not necessarily work	Yes	The Grove has such a good reputation and this would allow it to excel and then facilitate appropriate connections with local mainstream schools
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	Don't Know	N
Parent/Carer of a pupil currently attending Scremerston First	No	My children go to Scremerston first school which is excellent. Yes it's a catchment school but not only that not everyone wants to put there kids into a catholic/Christian school. If you close this then you are removing all options for parents. As all other schools are religious based this one is not. It also has a good ofsted. If this closed I'd be forced to send my children into one of two schools as mentioned in the original proposal. That's unfair. One of the schools have had poor Ofsted reports year on year and is notoriously known as a bad school. Adding more children to such a school will have a negative impact on the children of Scremerston school. Lower grades etc. I think we'd go home school than pick one of those schools. Scremerston school is so important for a number of reasons. Please don't close our kids schools	No	None
Staff Member of Berwick Academy	No	For the reasons outlines above, I believe the three tier model is not sustainable in the Berwick Partnership. St Mary's is already developing specialist provision and can do so outside of the structural changes in consultation. Berwick Middle did have specialist provision through 'The Bridges' but this was financially unsustainable. Given the declining school population and the subsequent impact on the budget of Berwick Middle School, this could not be a sustainable model.	Yes	This is financially more sustainable and an educationally sound model given that the Grove is an Outstanding school.

Staff Member of Berwick Academy	No	The proposal in the 2 teir model is better.	Yes	Much greater care will be offered to SEND students. A close working relationship between BA and the Grove is needed.
Parent/Carer of a pupil currently attending Berwick Academy	No	The Grove school needs a bigger building. My youngest attends the school, it is a fantastic school but there isn't enough room	No	As much as The Grove School is desperate for a new building, the noise from the academy at break times and lunch times would be too much for some of the children. My son struggles with the noise now and would struggle even more if it was next to the academy.
Staff Member of Berwick Academy	No	I support 2 Tier Option	Yes	The Grove School is equipped to manage significant SEND needs and having larger premises would mean local students would not need to travel and we can further develop expertise in the local SEND school through an improved provision.

Staff Member of Tweedmouth Middle	Yes	Berwick is in dire need of improved SEND facilities.	No	Again refer to Option C- a far better model
Resident/member of the community living in the Berwick Partnership	Yes	Provision for SEMH is essential for pupils in the Berwick Partnership and would be best facilitated by staff working at each phase	No	Under a 3 tier model (option C - an inclusive model), central hubs will provide SEMH provision across all schools. This would enable the Grove to expand their current provision for high needs SEND through a new build on a new site. This is vital as a large number of pupils with high needs SEND are currently having to travel out of the partnership. This would also mean a huge cost saving in transport costs.

Staff Member of Tweedmouth Middle	Yes	SEND - we need this provision in Berwick for our pupils. Something within OUR partnership. Vulnerable children should not be made to travel.	No	Within the Option C (inclusive model) hubs would provide SEMH needs across the partnership. The Grove would have a rebuild on a new site.
Staff Member of Tweedmouth Middle	Yes	Improving SEND provision is vital within partnership in Berwick. They should not have to travel outwith our partnership to receive the education that they need.	No	In the revised 3 tier model (Option C - An inclusive Model) centralised hubs would provide SEMH provision across all phases. The Grove would therefore concentrate on their current provision with the space to gain a new build on a new site. Pupils would therefore not need to travel outwith the partnership.
Staff Member of Tweedmouth Middle	Yes	Improving SEND provision for pupils in Berwick is essential. They should not be travelling further down the county to be educated/supported.	No	The Option C inclusive model will create hubs and provide SEMH support/provision across all phases of pupil's education. The Grove School could expand under this new model and provide

