21. HOUSEHOLD SUPPORT FUND

Councillor R Wearmouth, Deputy Leader and Portfolio Holder for Corporate Services, presented the report to committee supported by Maureen Taylor, Interim Executive Director Communities and Business. The report outlined how Northumberland Communities Together would allocate the funding to support those who needed it.

The following comments were made in response to questions:-

- Members welcomed the report and expressed thanks to the Council's staff and external partners for their assistance in response to Storm Arwen.
- Members were reminded that a Storm Arwen mailbox had been set up for Councillors to contact the Council regarding concerns for residents.
- Members noted that the government advice had not been received for the previous discussion about the Household Fund. As the fund was not able to be used for Council Tax relief, officers were looking at other options and had created a mechanism that was to be more generous and hopefully help not only those for the 8% but also those just over that.
- With regard to the list of Trusted Partners and Referring Organisations, members were encouraged to help identify those groups not listed, but could assist in identifying individuals in need, to come forward to ensure that the scheme gets maximum coverage.

- Members noted that officers were confident that the Council would be able to provide support at least equivalent to full council tax scheme relief.
- Members noted that further reports, which would include information on how the Council have been able to support residents, would be presented to Cabinet and requested that they also be presented to this Committee.
- Members were reminded that a briefing had be given to all members to inform them about NCT, also NALC had invited M Taylor to make the presentation to Town and Parish Councillors and it was urged that all delegates attends.

RESOLVED the Committee agreed to advise the Cabinet that it supported the recommendations in the presentation, subject to consideration of the issues raised above.

22. NCTA DIGITAL PROGRAMME

Sarah McMillan, Assistant Service Director, presented to the Committee. The presentation gave an overview of the North of Tyne Combined Authority (NTCA) digital programme and how it would benefit the County.

The following comments were made in response to questions:-

- Members were assured that support was available to start-up businesses through multiple avenues and would be a specific response to the needs of the individual start-up.
- It was agreed that Degree Apprenticeships were an important part of what the North of Tyne were doing. The connection and links between skills, needs and business needs would be an important part of the programme.
- There was a specific programme of work that was to encourage businesses to embrace technology during the pandemic with specific funding. Due to the success of this programme it would be considered for any potential future funding to support such activity.
- It was agreed that it was important to close the digital divide, especially in rural areas. Suggested clustering would have been picked up by the wider programme. Work was underway on future programmes.

RESOLVED the Committee noted the information given.

23. DEBT RECOVERY UPDATE

Keith Teasdale, Recovery Manager, presented the report to Committee. The report gave an overview of the Council debt recovery and any outstanding debt.

- Members noted that sundry debts related to difficult circumstances and decisions and acknowledged the skills needed to administer this service effectively.

RESOLVED that Committee supported the recommendations in the report, subject to consideration of the issues raised above.

24. **WORK PROGRAMME**
