## REPORT TO CABINET

9 NOVEMBER 2021

### **Northumberland Waste Management Strategy – Outcome of Kerbside Glass Recycling Collection Trial**

John Riddle, Portfolio Holder for Local Services, supported by Paul Jones, Service Director – Local Services presented the report to the Committee at its meeting on 27 October 2021.

The Committee discussed the implications for planning to ensure that provision is made for recycling facilities to be included in new build projects; the expectation that the Government’s “new burden” funding will be made available to support the delivery of the enhanced services, as outlined in the report, and concern that potential deposit return schemes may undermine elements of this scheme.

The Committee expressed its positive support for this scheme and thanked all the staff involved for the extra work that they had undertaken to make it a success.

The Committee therefore **resolved** that the Cabinet be advised that the Committee supports the recommendations in the report, noting the points set out above.

**COUNCILLOR NICK OLIVER  
CHAIRMAN**