				more for our pupils with additional needs. This will prevent SEND pupils from travelling afar.
Staff Member of Tweedmouth Middle	Yes	Improving the SEND provisions is essential in the Berwick partnership	No	Under the 3 tier model (Option C) hubs would provide SEMH across the board for all phases. This would allow the specialist school in Berwick The Grove School to focus on their current work. There would be space to expand to a new build on a new site This will remove the need for pupils with high needs to be moved out the Berwick partnership.
Staff Member of Tweedmouth Middle	Yes	None	No	Tweedmouth middle is a totally inappropriate site for the Grove school.
Parent/Carer of a pupil currently attending Berwick Academy	Yes	Berwick needs an improved SEND provision.	No	Option C provides SEMH provision through centralised hubs across all phases. The Grove providing what they currently provide could expand on a new build and new site and this would mean pupils with extremely high needs would not have to be sent out of the partnership.

Staff Member of Tweedmouth Middle	Yes	Additional and improved SEND provision is essential in the Berwick partnership	No	Under a revised 3 tier model option C, centralised hubs will provide SEMH provision across all phases. The Grove school can concentrate on their current provision with space to expand this through a new build on a new site. This will mean we do not have to move pupils with extremely high needs out of the partnership.

Staff Member of Tweedmouth West First	No	I am in full support of a new build for The Grove Special School. I'd like the plan proposed by The Grove School to be considered.	No	The SEN children in Berwick deserve a new state of the art building and facilities. The facilities at TCMS do not meet the needs of these vulnerable children, they deserve better.
Parent/Carer of a pupil currently attending Tweedmouth Prior Park First	Yes	I am unsure why the scremerston first school shouldn't be reopened as a send centre	Yes	Berwick needs more send spaces
Staff Member of Tweedmouth Middle	Yes	Additional and improved SEND provision is essential in the Berwick Partnership.	No	Under the proposed 3-tier model option C - An Inclusive Model, centralised hubs will provide SEMH provision across all phases. The Grove could concentrate on their current provision and there would be no need to send pupils with high need outside the Partnership.
Staff Member of Tweedmouth West First	No	The Grove should have adequate provision to meet all needs	No	The Grove School should be relocated to a new build that is fit for purpose
Other – please state	Yes	It is important that the lack of SEND support is addressed in the Berwick partnership as there are far too many children having to leave the partnership to access the care and support needed.	No	Under the Inclusive Model provided by Tweedmouth and Berwick Middle School. A centralised hub would provide SEMH provision across all the phases/schools. The Grove School can then be expanded on a new site and provide the places and education for higher needs students who are currently having to travel out of the partnership for this provision.

Staff Member of Tweedmouth Middle	Yes	SEND provision is essential within the Berwick partnership - improved and additional provision is needed and a peripatetic service may be part way to supporting this.	No	Simply relocating The Grove to the site of TCMS is not a solution- it would also not be the most cost effective or long term solution - under a revised 3 tier model (Option C - An Inclusive Model) this option would see provision across all phases. Having a centralised hub for SEMH provision and allowing The Grove to build on their current provision and expand through a new build would remove the need for pupils to be sent to receive support from outside of the Partnership.

This will remove the need to send pupils with extremely high needs out of the Partnership.

Other – please state	Don't Know	none	Yes	This would seem the more attractive option and would lead to better outcomes
Other – please state	Yes	Additional and improved SEND provision is desperately needed in Berwick. Pupils should not have to be going down to Alnwick, Morpeth or Newcastle to access suitable education. One of my family members currently travel down to Barndale every morning to go to school due to his autism; this is disgraceful! He should be educated in his home town instead of being sent away every morning.	No	Again refer to Option C- a far better model
Parent/Carer of a pupil currently attending Scremerston First	Yes	New and approved SEND provisions are a must in Berwick	No	Under option C there would be hubs to support this. The Grove can concentrate on the fantastic work they already do.

Parent/Carer of a pupil currently attending Holy Trinity CE First	Yes	SEND provision needs to be improved. The Grove School should remain focused on the children they currently accept and should not have to cope with the demands of the SEMH problems coming through schools, this needs to be separate as the children require a different type of support	No	As stated above I believe SEMH needs a different approach due to the difference in support and teaching methods needed.

