### Education, SEND & Skills Annual Report 2022-23

**Report of Councillor(s)** Guy Renner-Thompson, Cabinet Member for Inspiring Young People

**Responsible Officer(s):** Audrey Kingham, Executive Director for Children, Young People & Education

#### 1. Link to Key Priorities of the Corporate Plan

##### 1.1 Tackling inequalities-

Help improve the quality of early years' settings, schools and other providers, so that all children and young people, no matter their circumstances or educational need, have access to education as close to their home communities as possible and achieve the best educational outcomes.

##### 1.2 Economic growth-

- a) Develop the vocational education offer to provide clear pathways into apprenticeships, further education, higher education, and employment for all our young people and adults. We will do this by producing clear guidance for schools and settings on what good careers advice looks like, developing a curriculum and facilities which both support the ambition of learners and link to the workforce requirements for Northumberland. This will ensure all young people are supported to achieve their aspirations.
- b) Deliver skills and training for residents that meets their ambitions and supports the economy through greater links between learning pathways and opportunities in the economy, building on key relationships between education & industry.
- c) Through providing accessible programmes to engage residents and support them to move closer to training or work to tackle inequalities, improve individuals' life chances, and support the economy.

## **4. Forward plan date and reason for urgency if applicable**

Report presented to cabinet annually. Entered onto forward plan 9 November 2023.

## 5. Background

5.1 The Annual Report 2022/2023 shares the successes and significant levels of resilience that our children and young people as well as our workforce have shown throughout the year. Our schools, skills and college have adapted learning environments to be able to support many of our children and young people's needs as we live and work within increasing levels of need and challenging budgets.

5.2 The impact of the pandemic on children and their families has proved to be more significant in the North East than other areas of the country and this is reflected in Northumberland. Adaptations have been necessary not just because many pupils have missed out on learning, but also because many have missed out socially, got out of the routine of coming to school or are struggling with their mental health, very simply, more of our young people are struggling in education.

5.3 We know that many children find a school environment challenging and the work in schools supported by Northumberland Education and Skills team is significant to support continuing the education journey. Whilst many children are enjoying their journey and progress very well, the extent of the work to close gaps is still a challenge, especially for disadvantaged pupils who continue to attain below their peers.

5.4 The growth in Special Educational Needs has been and continues to be significant. Schools and settings are meeting higher needs with higher frequency.

5.5 Working with our schools and partners to support the ambition, transition, and development of all of our children, young people and residents to their next stage of education, employment and life with all of the challenges that cross their paths is a privileged role that is embraced and celebrated by the whole workforce.
