# Agreements Update Report

## May 2021

---

**Report of the Executive Director of Regeneration, Commercial and Economy**

**Cabinet Member:** Councillor Colin Horncastle

---

### **Purpose of report**

For Members' information to report the agreement monitoring and collection of s106 contributions in the planning process. This is a monthly report and relates to agreements throughout Northumberland during the previous monthly period.

### **Recommendations**

To note the contents of the report in respect of agreement monitoring and collection of s106 contributions.

### **Link to Corporate Plan**

This report is relevant to all of the priorities included in the NCC Corporate Plan 2018-2021.

### **Key issues**

This month's report provides details on new S106 agreements and unilateral undertakings completed during the month of May and payment received in May 2021. Information is also given around the contributions received for the Coastal Mitigation Service – now known as Space for Shorebirds.

## Coastal Mitigation Service

You may have noticed several payments being received for Coastal Mitigation Service. This extract from the Infrastructure Funding Statement explains a little bit about it and how the funds are spent.

### Space for Shorebirds – the Northumberland Coastal Mitigation Service

Nearly all of the Northumberland coast is protected because of the nationally and internationally important bird populations that live there, including a wide range of migratory and wintering waders and breeding tern species. This means that the LPA must consider the impact of increased visitor pressure when determining planning applications for housing and tourism developments within the coastal zone of influence. It is very hard for developers themselves to provide adequate mitigation for visitor pressures such as dog walking, because the only effective measures involve visitor management within the protected areas themselves.

In 2016-17 this was identified as an issue that had the potential to disrupt the delivery of housing in the county, and therefore a strategic mitigation scheme was established by the Council, the Northumberland Coastal Mitigation Service, now operating under the name of Space for Shorebirds.

Developer contributions are used to fund two Wildlife Ranger posts and a project budget.

The Rangers operate all along the Northumberland coast but focussed on key hotspots for recreational disturbance, reducing visitor impacts through a programme of advocacy, education and where necessary enforcement. They also undertake a programme of monitoring work to increase understanding of the status of the important bird populations and of the impact of disturbance on them, and will be controlling pirri-pirri bur, a non-native invasive plant species that is adversely affecting the internationally important plant communities found on the North Northumberland Dunes.

As at end of May 2021 over £3 million has been agreed in S106 agreements and Unilateral Undertakings for the Coastal Mitigation Service. Of which £ 375,000 already paid and received by the Council.