Resident/member of the community living in the Berwick Partnership	No	If we were in a campus based model like option c, SEND could be educated on site in a separate building but may still be able to access some lessons in main school.	No	Tweedmouths building is not fit for the purpose of housing the grove.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	Our children who need support should be able to get good support in their home town.	No	The Grove do need a bigger school so it would make sense to have them included in the new site.
Staff Member of Tweedmouth Middle	Yes	Additional and improved SEND provision	No	Under the 3-tier model (option C - an inclusive model) with hubs that provide SEMH provision.

Parent/Carer of a pupil currently attending St Mary's CE First	Yes	Yes, I agree st Mary's is the correct location at primary level, i am unsure what provision can be given at middle school age in the 3 tier option, and the academy should definitely take over and have a specialist provision.	Yes	I can see huge benefits from relocating the grove and including the semi, i feel we need to seriously look at all the options in order to make sure we have the best offering possible to stop children with behavioural needs having to travel 2 hours daily to attend a setting that suits.
Staff Member of Berwick Academy	No	I believe in the two tiered model	No	I strongly believe in further SEND SSB to be developed within the Partnership but for the SEMH provision to be within the mainstream setting.
Staff Member of Scremerston First	Don't Know	none	Yes	I agree that SEND in Berwick needs funding and improving. The Grove school has to be very selective as to what pupils can attend due to not having enough places so a bigger site is very much needed.
Parent/Carer of a pupil currently attending Spittal First	Yes	None	No	None
Staff Member of Tweedmouth West First	No	The Grove School is essential to the children with SEND in the North of the county. It serves 3 main purposes:- to give children in Berwick and beyond the appropriate environment in which to learn and thrive; if it had sufficient capacity it would prevent many children having to travel elsewhere in the county to alternative provision, at huge cost; if the Grove has sufficient capacity it would relieve the pressure on mainstream schools who are receiving increasing numbers of high needs children. The Grove needs a new, bigger, purpose built premises in order to maintain its outstanding grading, and continue to provide excellent care for our SEND children	No	The Grove provides excellent care for the category of children it serves. To try to attach SEMH needs onto that would not best serve either group of children and young people.

Parent/Carer of a pupil currently attending Berwick Academy	Yes	Additional needs and improved send provision is essential in the Berwick area. We need this for our childrens needs.	No	The grove could concentrate on children they have and be able to expand their buildings caring for children in the area, this would remove the need for children to travel out of the area.
Staff Member of Tweedmouth West First	No	There will not be enough long term provision with this option. A specific ASD unit is required locally	Yes	This sounds more viable although I still feel a new building is required to meet the needs of the school and those who attend it

Staff Member of Tweedmouth Middle	Yes	It is important that the lack of SEND support is addressed in the Berwick partnership as there are far too many children having to leave the partnership to access the care and support needed.	No	Under the Inclusive Model provided by Tweedmouth and Berwick Middle School. A centralised hub would provide SEMH provision across all the phases/schools. The Grove School can then be expanded on a new site and provide the places and education for higher needs students who are currently having to travel out of the partnership for this provision.

				SEND. However, we believe the current Tweedmouth Middle building is not fit for purpose as a SEND specialist provision and would need significant adaptations or a rebuild to make it suitable.
Parent/Carer of a pupil currently attending Glendale Middle	Don't Know	The area is crying out for specialist provision for academically able children	Don't Know	None
Resident/member of the community living in the Berwick Partnership	Yes	The increasing number of children with Special Educational Needs	Don't Know	The question groups different issues. The possibility of a peripatetic service is worth exploring, but it is not clear whether the relocation of The Grove and the widening of its remit would detract from its current excellent provision.
Representative of a Group or Forum e.g. – please state	Yes	We support a proposed model for additional Special Educational Needs provision within a revised structure in the Berwick Partnership for ALL Schools in the Partnership to have SEND support through a peripatetic service as this is essential in the Berwick Partnership.	No	A revised 3-tier model with centralised hubs which will provide SEMH provision within the town across all the phases. As proposed in Option C – An Inclusive Model this would allow The Grove Special School to concentrate on their current provision whilst also offering the opportunity for a new build to be created thus removing the need for some of the towns more extreme high need children and young people having to travel outside of the Berwick Partnership in order to access an education.

Staff Member of Tweedmouth Prior Park First	No	In the current 3 tier structure there isn't the capacity to support and educate our high number of SEND children in the Berwick Partnership. The Grove currently has a very narrow definition of the children it will and won't support and isn't looking at the changing needs of the children in this Partnership. Other – please state	Don't Know	I do support the need for additional SEND offering within the partnership however having a dedicated school only at St Mary's I feel isn't right, I think there is a danger that pupils who are singled out to attend what will be viewed by their peers as a 'special' school' will lead to an increase in bullying and isolation for pupils. I am all for enhancing the SEND offering however I think if you look at Scremerston as an example, this is offered day to day where pupils are included with additional support where necessary and feel very much part of the school with valued input.	No	I support the need for additional SEND support in schools however not through a peripatetic service especially when we offer this in school already with qualified staff, look at the Scremerston model it works!

Staff Member of Berwick Middle	Yes	None.	No	None.
Staff Member of Berwick Middle	Don't Know	I believe that St Mary's, Berwick Middle and Berwick Academy should be allowed to add to their provision to improve the SEND provision within the Berwick Partnership, and I believe that this needs to happen as soon as is possible. Having said that, there would be pupils for whom this provision would not be suitable and so I do feel that more information about the proposed "peripatetic service" is desperately needed, for example, who would provide this? How would these be linked to the specialist provision at the three sites discussed above? How would schools access this service? How would this be funded and by whom? I do feel this service is needed but feel that all of these questions need careful consideration to ensure the service meets the needs of the community. I do not believe that The Grove School can meet the needs of the Berwick Partnership at its current site. The Grove's PAN needs to increase so that more pupils can attend this setting. Far too many pupils are having to wait for a place or travel long distances to alternative SEND provision elsewhere in	No	I am categorically and completely opposed to a two tier model for the Berwick Partnership in any way and in any form due to the reasons I have discussed in sections 8 and 15

Governor of Holy Trinity CE First	Don't Know	I believe that St Mary's, Berwick Middle and Berwick Academy should be allowed to add to their provision to improve the SEND provision within the Berwick Partnership, and I believe that this needs to happen as soon as is possible. Having said that, there would be pupils for whom this provision would not be suitable and so I do feel that more information about the proposed "peripatetic service" is desperately needed, for example, who would provide this? How would these be linked to the specialist provision at the three sites discussed above? How would schools access this service? How would this be funded and by whom? I do feel this service is needed but feel that all of these questions need careful consideration to ensure the service meets the needs of the community. Staff Member of Tweedmouth Prior Park First	No	none	Yes	There is insufficient places for SEND children in this area, children have the right to be educated as close to home as possible. Travelling in busses and hired cars to sites quite a distance away is not the way forward. Risk assessing this model is awful, you only have to look at the terrible car accident last year when a hired taxi carrying driver (who died), care assistant (who has been terribly injured - life changing) and child to a site a long distance

Governor of Tweedmouth Middle	Yes	Additional and improved SEND provision is essential in the Berwick Partnership	No	Under a revised 3-tier model (Option C – An Inclusive Model), centralised hubs will provide SEMH provision across all phases. The Grove can therefore concentrate on their current provision with space to expand this through a new build on a new site. This will remove the need to send pupils with extremely high needs out of the Partnership.

Parent/Carer of a pupil currently attending Norham St Ceolwulf's CE First	No	I support 2-Tier model.	Yes	Special Educational Needs is extremely important and should be provided for within the re-structure to a 2-Tier model.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	Yes I agree with the proposals and would also want expanded provision to cater for differing needs for all ages.	No	I believe the modified 3 tier proposal would be a better alternative if it was expanded to include more support for differing needs at all ages, as mentioned in Q23 answer. Staff Member of Tweedmouth Middle	Yes	I support the building of a new special Grove school as part of a campus model to meet the need for places in the partnership. This would mean pupils no longer having to travel out of the partnership to access their place.	No	Under a 3 tier model (option C - an inclusive model), central hubs will provide SEMH provision across all schools. This would enable the Grove to expand their current provision for high needs SEND through a new build on a new site. This is vital as a large number of pupils with high needs SEND are currently having to travel out of the partnership. This would also mean a huge cost saving in transport costs.

Staff Member of Tweedmouth Prior Park First	No	In the current 3 tier structure there isn't the capacity to support and educate our high number of SEND children in the Berwick Partnership.	Yes	Every child with SEND has the right to education as close to home as possible. The current Grove site is no longer big enough for the number of children who need to access it within the partnership. There are increasing numbers with SEMH within the partnership whose needs need to be met. As a partnership we need to address the growing numbers and provision for children with SEND. However, we believe the current Tweedmouth Middle building is not fit for purpose as a SEND specialist provision and would need significant adaptations or a rebuild to make it suitable.
Resident/member of the community living in the Berwick Partnership	Yes	Special Educational Needs support for children is extremely important in the development of all children. More and more children require this help as we have in recent years and continue to learn about the various types of learning difficulties that exist. Therefore it's important that Special Educational Needs systems are readily available and accessible for all.	No	I don't believe a 2-tier model would benefit the Berwick area and its children.

Staff Member of Berwick Academy	No	I do not support continuation of the three tier model at all.	Yes	I actually think that Tweedmouth Middle should become the primary school site for Berwick - the Grove school could use the Berwick Middle site.

Resident/member of the community living in the Berwick Partnership	No	I do not support 3 tier in any form.	No	I think Tweedmouth middle would be best used as a primary school site, and the Grove relocate to Berwick middle site.
Staff Member of Tweedmouth Middle	Don't Know	I think schools within the area could support the grove school massively. I'm not sure it should just be one first school	No	I don't think this will work at all

Question 4 - In what capacity are you responding to the consultation? - Please select option from the dropdown list	Question 22 - Having read the consultation document thoroughly, I support the proposed model for additional Special Educational Needs provision within the revised 3-tier structure of schools in the Berwick Partnership through the addition of specialist provision within St Mary's CE First, Berwick Middle School and Berwick Academy, with The Grove Special School continuing with its current provision at its current site. This model includes a proposal for all schools in the partnership to have additional SEND support through a peripatetic service to be explored. - Please select option	Question 23 - Please give the reasons for your answer or state 'None'. - Comment	Question 24 - Having read the consultation document thoroughly, I support the proposed model for additional Special Educational Needs provision within the 2-tier (primary/secondary) structure of schools in the Berwick Partnership through the extension of The Grove's specialist provision to include SEMH and its relocation to the current Tweedmouth Middle School site, and for a proposal for all schools in the partnership to have additional SEND support through a peripatetic service to be explored. - Please select option	Question 25 - Please give the reasons for your answer or state 'None'. - Comment
Resident/member of the community living in the Berwick Partnership	Don't Know	I don't have sufficient understanding of the particular issues.	Don't Know	I don't have sufficient understanding of the particular issues.
Parent/Carer of a pupil currently attending Berwick Academy	No	Absolutely not these children cannot cope with main stream school and you want them to come together. I have 2 children at the grove school and it's upsetting to think that you would even dream of doing this our poor children matter	No	Their is no way you will get children going to school knowing they have to go between both school you are basically asking them to be targets for bullying and This will impact on their mental health and school attendance will drop
Parent/Carer of a pupil currently attending Berwick Academy	No	None	Yes	Every child has the right to be taught in a school close to their home.The school would need some adaptions to support the needs of the Grove school pupils.
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	None	No	None
Staff Member of Tweedmouth Prior Park First	No	In the current 3 tier structure there isn't the capacity to support and educate our high number of SEND children in the Berwick Partnership.	Yes	Every child with SEND has the right to education as close to home as possible. The current Grove site is no longer big enough for the number of children who need to access it within the partnership. There are increasing numbers with SEMH within the partnership whose needs need to be met. As a partnership we need to address the growing numbers and provision for children with SEND. However, we believe the current Tweedmouth Middle building is not fit for purpose as a SEND specialist provision and would need significant adaptations or a rebuild to make it suitable.
Parent/Carer of a pupil currently attending Berwick Academy	Yes	The needs of the children best met through 3 tier. However The Grove school requires a new building not remaining on its current site in order to increase its capacity	No	None
Parent/Carer of a pupil currently attending Hugh Joicey CE First	No	None	Yes	Seems a sensible proposition
Resident/member of the community living in the Berwick Partnership	No	SEND children should have the option to be educated locally and not sent in a taxi to the south of the county	Yes	This would allow more SEND children to be educated locally
Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	None	No	None

Resident/member of the community living in the Berwick Partnership	No	I do not support the 3 tier model	Yes	None
Other – please state	No	None.	Yes	I agree that this works well within the two-tier model.
Parent/Carer of a pupil currently attending Holy Trinity CE First	Yes	The Grove school is not big enough to cope and needs to be bigger. Children are having to travel to get their education.	No	Has to be part of Three Tier system

Parent/Carer of a pupil currently attending Spittal First	No	SEND provision should be at The Grove and across more schools within the partnership.	No	None
Parent/Carer of a pupil currently attending Berwick Middle	No	None	No	The site isn't not appropriate for the grove and they should only be taking children with disabilities though to give them the best support
Parent/Carer of a pupil currently attending Berwick Middle	Yes	None	No	None
Parent/Carer of a pupil currently attending Berwick Middle	No	The grove needs a bigger school on a purpose built site	Yes	The grove with get their needs met

Parent/Carer of a pupil currently attending Tweedmouth Middle	Yes	None	No	I do not want a two tier system I have a toddler up and coming and much prefer the system as it is!
Staff Member of Tweedmouth West First	No	The Grove need a bigger purpose built school	Yes	It would give the Grove a new school to meet the needs of the children .
Resident/member of the community living in the Berwick Partnership	No	There needs to be more places at the Grove School for SEND and separate, specialist long term provision for SEMH.	No	Provision needs to be rethought for SEMH - it is not appropriate to put this with the Grove's specialist provision
Parent/Carer of a pupil currently attending Scremerston First	No	The grove school deserves a new purpose built facility	No	The grove must include SEMH it needs to be at a new purpose built facility
Parent/Carer of a pupil currently attending Scremerston First	No	The grove school deserves an new purpose built facility	No	This needs to happen in a purpose built facility to accommodate these pupils
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	The Grove school is full on its current site so this proposed model would not give any more spaces for children. The Berwick partnership desperately needs more special school spaces to stop our most vulnerable children having to travel for miles to access an appropriate education. However I like the idea of a peripatetic model. It would be good to have some specialist trained teachers in the area to offer advice and support to schools so that teachers were supported to enable them to provide the correct care/ reasonable adjustments for SEND learners. Perhaps there could also be a shared SLA for Eps within this peripatetic model to support the finances of smaller schools but still enable schools to access support and training.	Don't Know	I believe the SEMH hub is already open at St Mary's First School. What would happen to this in this model? I agree that The Grove needs a new site however. Their current site is very small and lacks parking.
Resident/member of the community living in the Berwick Partnership	Don't Know	Scremerston already deal with SEND support for children and there appears to be no reason why they could not add to this if allowed to stay open.	Don't Know	Scremerston already deal with SEND support for children and there appears to be no reason why they could not add to this if allowed to stay open.
Other – please state	Don't Know	There is a need for additional SEN provision but I think the inclusive model suggested by the middle schools would provide support for a wider range of needs.	No	See above.
Parent/Carer of a pupil currently attending Berwick Middle	No	None	No	Terrible idea. Lead by a teacher that has no idea on sen support let alone trouble shooting

Other – please state	No	NOT IF THE SYSTEM CHANGES TO 2 TIER	Yes	GOOD FOR THE GROVE TO HAVE BETTER BUILDINGS AND GOOD TO HAVE PROVISION FOR SUPPORT IN ALL SCHOOLS
Representative of a Group or Forum e.g. – please state	Yes	SEND - we need this provision in Berwick for our pupils. Something within OUR partnership. Vulnerable children should not be made to travel.	No	Within the Option C (inclusive model) hubs would provide SEMH needs across the partnership. The grove would have a rebuild on a new site.
Staff Member of Tweedmouth Middle	Don't Know	None	No	None
Parent/Carer of a pupil currently attending Scremerston First	Yes	the more SEND help and support available the better	Yes	the more SEND help and support available the better
Parent/Carer of a pupil currently attending Belford Primary	Don't Know	None	Don't Know	None
Resident/member of the community living in the Berwick Partnership	Yes	SEND requirements are high and this proposal will go some way to deal with these issues. The proposed campus option will prove to benefit SEND	Yes	Campus option will enable this to happen
Parent/Carer of a pupil currently attending Tweedmouth West First	No	The unit at St Marys is underused and poorly thought out. The Grove school achieves, this school needs a larger site-there is no need for any other. Invest in a building for this school, again, you have a duty of care-it is not acceptable that vulnerable children are being sent on long taxi drives every day.	No	See above
Staff Member of Berwick Middle	No	Having previously worked within Send support in Berwick for more years than I would like to remember I find this most personal. The Grove long since grew out of its site and due to a growing population of children with complex needs this needs to be adressed ASAP and a new school needs to be fit for purpose I do not think Tweedmouth is the building for this job and feel it should be especially built to fulfill future needs a lot of their pupils are particularly vulnerable so proximity to children with	No	I feel SEND and SEMH are both vulnerable and have very complex and differing needs and it may cause conflict.

		challenging behaviour should be avoided. Schools locally could have onsite support annexes with appropriate peripatetic support for the increasing numbers of children who can be supported within a mainstream environment giving them earlier access to diagnosis and strategies to promote their learning and support of their needs thus making a need for SEMH at a first school level less imperative most children manage mainstream until key stage two so this could make for an easier transition to specialist education if needed and minimise a need for children to travel out of their locality or even minimise the need for an early SEMH provision.. I do believe strongly that SEMH should be in one center these are often children who struggle greatly with change and although need differentiated support it also needs specialist staff consistency and a different model to school. Because this can cause friction with it should be adjacent rather than integrated to mainstream.		
Governor of Berwick Middle	Yes	There should be no need for pupils to travel long distances to receive an appropriate education and this proposal covers all year groups	Yes	Although I don't support the 2 tier model, I do agree that the proposed improvements to SEN would be very beneficial to the partnership pupils
Parent/Carer of a pupil currently attending Scremerston First	Don't Know	None	No	None
Parent/Carer of a pupil currently attending Scremerston First	No	This would force children with all SEN to be given a label and put into a special schools rather than promoting inclusivity across all sites.	No	This would force children with all SEN to be given a label and put into a special schools rather than promoting inclusivity across all sites.
Parent/Carer of a pupil currently attending Berwick Middle	Don't Know	I do not feel I have enough information to make a decision on such a complex subject. Would there be additional financial funds to support these additional provisions?	Don't Know	None
Parent/Carer of a pupil currently attending Berwick Academy	Yes	More must be done for SEND pupils without sending them in taxis miles away from home. Keep the middle schools open	No	The alternative model proposed by Berwick and Tweedmouth Middle is the better option
Resident/member of the community living in the Berwick Partnership	No	None	Yes	The SEND provision currently in place to serve Berwick does not have sufficient capacity or the facilities and capabilities to meet local need. These pupils and their families are being failed
